Mr. Amon G. Carter,
Ft. Worth,
Texas.

Dear Mr. Carter:-

Mrs. Marable and I appreciate very much your recent letter concerning our boys in Oflag 64 and particularly do we appreciate your efforts to improve conditions at this camp.

We, too, regret that your son will have to bear another winter in that cold and desolate place. The very fact that he has been physically able to withstand all the hardships encountered thus far gives us so much hope that eventually all of them will be liberated and returned to us alive at least. And what joy it will be to care for them while they are returning again to normal.

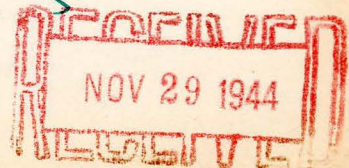

We have had numerous cards and letters from short wave radio fans thruout the country telling us of hearing a message from our son read by a Berlin announcer on the night of November 17th. Of course we realize this message could have been quite old and that it doesn't necessarily reflect recent news. At the time, he was well and was requesting us to write him often.

Our boy has spoken often of Amon Jr. and Bob Henry and told us in his first letter how wonderful they had been to him. I know he appreciates their kindness so very much.

Please convey our best wishes to Amon Jr. when you write him and tell him we are all thinking of him and praying for his early release.

Sincerely,

P. D. Marable
