Tuesday

Dear Susan —

Got your letters & was certainly glad to hear from you. I know you are really having the time of your life over there. Wish the hell they would send me over some time soon.

I guess you really have been seeing the place after moving & also being with your Dad. I want to see him when he gets back so he can

tell me more about what's
going on.

I got to see your mother
and now & then - also Katrina.
They are both fine except they
worry alot about you - as all
mothers do I guess.

I was in a pretty bad plane
crash not long ago but was
very lucky not to have gotten
hurt too much - it was some
up & down & glad it doesn't
happen ever day. We tore the
plane all apart - lost both
engines, landing gear, wings & etc.
really was not much to look at.
I was flying it - just riding.

Her, you should really be glad you are not seeing A. Worth as it is to-day - I fly from here to Calif. going through Ft. Worth & it's not the same old place.

Frank Crowley is near here & is coming down here for Christmas day - will be good to see him. Saw Frank & Betty of the they were married - all Gwen does is talk about sleeping with his wife - Betty! What a guy - he really loves it if you know what I mean. The

Army is about to get Frank Thompson - he is really worried about going in. I see quite a few kids from the University & they all ask about you - you certainly did know a lot of people down there - seems ever day I see some

one that knows you & wants
to know where you are.

The girls in Washington are
many but not very good looking.
In fact, they are for the most
part - awful!

I may get it over to see
you soon & feel sure that John
will - he is still in Mass.

Drop me a line & want to
wish you a Merry Christmas &
Happy New Year - better late
than never - hope we are all
to-g-ether next & over - nothing
like a little wishful thinking.

Your Pal
Arthur
