Dear Mr. Carter,

My name probably won't mean a thing to you but I think your secretary will remember me. She called me about 3 weeks ago and gave me a message from Brooks, that you had cabled her. Mr. Carter, I can never tell you how much I appreciate your doing this for I have not had any news from my husband since.

I know you are awfully busy but if you could write me a note and tell me any news at all about my husband I would be forever grateful. It would mean a lot to me to talk to someone who had talked to Brooks - (I know that you will agree with me that all women are crazy - and I'm no exception!)
Yours sincerely
Mrs. Brooks Martin
