AMON CARTER REFUSES TO RESIGN

By the United Press.

FORT WORTH, Dec. 1.—Amon C. Carter, publisher of the Record-Telegram, will not resign from the board of the West Texas Tech, as requested by Governor Ferguson. In a lengthy statement issued at 12:30, he denied all the charges contained in the woman executive's letter and declared he would only offer his resignation through a demand of the people or other members of the board.

He said the Governor's charges against him were made in an effort to "divert attention from Highway expenditures situation" at Austin.
