Dear Amon:

Let me congratulate you most sincerely on finding young Amon alive and well. I know you are still abroad, but I wanted to let you hear a word from me.

My friend Ed Pauley has just been named by Truman to go to Moscow to represent the United States at the Reparations Conference. I think possibly Buddy Fogelson may go along, as you know he has been abroad for over a year, and there will be no soft peace with these boys. I am not sure about Fogelson going, but think this is in the ~~w~~ill, as he is one of Ed's closest friends.

With every good wish, I am

Faithfully yours,
