

May the twentieth -

Miss Katrina Perkins

Secretary to A. G. Carter

My dear Miss Perkins:

I am enclosing
a clip sent me by a relation who knew
Aunt Jo. and Bruce very together. as Bruce
had died and talked with them, about
the time St. Pirnie and Carter arrived
at Hunt. I must to thank you also for
the newspaper sections as well. They were

organization, who had been with him
that he started to "walk out" about
two days later, obviously through enemy-
held territory. That is all we can tell
you - inasmuch as he did not get out.

----- Each and every one reports
----- Excellent Officer ----- Furthermore, it
will be of interest to you that even though
surrounded by the enemy he calmly
stayed at his post giving us information
concerning enemy movements via radio,
thus rendering great aid to those who
were fortunate enough to withdraw.
We truly feel that he is alive and well
----- unfortunately, individual verification
is impossible.

Capt. W. H. McWhirter

Very interesting. I also saw Mr. Carter in
Life!

My brother wrote headquarters of the
91st F.A., and received a reply some time
ago. It occurred to me that Mr. Carter
might do as we do when we see word
about Anson Jr. - that is to think the boys
probably were together - at least part of the time.
This Y letter I shall quote in the part that
may interest you - of Anson's friends -

"Bruce was surrounded at his
location, by the enemy and was unable
to withdraw with our unit. We later
learned from a sergeant of another

91st Armd. F. A. Bn.

"He can give you the information since Mrs. Lee has already received notification."

My brother Mr. Wm. B. Lee, Capt. in last war, acknowledged, and informed the Captain that Bruce lived.

I do not like to trust the letter to the post. I may value it too highly. To me, it is a Citation of bravery. Though I dare say it'll state no ribbons. I think Amos J. was right there.

I have as yet no direct news of Bruce. I hope he is sound - and both of the boys will be discreet (!) and LUCKY.
Very truly yours - Frank Lee
