

At Home Lord's Day
Evening Aug. 29, 1878
Dear Sister!

I answered your
letter immediately after it
came to hand - but have
had no word from either of
you since then - I cannot
account for Adgison's
not writing - heard of his
being at McKinley a
whole week only preaching
at night - he surely had time
to write us a few lines.
I wrote to him at Pilot
Point: did not know where
to direct any other letter,
or I would have written
again - though I've had
a good chance for writing -
times got so dull that I
at

the Store and went to work
hauling up my hay and
winters wood - have a fine
chance of wood - pay not
good - has moulded a little
in consequence of the wet
weather - we have had an
abundance of it - have opened
the Store again now buying
and shipping wheat - also
shipping some flour. Load
ed a car partly yesterday
rain prevented us finishing
will have to do that before
the train comes in the
morning - have a young
Man staying in the Store
I could come out any time
now if our little girl could
get well enough - but she is
quite feeble - dont improve
any - we would have been there

ere this if it had not been
for her being sick. Bought
me four books - was a bit
late
in a case of sale remaining
which was there only a few
days before Court adjourned.
then the baby has gotten so
had to start - She has been sick
I dont know whether
or we can come or no - will de-
pend entirely upon her recovery
and other things that may
come up to prevent - know you
are worn out - looking for us -
dont look for us any more
than if we do come it - will be
a big prize. Sister and the
little boys - get right - friends
all well. Had a big sweet
ding at unch b. & Ella
and Sam married with
you best. Lis talked around

that Charley and Kate
Brought are going to
marry perhaps tis just
rumor - at least I hope
so for although Kate's spirit
is said to be hard to find
I think he could do
better - there are things
connected with her life
that will always render her
an unhappy creature - besides
I learned only a few days
since that she is an Opium
eater - but enough of that
Keep this to yourself, as I
would not injure her for
nothing - for tis not my
aim to injure any
one - Had meeting & day
but poorly attended - tis muddy
for the particular ones - wonder
if the mud will not prevent
many a conference
Hadden

Aunt Anny Fannie
and Jennie were all up.
last week - Aunt A. remained
all with Martha - they were
all well - Jennie looks just
like she dies when she was
a girl. Have had no chance to
sell out - thought perhaps Allen
Den would meet with some
one in his views that would
like to come here - but I see
as he has not - or he would
have reported in this. Mr. Clark
is up in the Nation preach-
ing to the Chics - & Gov.
Overton is a member of the
Christian Church. - We have
had no preaching here during
vacation - we need to be urged
up - by the discharge of our duty
too be warm - and I am of
the opinion that that is the way

of the majority of the Congregations throughout the State; though I trust it is not.

Went to a close Sister is nursing Pearl - She is a sleep - Ernest is up at his Grandpa's. Pearl has fever one night and day in three - this is her day for fever she is very sick.

I never said any thing about a name for your boy, because I thought we would be there and see him - and see if he was worth a name. presume you have named him ere this. Write - write tell Fred. to write immediately after he gets home and give an account of himself. Much love of all to all this the little ones love
your Brother
J. M. G. G.
