

215 Young Street  
Alamo Heights  
San Antonio, 2  
Texas

Mr. Amon Carter  
Fort Worth  
Texas

Dear Mr. Carter:

Since your son is also a prisoner of war in Germany, I know you will be interested to hear what a splendid start we have made in San Antonio with the Prisoners of War Relatives Association about which Miss Jackson in Buffalo has already written you.

We feel that in San Antonio we have the nucleus of an association which will, with proper organization and backing, become nationally powerful in helping both the prisoners and their relatives.

The enclosed letter from Miss Jackson makes it clear that the need of such an organization is becoming increasingly vital and Texas will probably lead in the number of those interested.

This organization is now before the President's Committee in Washington for Charter. We realize the importance of immediate national recognition and publicity, and we feel that with your interest and backing this can be accomplished.

We would appreciate your views on how best to promote our mutual problem. At present we meet bi-monthly and have fifty some members all vitally interested in the propagation of American Prisoners of War Relatives Association.

Sincerely yours,

*Carolyn W. Clark*

Mrs. A. P. Clark, jr.

.....

As soon as we have any news from "Life" I will let you know at once.

We are sending our applications for registration to the Presidents Committee in Washington. We must wait until that is officially granted before we do anything formally about the relatives association. In the meantime, it is helpful to find all who are interested so that as soon as we know exactly what to do we will lose no time in organization.

A lot of requests are coming in from the relatives of Stalag Luft as your husband said they would. We are so glad to be able to help as there was certainly general confusion.

With best wishes to you and Mrs. Wheeler,

cordially yours,

Helen Wade Jackson,  
Co-chairman Parcels for Prisoners of war
