My dear Mr. Carter:

I have been following the reports in the Chicago Tribune about Amon Jr. It announces today that you have been officially advised that he is a prisoner of war in Germany.

As you may remember, Amon Jr. and I were closely associated while he was a cadet at Culver, during which time I was living in Main Barrack.

I would like to write to Amon Jr. If you have any definite information with regard to the addressing of such letters, and if the number of letters that may be sent is not limited, I would appreciate it if you would give it to me.

Yours sincerely,

M. S. Myers
