Charges in Governor's Letter Seeking His Elimination From Tech Board Called Malicious

Dear Governor:

The demand for my resignation as president of the Texas Technological College was made by Governor N. J. in his recent proclamation to the people of Texas. He declared that the college was in acrobatic performance, the people of Texas would be benefited by my resignation, and that it was necessary for me to answer the charges which are so freely and forcibly made by him.

The demand for my resignation is based upon the charges which have been made by a group of lawyers and physicians, who have been employed by the Texas Technological College, under the direction of Governor N. J. These charges are based upon the activities of the college, the actions of the president, and the personal lives of the students.

I shall not attempt to refute these charges, as I have no opportunity to do so. I shall simply state that they are false and unfounded.

I am writing this letter to the people of Texas, to explain the facts and to give them an opportunity to judge for themselves.

The demands for my resignation are based upon the charges that the college is not in compliance with the laws of the state.

I have never had a highway contract, nor have I ever admitted to any violation of the law.

It is strange, passing strange, that Governor Jim should seek to clothe himself with hundreds of university and college officials, concerning whom he offered no proof, no evidence, no testimony.

It is necessary for me to say that Governor Jim seeks to divert the public mind from the issues which are so clearly presented before the people of Texas.

I must also state that Governor Jim seeks to cloak himself with hundreds of university and college officials, concerning whom he offered no proof, no evidence, no testimony.
