Fans could settle players, owners

The 1980 baseball season has been saved for now.

Yesterday, in Dallas, the player representatives met to see if they were going to strike on opening day or wait till later.

Fortunately, for the fans' sake, it's later. The players have made May 22 the target date for an agreement with the owners. If a contract isn't signed by midnight on May 22, the players will then boycott the grand old game.

For a long time, it looked as though April 9 would go down in history as the day that started the longest strike of major league players in the history of the game.

It won't turn out that way. One reason the players voted to delay their strike is so that they can collect a few paychecks from their employers. If the players don't play, they don't get paid.

It would've been nice to see the players delay the strike so that the fans, the same fans that pay good money to see them perform, could enjoy the opening day festivities. But no, the players selfishly grant the owners another month and a half to get the two sides' problems ironed out so they can receive those weekly checks.

Sports are nt played for the fan anymore. It's rare to hear a player thank the fans for their generous support.

To the player it's just another 9-to-5 job. Now a lot of athletes are refusing to talk to reporters. Reporters, as a result, can't give the fans any "inside" stuff. Fans thrive on what a player says. A lot of good barstool discussions can be heard because of what a player quips in the sports page.

Those days have past us. The players now spend their time counting money they get from the fans' pocket.

What should happen is a fan boycott. If not a single fan went to the opening games of the season, the players and owners would more than likey settle their argument a couple of hours later.

Because without the fan, baseball is nothing.

Phantasm worth \$1; Cousin Cousine amusing

By RICHARD BRANDT Guest Film Critic

Phantasm is only the third film of Don Coscarelli, a very young director who borrows the money to finance glance his efforts from his banker father. As such, it shows the usual signs of a novice filmmaker working on a very low budget. While there are signs of technical brilliance and some nice stylistic flourishes, the movie is marred by usually incompetent acting and occasional lapses into a home-movie look.

The story could best be described as a bad adolescent dream. The story centers on some weird goings-on at a sinister funeral home, bringing in some science-fictional connections to try to explain the plot. But explanations and logic don't really matter; the whole movie may or may not take place inside a young boy's head, but the difference doesn't really matter. What Coscarelli really cares about are his special effects and neat little ways of scaring you. Either you like them or you don't; if you do, then you get off on the movie.

Some of Coscarelli's technical devices are intriguing. In one scene, our hero sees a sinister old man of blood all over creation.
walking down the sidewalk in slow If you can stand such motion, his footsteps echoing as if in a large empty hall—while everything nd seems to move at normal

Later, our hero sees an old sepia-

tone photograph, showing what seems to be the same man. While he watches, the picture suddenly comes alive in his hands, the old man turning to give him a meaningful

Coscarelli also has an excellent knack for handling flashbacks. The two lead characters are brothers, supporting each other after the death of their parents; while the older brother is discussing the younger, we suddenly find ourselves looking at a flashback which illuminates their close relationship.

The story could be best described adolescent dream.

Phantasm has its moments of humor, many of them hilarious and a few of them intentional. It also has a good deal of explicit violence, gruesome enough to make its R rating well deserved.

I won't ruin any surprises mentioning that an important character in the story is a flying metal sphere that attaches itself to people's foreheads, drills a corkscrew through their skulls and pumps vast quantities

If you can stand such excitement, Phantasm offers a few fun moments and some really heavy chills. It was worth the buck I paid to see it at Western Hills on a Tuesday night, but I can't vouch for more than that. By RICHARD BRANDT Guest Film Critic

Cigarette breaks

Letters to the Editor

Dear Editor:

I think I have found a way to slow down the soaring cost of education at TCU.

First of all, we will cut the number of maids and janitors in half, since they only work half the time anyway. You want examples, here are some examples.

Yesterday, I entered the Sid Richardson science building at one o'clock and got on the elevator with two janitors carrying one broom. They got off on the same floor I did and one guy started pushing the broom and the other guy, a maintenance engineer no doubt, began to supervise him. At three o'clock I went to another floor and saw the same guy doing the same thing. Some time around four I was leaving the building and guess what I saw-more of the

I can't complain about the job they did. The floor was clean and they were really nice guys. They spoke to me all three times I saw them.

Now, if the maid in our dorm takes one more cigarette break I think I'm going to get cancer and die. Seriously though, she does do a good job. She arrives at 7:30 sharp everyday and empties the trashcan outside my door. But by

the time I leave, around 8:30, she is already sucking down a Viceroy. And many times the nice lady in the TCU maid uniform talking to her is having one too.

A funny thing about the language maids speak. No matter what time of day it is, if they ask, "What time is it?" they mean, "I'm going to have a cigarette now." I really don't mind if the maids smoke, but do we have to pay them while they do it?

Moving right along with another money saving idea I think that next year we probably shouldn't build another sandpile on the entrance grounds to the college. The one we have now

looks more like a dirtbike jumping ramp than a flower garden which supposedly has the TCU logo on it. I guess we would be able to read it better if we were standing on top of a semi-truck. I seriously wonder

if we needed to have a ten man work crew spend an entire work week piling up dirt and then putting a few two-by-fours on it.

Okay, I was just kidding. Everybody at TCU has lots of money and we don't mind throwing it around. Think I'll go have a cigarette with the maid.
