LADIES' READY-TO-WEAR

PILOT POINT, TEXAS.

December 2nd. 1925.

Mr Amon G. Carter.,
Ft-Worth, Texas.

My Dear Mr Carter.,

I have read with particular interest the two letters published in your paper of certain dates, relative to the incident at the A. And M. and Texas football game at Bryan, And the requested resignation of you as a member of the board of the Texas Technological College.

It does seem to me that you have met the issue fairly and squarely, and that you have upheld and defended the qualities that have always stamped you as a pure American Gentleman.

I hold no brief for any man simply because he belongs to any clan and feels that he should assert himself because of that organization, and I can plainly see from the tone of your letter that you only considered the principle involved.

I have never met you personally Mr Carter but that fact does not make me backward in expressing to you and telling you that I heartilly endorse the position and attitude that you have taken in the above matters.

With best wishes for your continued success
I am your very truly,

J. R. Luck
