Mr. Amon Carter
Fort Worth Club
Fort Worth, Texas

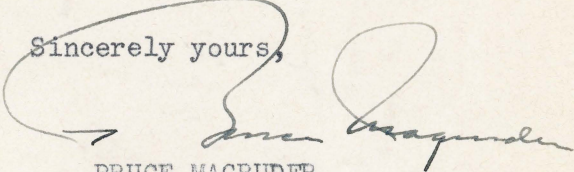

Dear Mr. Carter:

I tried to locate you at the Club one day last week. Just wanted to tell you how glad I was to know you had received the good news and that young Amon had been located. The 1st Armored Division did a fine job over there and if they can keep going maybe they can pick up the young man before long and bring him back with them.

The young lady from North Carolina delivered your package and it just happened that an officer and his wife who had served with the old outfit at Knox were in for dinner with us that evening. Your thoughtfulness added to the gathering and, needless to say, we all enjoyed it very much. I am still hoping that you will drop in on us some time for a little visit. We have a few things that might be of interest and then, too, don't forget the Crazy Water baths for the tired business man. I tried to get word to you when we had the film showing the troops in Tunisia here. I found, however, that you were out of town, and Mr. North told me that you had already seen the picture somewhere else.

Many thanks for your thoughtfulness and please let me know when you travel this way.

Sincerely yours,

BRUCE MAGRUDER,
Major General, U.S. Army,
Commanding.
