Mr. Amon G. Carter,

Fort Worth, Texas.

My dear Mr. Carter:

It is but fitting that I should confirm by letter, my telephone conversation with you of some days ago, to give further assurance, not only of my highest personal esteem, as a gentleman in every respect, but, to state that of all the influences which have had to do with the remarkable achievement of the Texas Technological College, I consider that as the chief executive of this college, the exercise of your ability as an organizer has been the chief factor in "putting over" the college as an acknowledged success in the first year of its operation.

As a member of the Board, I would be ungrateful indeed if I did not say that it has been my pleasant privilege to follow your leadership; knowing that from the very inception of the idea you have been its whole-souled supporter, not alone in thought but in activity with the necessary ways and means to do things in its behalf.

It would in my opinion be disastrous to the college; it would be disastrous to Western Texas, and the State of Texas as a whole, to even consider removing yourself from your present association with the Texas Technological College. I believe that Western Texas as a whole would demand a continuation of your services in your present capacity.

Believe my friendship and esteem; and I am,

Sincerely,

Vice-Chairman, Board of Directors,
Texas Technological College.
