

I must
stop now
my paper
is full. The
children
write, but
will be
sleeping
Good night
Lullie

Home, June 8. 81.

I have several
letters to send
but will only
send Mr. & Mrs. Hunt
this time

My dear Addison

We received
your letter from Huntsville
this evening. I feel so thankful
that you did not have a long
spell. I have felt uneasy
ever since hearing that you
were sick. The children
were delighted with their
letter. Little Sister says she
knows she can read papas
letter. She has been talking
a great deal about you the
last few days. Olin says, "I wish
papa was here." Lullie says
she wishes his wagon was
here now. Mother looks down
the first time they took it.

to town. We have no way to
get anything except what the
children can carry. I am needing
chicken feed but I reckon will
have to let them do without
I dont like to ask Jesse to do
anything, he is so funny.

The Boys at the College
have been very kind about
milking. Mr. Souther mistook
wrote he was taken sick, then
Mr. G. came till he was taken
with the same disease. Mr.
Watson has been coming for
more than a week, he will
leave in the morning is going
out to work on Randolph's
Ranche. I will try to manage him.
Mr. Souther started home
Monday, he and Mr. Graham
have both been quite sick.
They moved Mr. G. to Geo.
Gardners, this evening

he is improving slowly.
Sister Douglas is still
very sick. It is doubtful
whether she recovers or not
the flux is stopped. I dont
know what is the matter
with her now. One thing she
has been a slave to Morphine
for several years. Bro. Douglas
did not know that she ever
took it except when in great
pain. Mr. Berry's wife
was buried yesterday.
The man that did the
plowing for us. We are
needing rain very hard.
it is so hot and dry every
thing is burning up.

Father got home Saturday
he says his trip improved
him very much. He and
Mother are going to Dallas
next week. Mother is going
to be treated for piles.

Mr. want you to come home very bad.

It is a great-undertaking for
mother. I do hope she will
be cured. I think Ben
will be at-home next week.
Kathie Bell was greatly
pleas'd to get your letter
he brought it by for me
to open and read it for
him. Pappa I dont-know
what-to say about-taking
that lady. If I could see
her I would know better.
I dont-want-any one to
help me in the kitchen.
If I can be in there at all
I can do the work. It is
only one persons work. I
know we will be compell'd
to have some body after while
to do the work. I dont-know
whether it-will do to have
two to get-help to do the
work, or not-I get-along
very well now with the
childrens help.
