

May 17, 1943
Sacramento, Calif.

Dear Mr. Carter,

I meant to write you a long time ago and thank you for the favor you did for me. I didn't get pilot training but as the results of your letter I was able to transfer to the Navigation School. I really appreciated this and hope that some time I can repay the favor.

I just heard last week that little Amou had been captured in Africa. I was really sorry to hear this and hope he wasn't sent out of Africa before last week.

If you know his address I would like to write him for I know he would enjoy getting a letter from anyone. I'll bet if he is in a concentration camp he will get out if there's any way to get out.

Sincerely,
Bill Dunigan
