Dear Mr Carter:

I have just finished reading about your good fortune in being reunited with your son.

I hope that when you get home to Texas you will help the Chicago Citizens Committee on Press and Radio.

I just read about them in the New York Post on a write-up from Francis McMahon it was in May 5 paper he expresses just what I would like to say and write if I only had the education.

You should get after people like Daily News, Fulton Lewis Jr.

We want to read and hear the news but let it be the truth why they even put out belated FDR in the paper with those two hums Hitler

and muss by saying now
that those three trouble
makers are dead that is the
daily news so ask you how
what should be done with
people like that he should
be able to tell you.

They are cutting San Francisco
trying to break up that
conference by head lines
like Russia went down
in defeat overwhelmed by
U.S. Great Britain and Latin
American countries you
would think it was a
big world battle
I don't know what you write
out there as I come from
N. J. C. but if you are
isolationistic I hope by now
you will be changed

Sincerely

Catherine Callanan
