

November 22, 1943
U. S. Navy yard
Portsmouth, N. H.

Dear Katrina,

It has been so long since I have heard any news about Amon, and would give any thing to know that he is all right and feeling fine. I wonder if you would be kind enough to write me a short letter just to let me know the latest information that you have received. I have been listening to the radio and have heard various German prisoners of war who have been returned, and most of them had been there for a much shorter time than Amon. It would be possible for Amon to be back and I would know nothing about it.

I guess you know by now, but just in case you don't, I was married the 3rd of November in Austin. I think you and Mr. Carter know my wife, Maxine Robison,

because she has been to Ft. Worth
a few times with me, and has met
both you and Mr. Carter.

It was a very nice wedding, but
would have been absolutely perfect if
a man would have been there. I thought
about him so much, and every one
wanted to know if I had any news
about him.

I had a ten day leave, and after
being married in Austin, we went to
New York where we saw the army - Notre
Dame game and had a wonderful
time. I reported back on November 11th
and am now living in a small house
about ten miles from the Navy yard,
because the living quarters that are nearest
are more expensive and are not as good.
Maxine is really a swell girl and we
are very happy up here. I am still working

with, and testing submarines, and the work is very interesting. I will probably be up here until next spring and then go out.

How is Mrs. Carter feeling? I wish you would give him my very best regards. He has always been so nice to me, and I have appreciated it so much.

Very truly yours
Pat
