The scheming politicians of the state have pawed the sand and bellowed in vain attempt to create excitement among the people for an extra session and for apyrotechnic display of political bunk. The effort has been a failure as Speaker Satterwhite has discovered, as shown by his announcement of Monday. The sensible people of Texas have seen the bug under the chip; have not been able to discover any cause for such session; have shown disgust at the pitiful raze of the schemes for personal ends.
