Dear Amon:

I tried to telephone you some time ago when your boy was found but could not get hold of you in Ft. Worth. Since then, I have been on the move, being practically everywhere except the Derby and I am wondering if you attended that.

Even at this late date, I want to tell you how happy we all were that your boy came through, and hope that the European end of this thing may be concluded at an earlier date than some people think possible, so maybe he can take a crack at the Japs.

I do wish you would let me know when you are coming this way, as I should like very much to see you.

Cordially yours,

*Joe*
