Thomas wins presidency

Jordan elected vice president

By Alea Cooke Staff Writer

Supporters for House of Student Representatives President-elect Donnie Thomas may want to save some campaign posters as memorabilia of his successful campaign.

Thomas came away from Thursday's runoff election with 597 votes to opponent Keith Kirkman's 447 votes. In the race for vice president, Joe

'The reflection of the entire campaign has been one of a lot of enthusiasm. . . .

> DONNIE THOMAS, for opponent Kirkman. House president-elect

Jordan captured a victory with 561 votes over opponent Laretta Hammer's 483.

"I think that the campus is showing a lot more concern because of the high number of students who voted in the runoff," Thomas said. "The reflection of the entire campaign has been one of a lot of enthusiasm by both candidates and students.'

Thomas said his first goal when he takes office is to work on the student advising program. He said he would like to look into the possiblity of bringing in faculty concerned strictly

toward better student participation in

said. "I hope that I can improve that

Thomas credited a large voter turnout to greater emphasis on this year's

"I think that the publicity given to the campaign this year developed a greater interest in the elections for the student body," Thomas said.

In Thursday's runoff election, Thomas gained the most support at the Student Center precinct with 361 votes. The Worth Hills precinct gave Thomas an additional 236 votes.

Presidential opponent Keith Kirk-man also fared best at the Student Center with 317 votes. He received the remainder of his 130 votes from

Thomas said he has great respect

We have had a good relationship through the entire election and we will continue to have," Thomas said. "He has a lot of respect for me and I do for him.

As for Kirkman, he said he plans to give Thomas his full support.

"I plan to back Donnie 100 percent and contribute all I can to the House," Kirkman said. "I certainly haven't lost excitement for the future.

"I can't congratulate Donnie enough," Kirkman said. "He ran an excellent campaign and I'm glad no animosities developed.'

Kirkman said he will continue to take an active part in House activities.

"I think the people who know me know that the most important thing to As for Jordan, his goal is to work me is TCU and the House," Kirkman said. "I'll be in the House, with Donnie's consent, and be right there be-"Student participation is crucial for hind him all the way. I'm certainly not the House to be effective," Jordan leaving the House."

Hail to the chief - Donnie Thomas celebrates his presidential election victory with supporters Thursday

Foreign male students victims of muggings

By John Paschal Staff Writer

TCU Police Chief Oscar Stewart said he isn't sure if the incidents are indicative of a new problem on campus. But he said that foreign students may have to take different precautions than an American student might take.

"(The robbers) happened to be on the edge of campus and saw an opportunity. Maybe they saw his de-

Ahmedabad, India, was robbed behind the Safeway supermarket, located at the corner of Berry Street and

Two weeks ago, a student from The man used the victim's Pulse I do?" card to get \$35 from the victim's bank account through the Pulse machine. "But he said, 'thank you,' and he

'If there's any chance at all anyone is going to be out late at night, they should try not to wear very flashy rings and jewelry-or just take them off and put them in your pocket.'

OSCAR STEWART, Campus Police chief

University Drive. He had been studying at the library and was on his way home near midnight.

"I was walking behind the Safeway and I saw this one guy. He asked me if I had a quarter. Then he showed me a meanor, maybe some jewelry, and gun and said, 'Now do you have a decided to come back and assault quarter?' I said, Take whatever you

gave me back my Pulse card. He gave

everything back except the money.

That's strange. "There was only one guy. He was quite strong, very tall. I don't know how he got there-if he walked or if he had a car. I don't know. He looked like a mature person, 25 or 30 years of age. But he showed me a gun. What could

Friday night, a Korean student was robbed near the parking lot adjacent to Dan Rogers Hall at 7:45 p.m. Three black men stepped in front of the student and one presented a knife. The men took the student's wallet, which contained \$75, and his watch.

"(One of the assailants) was pretty strong and well-built," said a friend of the victim, "but when someone shows you a knife, what can you do?"

The Indian student said the robbery has made him afraid to go out at night, particularly to study in the library as he is accustomed to.

"I'm afraid to go to the library at night now," he said. "If I do go, I'll

come back home at about 7 or 7:30." He said his computer class requires him to do programs in the computer

terminal room, located in the Winton-Scott Building, across from the lib-rary. He said he would have to be in that area at times, perhaps at night.
"I will still be afraid," he said.

His roommate said the incident has

caused him to be more wary, too. "I was under the impression that TCU was a safe place. But now I don't know. I don't want to go out at night now," he said.

"I like to study late at night and then come back home. Now, man, I'm telling you, I'm home by 10. I think if you can study at home, don't go out to study at night.'

Stewart said foreign students may be more susceptible than Americans

to muggings on campus.

"The only coincidence is that sometimes students from different coun-Please see Foreign, Page 3

Nadz win College Bowl

By Todd Camp Staff Writer

It is the final round of TCU College

The Geology Club has come back from the losers brackets to take on the

reigning champions, the Nadz. The club has already won once, so the game played now is winner take all. The club has held the lead for most of the game but the Nadz have not been that far behind

The score is Nadz, 55, Geology

The Nadz are playing for a bonus question divided into three parts for five points apiece. The question is on The first film is "Saturday Night

Fever." The team confers and answers "New York." Five points. The second film is "To Be or Not To Be." The team can't come up with an

answer.

The final film is "From Here to Eternity." The Nadz argue a bit and come up with the answer of "Hawaii."
Five points, giving the Nadz the lead.

Thomas fined for infraction **Election Code** violated

By W. Robert Padgett Staff Writer

Donnie Thomas remained in the race for president of the House of Student Representatives Thursday after an Elections Appeals Board meeting Wednesday night about campaign

Thomas was fined \$10 after newly elected House Treasurer Dana Mayfield filed charges against him for campaigning within 25 feet of a polling place during Tuesday's primary election, Elections Appeals Board chairman Glenn Spears said.

Mayfield charged that Thomas had violated the House Election Code by having campaign workers in Jarvis Hall. All residence halls are polling places during primary elections.

"I saw two campaign workers in Jarvis on Tuesday. They seemed pretty quiet at first. Then they came up to me and said, 'Don't forget to vote today, and vote for Donnie Thomas, Mayfield said. "They were right in front of the polling booths. I knew the (Election) code and I knew I should report (the violation)."

The Election Code also states a violation should be immediately reported to people manning the polls. Mayfield said she was unfamiliar with that particular portion of the code, and that she reported the violation after Tuesday's House meeting.

"I also didn't feel I needed to report (the infraction) right away because they left right after they talked to me," Mayfield said.

Thomas said the two campaign workers in question were freshmen who were unfamiliar with the Elec-

"I'd held a meeting recently to go over the rules and regulations. They were the two who were not present at

the meeting, so they didn't know they weren't supposed to be in the dorm, Thomas said. The Elections Appeals Board heard statements Wednesday night from

both Mayfield and Thomas, deliberated for a half-hour and then penalized Thomas.

Along with the \$10 fine, Thomas was required to write a letter of apology to residents of Jarvis and was barred from campaigning in and around Jarvis for Thursday's runoff election. During a runoff, candidates may campaign in residence halls because the only voting areas are the Student Center and the Worth Hills cafeteria.

In addition, the Elections Appeals Board nullified the three votes Thomas received from Jarvis Hall in the primary. The subtraction of three votes from Thomas' 483 total in the primary were not enough to eliminate him from the runoff. Thomas received 39 percent of the vote in the primary, while Keith Kirkman compiled 32 percent.

Please see Board, Page 3

Accuracy in Academia is a group who would censor the college classroom, stifling its role as forum for an open exchange of ideas. The activities of this group stir up memories of McCarthyism and add credence to the sinking feeling that Big Brother may indeed be watching. Opinion, Page 2.

It's one year later and the purple phones have stopped ringing off the wall. Sports, Page 6.

WEATHER

Today's forecast calls for cooler temperatures under cloudy skies. From a low in the mid 40s, the high is expected to climb only into the low 80s. A 30-percent chance of rain is predicted, and winds will be from the north at 10-15 mph.

Volcano erupts, thousands killed

BOGOTA, Colombia (AP)- A volcano that had been rumbling to life for months erupted early Thursday, melting its snowcap and hurling down torrents of mud that buried four sleeping towns in an Andes mountain valley. Early estimates of the dead reached 20,000.

Blazing volcanic ash cascaded into the valleys Wednesday night. A few hours later the mud avalanche crashed through the towns, which had a combined population of 70,000. Lava began flowing from the cone Thursday afternoon.

If the death toll equals the esti-mates, or climbs beyond them, the eruption of the Nevado del Ruiz volcano will rank as one of this century's great natural disasters.

The Langunilla River became a rushing wall of mud that destroyed at least 85 percent of Armero, a coffeefarming town of 50,000 people 30 miles from the volcano and 105 miles northwest of Bogota.

"Armero doesn't exist anymore," Red Cross rescue worker Fernando Duque said in an interview from the on Todelar radio.

The three other towns are on the river between the volcano and President Belisario Betancur flew

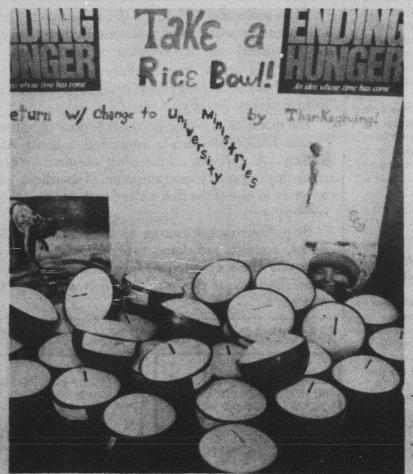

over the mud sea of Armero in a helicopter and said in a broadcast later: "The situation is very grave. I appeal for the solidarity of all Colombians. . We don't yet know the full scope

of the tragedy."

Caracol radio said the ash fall was so heavy at 1 p.m. Thursday that "it looked like nighttime." It quoted national university geologists about the lava flow, but they did not say how large it was or give its direction.

A Civil Defense spokesman, Maj. Please see Death, Page 3

Symbol of care - Students can pick up a "ricebowl" in the Student Center, fill it with pocket change and return it before Thanksgiving to benefit the world hunger cause. Proceeds go to fight hunger in the world and the Fort Worth area. A variety of other activities continue through Saturday, Nov. 24, through which students can lend their support. A list of TCU Hunger Week activities appears on Page 3.

College students using Thought Police tactics

By Darryl Brown

Across the nation, a sparse but ill-boding network of students is forming, eyeing the establishment, trying to stop the brainwashing, the bias, the bending of truths and young minds in America's classrooms. They fight for-and call themselves-Accuracy in

Start here: How did Socrates arrive at all those truths? With the Greek version of the McLaughlin Group: a few guys sitting around arguing politics. They thought a little more closely and carefully in the old days, unconstrained by commercial breaks. The results were the Dialogues.

That is all Accuracy in Academia claims to want-a fair and open dialogue, balanced and thorough to cover all the bases.

So they line up students to monitor college teachers, to make sure the reading list is balanced, the lectures are not one-sided and all viewpoints are heard. Who could argue with

Then, what's wrong with a little pressure on uncooperative professors?

back memories of another coalition looking assumes.

only for fairness-Fairness in Media. They were out to buy a television network, so Jesse Helms could replace Dan Rather and root out liberal bias. Twin sister Accuracy in Media was started by Reed Irvine, who founded Accuracy in Academia, and both are out to rid us-save us-from mind-altering, knee-jerk liberalism adhered to by those unsavory fringes of society: journalists and college profes-

These movements arise mostly of their own cold fire and passion. Accuracy in Academia is overwhelmingly a vehicle of college Republican clubs, burning with the fever of conservat-ism as '60s kids did with liberalism. They are out to stop liberal bias, but also to replace it with a conservative emphasis.

Their efforts are not likely, or I suspect even intended, to stimulate dialogue. With newsletters and publicity to pressure targeted teachers (and 10,000 Marxists teachers need targeting, says Irvine) into submission or retirement, such winning through intimidation will more likely stifle exchange of ideas and impose a debilitating caution among professors trying to avoid the hit list.

A few professors, no doubt, are guilty as The argument sounds familiar. It brings charged-but far fewer than the group

portion of professors who, if not trying to in-doctrinate, are at least lacking intellectual vigor and clarity, having given up the effort to challenge their own assumptions as well as their students' with the debates that exist in any field of thought. But this does not warrant the Thought Police tactics of sophomores, or the McCarthyism of their organizers.

There is a secondary element. This is also a symptom of the state of our universities, where teachers are first-name acquaintances in rumpled corduroys-social equals who, in the minds of sophomores, easily become intellectual equals.

Student reverence for teachers is nearly

gone, partly because fewer earn revering. Accuracy in Academia is a brash intimidation of authority that many professors long ago

I remember a story of a German intellectual who had immigrated to America to escape Hitler. He came from a tradition-bound European college where students still carried their teacher's books and opened doors for them. He was abruptly awakened to American ways when a student barged in his office to ask, "Hey doc, got the time?" The old master's heart sank. To burst in without knocking was offense enough, but to address a teacher as "doc" and bother him for such a trivia as the time, that was unpardonable.

There ought to be a bit of constitutional monarchy in every classroom, but too many professors are unable to rule. Now the peasants are unruly, fancying themselves as Big Brother.

Accuracy in Academia is a judgement by students who believe they know what to censor and to what to preach. Let's hope they permit the reading of Hamlet, who warned us, "There is more in heaven and earth, O Horatio, than is dreamt of in your phi-

NEWS ITEM: REAGAN INVITES NIXON, FORD, AND CARTER FOR ADVICE ON GENEVA SUMMIT......

Divestiture not apartheid solution

Have you ever bought a General Motors car? How about a Ford? Or a Chrysler?

Do you own a gold and/or diamond ring?

Well, sell the car and give the engagement ring back, because you may be helping those heathenish swines in South Africa preserve their racial segregation policy of

At least that's how the divestiture activists make it

The call has come from many college campuses around the country lately for administrations to examine their investments.

The activists hope to find some money invested in

companies that have holdings or interests in South Africa. Cities and states have done the same thing. They've

halted and/or withdrawn investments that in any way are associated with the Republic of South Africa. In all, 14 states, one territory and 39 cities have

divested, according to a report issued by the Investment Responsibility Research Center.

The question is: What good has it done or will it do? Apartheid is still firmly implanted in South African society. A revived, right-wing element, which is staunchly opposed to any alteration of apartheid, scored a victory in one of the five major South African elections

By pressuring institutions to divest money in South Africa, activists are doing two things. One, they are cleansing their consciences by appearing to be oh-soconcerned about the plight of non-whites in South Africa.

Secondly, and more importantly for that matter, divestiture proponents are punishing American businesses, rather than the South African government for the stringent racial policy.

Companies like General Motors and Chrysler have production plants in South Africa not to preserve apartheid but to build automobiles. The country is practically one big mineral deposit. Because of the vast resources, the American automobile companies can produce a car at a reduced cost.

Jewelry manufacturers operate with South Africa because the nation possesses the largest gold and diamond deposits in the world. Those companies, too, are not in South Africa to keep non-whites out of the political process. They have holdings in the country for profit, for which any sound business strives.

If these companies are going to be punished for housing plants and investing money in South Africa, then other businesses, too, should come under fire from the

PepsiCo, for example, actively trades with the Soviet Union, selling the company's syrup to the government and aiding the Soviets in production of the soft drink.

Most anyone would agree that Soviet atrocities in Afghanistan (in which indiscriminate bombings and use of chemical weapons by Russian troops against Afghan rebels are common) far outweigh the negative effects of apartheid.

Fact is, business should not be subject to the ill effects of a foreign government. The pressure should be placed on the South African

government to dismantle apartheid, but not at the expense of prudent American businesses.

LETTERS TO THE EDITOR

Charges of biased media unfair

In response to Philip Aldridge's letter, I would like to point out a few of the more obvious fallacies.

First of all, as far as Skiff staff members being biased journalists, I'm not sure what Aldridge is speaking of. All the candidates were covered. If he's referring to the additional news stories on Bruce Capehart, I don't think he should blame the Skiff simply because none of the other presidential candidates were doing anything newsworthy at the

If he was talking about the letters to the editor, as the Skiff pointed out, they received no letters of endorsement from other candi-

The only thing left is the editorial the paper ran on Capehart's disqualification. God forbid

Media should refrain from attacks on heavy metal music

Concerning the issue raised in the editorial, "Weapons must not be sold as toys," I agree.
Today's youth have enough difficulties without having weapons advertised on the back of comic books.

However, the Skiff once again shows its bias by implying that Twisted Sister's "We're Not Going To Take It" video can be a catalyst for juvenile violence.

But the video is entirely tongue-in-cheek. The dogmatic father in the video calls retribution down upon himself.

This attack on heavy metal I could overlook if the attack were an isolated case. But, approximately one month ago, the Skiff printed a cartoon showing a teenager who couldn't re-

sophomore, journalism

parody at the time.

Todd Camp

member his mother's name but could list his

favorite groups-which consisted entirely of heavy metal acts.

It's time to stop taking cheap shots at heavy metal. Its audience isn't dumb and many of its performers are educated people. Twisted Sister's Dee Snider has a Master's Degree in English from Brown University. Besides, you have to respect a group who, under the new rating system, is giving its new album an "H," which means "Warning: A sense of HUMOR is needed by the listener for complete enjoy-ment. If you don't think you qualify, please don't purchase this recording."

Brennan A. Enos senior, English/history

tries have the type of background that makes them capable of having showoff-type jewelry. Their dress and de-meanor might make them stand out as being vulnerable," Stewart said.

"The men engaged them in converstation and that might have made known they weren't American-type students. So my advice would be that if (a suspicious person) tries to engage you in conversation, and he could right away tell that you are a foreign student, don't talk to him. Rather than talking to two or three unknown persons, make a call here (Campus Police station) immediately and we'll be there," Stewart said.

"If there's any chance at all anyone going to be out late at night, they should try not to wear very flashy rings and jewelry-or just take them off and put them in your pocket," he

Stewart said there are two black male suspects. He said there have been similar situations near the University of Texas at Arlington campus and at Tarrant County Junior College.

CAMPUS NOTES

Basketball passes

Today is the last day for current students to obtain passes for TCU home basketball games. Students may present up to six ID cards to obtain six passes. The pass, along with the student ID, allows admittance to this season's basketball games. Hours of the ticket office of Daniel-Meyer Coliseum are from 8:30 a.m. until 5

Intramural deadline

Today at 5 p.m. is the deadline for intramural three-man basketball entries for both men and women. Entries should be delivered to Rickel Building Room 240 or call 921-7948 for more information.

Lesson in descent

TCU's Army ROTC is offering a free rappelling instruction clinic today from 5 until 6 p.m. at the northeast end of Amon Carter Stadium. All interested are invited to attend.

Sink or swim

TCU swimmers and divers will face the LSU Tigers at the Rickel Building pool today at 5 p.m. Admission is free.

Different drums

TCU's nine-member Percussion Ensemble performance will be held tonight at 8 p.m. in Ed Landreth Hall Auditorium. Admission is free.

Cultural party

The International Student Associa tion is sponsoring a party tonight at 8 p.m. at Mama's Pizza on Camp Bowie Boulevard. The cost is \$3 for ISA members and \$4 for others. All are invited to attend.

Walk for the hungry

Walk for donations or donate to walkers at the CROP Walk Sunday, Nov. 17, at 1:30 p.m. at the Daniel-Meyer Coliseum parking lot.

Visiting Green Chair Professor Bar-bara Sinclair of the University of California at Riverside will deliver a lecture titled "Visionaries, Rabble Rousers and Political Ops: The Origins and Development of the Women's Movement" Monday, Nov. 18, at 7:30 p.m. in Moudy Building Room 141N. Those interested can meet Sinclair Monday at 2 p.m. in the lobby of Jarvis Hall.

Discount tickets

The Performing Arts Committee of Programming Council will offer a limited number of discount tickets beginning today to the Nov. 18 concert with Philipe Bianconi, silver medalist of the 1985 Van Cliburn Competition. The \$15 tickets are available for \$5 at the Student Center Information

The concert is at 8:15 p.m. in McFarland Auditorium on the SMU

Death toll may reach 20,000 in Colombia

Continued from Page 1 Hugo Ardila, told a midday news conference in Bogota that about 10,000 people had been found alive in Armero up to that time.

They climbed trees, clung to roofs above the mud, and huddled behind a sturdy concrete cemetery wall that didn't fall.

One of them, Edeliberto Nieto, told IRCN radio: "We heard a frightening noise, and then a blast of wind hit us and we saw fire falling from the sky. It was horrible, so horrible! My wife was killed. My mother was killed. My little girl who would have been four years old tomorrow died. One of my sisters was killed and one of my little nephews.

Marina Franco de Huez told the radio: "The ash rain increased and the whole world began to scream. I woke up my daughter and we ran out to one of the streets around the cemetery. More than half of the population was buried under a torrent of mud that came with a horrible noise. It dragged houses, cattle, tree stumps and gigan-

tic rocks. The church was buried, the school, the theater.

Ambulances and rescue workers had trouble reaching the town because the avalanche destroyed the highway and five bridges leading to it, Caracol said, quoting Civil Defense workers.

Some of the bodies had been under mud for six hours when we dug them out. We weren't even able to tell if they were men or women. They were just a mass of gray," Duque said.

There was no late, accurate count of the number of bodies recovered.

The Defense Ministry said 21 of the most seriously injured people pulled from the mud in Armero arrived on a military plane in Bogota Thursday

The mass of mud is up to five yards high in some areas. Some people were able to escape and climb over walls that weren't covered by the avalanche and were rescued with the help of ropes and horses," said Paul Ramirez, a reporter for Todelar who was among the first on the scene.

REGIONAL SCOPE

The rules result from a law passed by the 1985 Legislature giving the de-partment authority to regulate and gather information on abortions.

The State Board of Health is expected to consider the rules at its Saturday meeting but they will not become final until after a public com-ment period plus formal public hear-

The process is expected to take at least three months, according to allows the release of patient informa-Juanita Carrell of the health department's bureau of licensing and certinate state agencies, or county and district courts."

AUSTIN (AP)— Texas doctors and clinics would be required to give the state 12 items of information on every abortion performed in Texas under new rules proposed by the Texas Department of Health.

The rules result from a law passed public. But the law also includes a public but the law also includes a public. But the law also includes a public but the law also provision under which the health de-partment could be asked to share part of the information with other state

> The confidentiality requirements are among the most stringent of similar provisions in state laws, Carrell said. "They (the public) won't get anything from us," she said.

"However, the state abortion law

Patient information also may be re-leased for statistical studies so long as no person, patient or facility may be identified, the law states.

Under the proposed regulations, facilities performing abortions would be required to report the following information on each patient obtaining an abortion: Year of birth, race, marital status, state and county of resi-dence, type of abortion, date of the abortion, the date of the patient's last menstrual cycle (if known), the number of living children, number of other abortions, dates of other abortions, whether the patient survived and whether the facility performing the abortion was licensed.

Failure to provide this information to the state each year could cause an

Proponents of the new requirements say they will guarantee safety for women who have abortions. Texas women have been able to have abortions since 1973 when the U.S. Supreme Court struck down an anti-

Carrell said the state has identified fewer than 60 doctors' offices and clinics that perform abortions in Texas. Clinics and doctors who derive 51 percent of their practice from abortions must be licensed under the proposed rules. The annual license fee will be \$1,000 per facility, which is expected to generate the \$60,000 annual cost of implementing the new reporting requirements.

White defends research expenditures

AUSTIN (AP)- Gov. Mark White rallied to the defense of Public Utility Commissioner Dennis Thomas Thursday, saying there was nothing illegal in his using taxpayer-financed research, computer time and secretaries to pursue a Ph.D.

"Have you been able to detect any violation of state law?" White asked. "He did comply with the law."

However, the governor also acknowledged that reports about Thomas' actions have prompted him to write a letter to state agency leaders, telling them to toughen review and approval standards for such studies.

Thomas, who White appointed to the utility regulating agency last year, says the expenses are justified and that his research on rural electric cooperatives may aid the PUC in its

MARK WHITE, governor of Texas

agencies to pay for extra education and training for administrators and employees in their field of work.

The governor told his weekly news and that Thomas used \$2,800 worth of telephone utilities, including setting

But despite the defense of Thomas, White instructed the chairmen of state boards and commissions to install procedures by Jan. 1 that will make certain that state funds for similar college training receive "adequate review and approval."

"Employee participation in such college degree programs should be White said.

approved by the chief executive officer in each agency. Participation by the chief executive officer should receive governing board approval. Participation by board or commission members should be reviewed and approved by my office," White's let-

While continuing to defend Thomas, the governor said the utility commission's actions had sparked the

"Obviously, surely," White said.
"I've issued this letter to make certain there will be no abuse of the authority (for training) that was given by the

White said he had no plans to ask Thomas to resign because of the stu-

"I'm more interested in what he does in his official capacity out there (at the PUC) and the rulings he makes on orders before him, and that's what I'm going to judge his talents on,

Texan questioned by federal agents

WICHITA FALLS, Texas (AP)-Neighbors of a man committed to a state hospital here said they were questioned by Secret Service agents on his whereabouts during a visit to this North Texas city by Vice President George Bush.

Police and Secret Service agents forced the man from his Wichita Falls home Wednesday with tear gas. Wichita County Judge Tom Backus then ordered the man placed in Wichita Falls State Hospital under three days' observa-

A Secret Service spokeswoman in Washington said the man has not

been arrested or charged.

The man barricaded himself inside the home after he was contacted by Secret Service agents ab-

out noon Wednesday.
Wichita Falls SWAT team members shot tear gas pellets into his home after repeated attempts to communicate with the man failed.

"If he had been arrested, we would give the details. All we can say now is that he was investigated," Jane Vezeris of the Secret Service told the Wichita Falls Record-News Thursday.

A neighbor told the newspaper that agents had questioned him about the man's activities on occa-

sions for several years.
Ron Hicks, resident agent in charge of the Secret Service office in Fort Worth, said the raid was made as a result of "an ongoing investigation.

"We did initiate it and we got full cooperation from the Wichita Falls Police Department," he said. "It went real smooth. No one got

Neighbors said Secret Service agents from Dallas began warning residents of the block where the man lived to stay indoors and in the back rooms of their homes about 11 a.m. Wednesday

"It was felt he was probably armed," Wichita Falls police Capt. R.E. Wynn said.

"I know it was in reference to a political threat, but I don't know who it was," said Wynn.
Police "told me not to let the kids

play in the front yard," said a woman who lived nearby. The woman said Secret Service agents questioned her about the man's whereabouts on Nov. 2, the day Bush visited Wichita Falls.

About an hour after policed blocked off the street, Secret Service agents began evacuating residents of the block.

"I grabbed my baby and boogied," said a neighbor who lives across the street from the raided

He described the man as "very reclusive." He said Secret Service agents have been asking him questions about the man for the past five

He said the man, described as being in his mid-50s, lived alone. He said he only spoke with him one

SPORTS

All's quiet on Frog front

By Grant McGinnis Staff Writer

It's one year later and the purple phones have stopped ringing off the wall.

The hype and hoopla of the 1984 TCU-Texas matchup was unprecedented for the Horned Frogsthe kind of excitement that only a national media blitz can create. The TCU Sports Information Office handed out passes to nearly 400 working media, doubling the previous high total for a Frog

During the week, the place was crawling with reporters, each searching for their own little scrap of Frog trivia. The talk was of the upcoming game-a game which could have sent the Frogs to the Cotton Bowl on the most recent New Year's Day.

Senior offensive guard Tommy Shehan remembers the week well. "This week last year was probably the best thing since black and white," Shehan said. "There were so many reporters in our locker room all week that it was hard to get dressed and whenever you left the locker room, there were 15 more waiting for you outside.

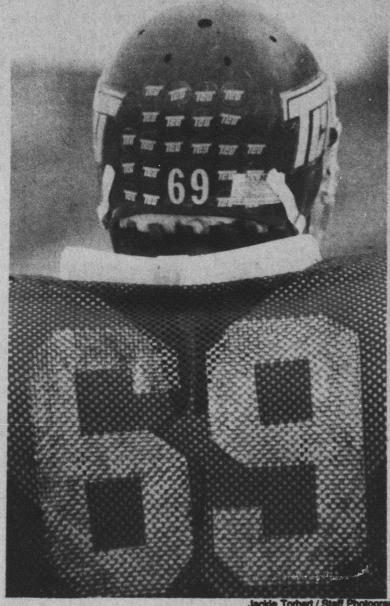

"It was exhilarating to know that people wanted to talk to you just because you were from TCU," he

The Frogs were 8-1 and about to hit the top 10 in the national polls. The game would be just the second sellout at Amon Carter Stadium in nearly 30 years.

"It was one of the biggest weeks of the season," junior nose guard Kent Tramel said. "We were both competing for the conference championship, and this was going to be it. This was going to decide

This past week has been a little different around the Frog camp. Only a few writers have asked questions-very few. After a 3-6 season and a 63-7 loss to Texas Tech, it shouldn't come as a surprise that the major networks aren't clamoring for interviews.

TCU Sports Information Director Glen Stone, the man in the middle of last year's media barrage, has had a very quiet week, so quiet he's had workers in his office re-

In hiding - After a 63-7 loss to Texas Tech, Frog football players may have wanted to hide their faces. TCU players and coaches won't turn their backs on a challenge this weekend, however, as they take on the University of Texas in Austin.

"This has been one of the quietest weeks, perhaps, in the history of the Southwest Conference for a team that's getting ready to play Texas," Stone said. "I've written letters to my sisters and called friends I hadn't talked to in three or four months.

While the week may have been lonely, it hasn't been uneventful for the Horned Frogs. The team to prepare for the Longhorns.

Junior linebacker Kevin Dean said this week hasn't been nearly as fun as it was a year ago. "This year, nobody's come by," he said with a tinge of sadness in his voice.

Junior flanker Keith Burnett echoed the sentiments of others when he said the team will be ready to play Saturday. "We were just a big family then. We're still a big family now."

Informed that it had been 17 years since TCU has defeated the Longhorns, Burnett snapped "I don't care about 17 years. It's different now."

Miller-Evans combination helps Trimble Tech to perfect record

By Bettye Milton Staff Writer

They wanted to be 10-0, make it through the playoffs and win the state championship. And they've already achieved the first two goals.

Trimble Tech of Fort Worth is 10-0 and will play Denton in the bi-district round of the Class 5A playoffs at 8 p.m. Friday at Farrington Field.

Two primary reasons for Trimble Tech's success this season are Michael Miller and Kevin Evans. Miller, a 5foot-11-inch, 160-pound senior quarterback, and Evans, a 6-foot-2, 190pound senior receiver, have combined to give Trimble Tech the No. 1 offense in the area.

Miller is also the No. 1 passer. He has completed 58 of 118 passes for 1,394 yards and rushed for eight touchdowns. Evans, the area's No. 3 receiver and scorer, has scored 14 touchdowns and caught 36 passes for 894 yards. Area newspapers have nicknamed the young quarterback "Magic" Miller.

Four of Tech's ten wins have come late in the fourth quarter. Against O.D. Wyatt, Miller led the Bulldogs on three touchdown drives in the final eight minutes of the game to win 34-

The Bulldogs aren't planning to give the Denton Broncos the kind of lead they gave Wyatt. "We can't

afford to expect last-minute heroics in

'I would attend TCU. -MICHAEL MILLER, Trimble Tech

'Yeah, TCU.' -KEVIN EVANS, Trimble Tech

the playoffs. We have to go out with our heads up," Miller said.

This is the third straight year that Tech and Denton play each other in the first round of the playoffs. In 1983 Tech won 24-14. Last year, Denton

Evans said success Friday night de-pends on Tech's defensive and offensive lines. "The way they play will determine the outcome," he said.

Tech has had an exceptional year. This is Tech's first 10-game victory season and its first unbeaten regular season. Also, Tech is the first Fort Worth high school to go 10-0 since Arlington Heights in 1979.

Miller and Evans said victory has been a combined effort of the coaches. team and fans. "The coaches are our biggest fans," Miller said, "but every-one at Tech has been behind us."

Through it all, they said that success has not changed them. Miller said, "I'm still the same Michael Miller. It's just that now more people know me and I don't know them

Miller and Evans work part-time They agree with the No Pass-No Play rule. Evans said that it is a tough rule but it is working.

"In order to play football you have to make the grade," Miller said. "If you don't make the grade you can't play. It's that simple." Only one Tech player was suspended because of the ruling.

For their future plans Miller and Evans would like to have professional football careers. Miller wants to play for the Dallas Cowboys. Evans likes the Pittsburgh Steelers

They admire Walter Payton's style and talent. But before life in the National Football League comes college. To their knowledge no colleges have expressed an interest in them. "I would attend TCU." Miller said.

"Yeah, TCU," Evans echoed.

Miller and Evans don't disagree about much. Miller does most of the talking with Evans nodding in agreement. Evans said. "Michael can do all the talking. I agree 100 percent."

When asked what their plans are for tonight if they win, Miller said, "I'll go home and talk to my mom and then go to bed because I have to be at work Saturday morning at seven." Yes, Evans has to be at work, too.

Miller and Evans have a winning combination, which has worked so far. They hope it works tonight.

SPORTS NOTES

New hoop ticket policy

Validation of student identification cards for the upcoming Horned Frog basketball season has been extended through today and will be repeated at

the beginning of the spring semester.

A student ID card by itself will not admit students to basketball games as it has in past years. Instead, students must take their ID cards to the ticket office at Daniel-Meyer Coliseum for

Students will then be given a pass that must be shown in conjunction with the ID card for entrance to home

Students taking less than nine hours of school may purchase a parttime student admittance card for the 1985-86 season for \$50. Passes that are lost or stolen can be replaced for \$25.

Ticket manager Tommy Love said the changes were made because former students were still using their ID

cards, which haven't been altered in several years, to get into TCU games

Swimmers host LSU

LSU's Tigers, one of the top teams in the nation, will visit the Rickel Building Pool this afternoon for a meet with the Horned Frogs at 5 p.m. Admission to the meet is free.

TCU will travel to Austin Saturday to face the Texas Longhorn swimmers, ranked No. 1 nationally.

Akers says Longhorns season-saver for TCU

AUSTIN (AP)- Texas head coach Fred Akers said this week that the TCU game has become a seasonsaving cause for the Horned Frogs, who have lost six of their last seven

TCU's latest loss was a 63-7 bloodeletting Saturday to Texas Tech, a team Texas defeated 34-21, and Akers was asked at his weekly news conference what "dangers" he saw in TCU.

"I think any football team in this conference is dangerous on any given day," Akers replied. "At this point in the season, a team like TCU-they've had disappointments all year . . . and we've become a season-saver for

"At the same time, though, we know what kind of talent they have, because we were trying to recruit some of those same guys. They've got speed among those receivers, and they've got speed among those running backs," Akers said.

Texas defeated Houston 34-24 Saturday as redshirt freshman tailback Charles Hunter ran 22 times for 187 yards and one touchdown, and quarterback Bret Stafford had 136 vards total offense.

described Stafford as a "youngster who is fast becoming a leading candidate for all-SWC honors," and Akers was asked if that seemed to be a reasonable comment. "I didn't check the spelling, but it looked all right," said Akers.

The Longhorn Sports News Office

Stafford shared the quarterback's job with Todd Dodge until four games ago, but now has 700 yards running and passing in the last four games.

"He has really improved in knowing not only what's expected of him but what's expected of others," Akers said. "The yardage you can see, but I'm talking in terms of seeing things, making adjustments, using audibles. Those kinds of things go unnoticed in a football game except to players and

Texas starting offensive left tackle Rick Houston is questionable for the TCU game with a bruised shoulder and pinched nerve. His backup, Steve Eargle, sprained his big toe against Houston.

If neither recovers, freshman redshirt Carter Hill will play Saturday. Texas, 4-1 in the Southwest Conference, could go to the Cotton Bowl by beating TCU, Baylor in Austin and Texas A&M at A&M on Thanksgiving.

Weekend matchups to clear up bowl picture

By Rich Glass Staff Writer

Bowl invitations aren't official until Saturday, Nov. 23, but a few matchups Saturday should decide where some teams will spend portions of the holiday season.

Penn State, ranked No. 1 by The Associated Press and the TCU Daily Skiff, hosts Notre Dame, which has won its last four games in a row. Notre Dame's last four opponents aren't in the Top 20, its next three opponents (Penn State, Louisiana State and Miami) are.

The Fighting Irish are probably the only team that has a shot at tarnishing Penn State's perfect 9-0 record before the bowl season. Pittsburgh, 5-4-1,

plays the Nittany Lions Nov. 23. Notre Dame is led by running back standout Allen Pinkett, who is averaging 107.4 yards per game. Penn State head coach Joe Paterno banned his players from talking to reporters this

Last year, the Irish humiliated Penn State 44-7 as the Nittany Lions finished 6-5, Penn State's worst record since 1966. Strangely enough, these traditionally powerful independents have played each other only nine times. Notre Dame leads the series 5-3-1.

Penn State is rumored to have a lock on the Orange Bowl although the Fiesta Bowl might increase the money for both teams in order to attract Penn State and the only other untied, unbeaten team in the Top 20-Air Force.

Air Force might lose that distinction Saturday because it plays at Brigham Young. The vaunted Cougar passing attack is still the best in total offense nationally and is led by the strong arm of senior quarterback Robbie Bosco. Bosco is the latest of a long line of outstanding BYU quarter-

Former TCU defensive back Sean Thomas has signed a contract with the Atlanta Falcons of the National Football League.

Thomas, a member of last year's Bluebonnet Bowl Horned Frog team, was drafted by the Cincinnati Bengals in the third round of the 1985 NFL draft. He was released by the Bengals

Air Force doesn't have any stars, but the team has overpowered opponents with its wishbone attack, which leads the nation in scoring.

BYU has won or shared the last nine Western Athletic Conference titles. Air Force could stop that streak and clinch at least a share of the WAC championship with a victory over the Cougars. Unlike in years past, this year's WAC champion is not obligated to play in the Holiday Bowl, which often fails to attract the highly ranked

Auburn, which began the season as the No. 1 team according to the Skiff and AP, might drop out of contention for the Southeast Conference championship and a spot in the Sugar Bowl

f the Tigers lose to Georgia. Last week, the Bulldogs upset topranked Florida, which had gone 16 consecutive games without a loss.

Auburn running back Bo Jackson, a leading Heisman Trophy contender, has played poorly in the big games season. In Auburn's losses year, to Florida and Tennessee, Jackson failed to gain 100 yards rushing. He's averaging 169.2 yards per game.

It won't be an average game in College Station where Arkansas visits Texas A&M. Both teams have only one loss in the Southwest Confer-

"College Station is a tough place for an opposing team to play," said Razorback quarterback Mark Calcagni, who replaced injured starter Greg Thomas, who is now healthy. "When we go down there, they always have an enthusiastic crowd.

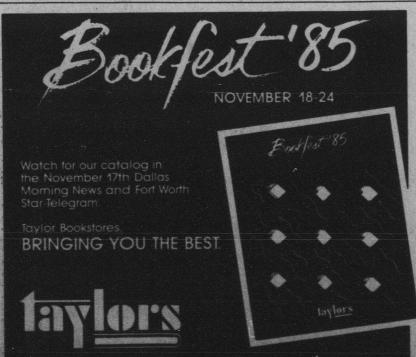

More than 66,000 spectators are predicted to witness the game between the two bowl contenders. The Aggies are coming off an open week after an inspiring 19-17 win over SMU two weeks ago. Arkansas scored a 20-14 comeback victory over Baylor last week after trailing 14-3 going into the fourth quarter.

Thomas signs with Falcons

earlier this season.

The Falcons signed Thomas after the club placed offensive tackle Brett Miller on injured reserve.

Wide receiver James Maness of the Chicago Bears is the only other member of the 1984 TCU team still on an

SKIFF PICKS

SKIFF PICKS appears every Friday during the college football season and is intended solely for the entertainment of the readers and the staff writers. Picks are based on the line. For example, if Texas beats TCU 38-10, then TCU beats the spread and be the winning choice. Home teams are listed in bold

Rice's Brown running out of quarterbacks

HOUSTON (AP)- Rice started the 1985 football season with high expectations for sophomore quarterback Mark Comalander, and he did not disappoint head coach Watson Brown.

Comalander ignited a mid-season surge that had the Owls playing their best football in recent years.

Comalander ranked among the national leaders in total offense and passing efficiency and the Owls had a 2-3 record.

But in the sixth game, Comalander was lost for the season on the third play of the game against Texas Tech. It started a quarterback injury epidemic that has forced Brown to use

five different signal callers and drastically alter his offensive game plans. Freshman Quentis Roper, who started the season as the Owls' kick

play of the game and hurt his shoulder on the play.

Williams, an all-conference quarterback for Blinn Junior College last year, started last week's game against SMU but was replaced in the second

"It looks like Quentis is our best chance to play," Brown said. "Eddie still very sore and Kerry isn't any better. Quentis is a whole lot better but if we had to play today, he couldn't play.

Brown hopes that Roper, a freshman from Dallas Pinkston, will be healed enough to start against the Bears with Williams in reserve.

"I don't know how I have any patience left at all," Brown said. "I've never been through anything that even comes close to this. This is a freak thing to have all these injuries at that position.

"You give me a healthy Mark Comalander and Kerry Overton and we

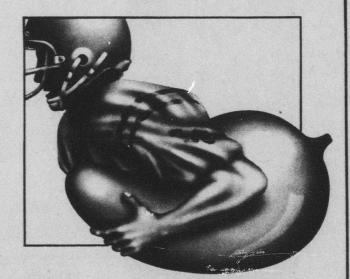

wouldn't be sitting here talking about injuries," he added. Brown was careful not to blame last week's 40-15 loss on Williams.

"He did all he could do," Brown said. "We needed to play a great game around him to have a chance and we

Mounting injuries at an important position like quarterback have started to bother the team, Brown said.

"I'm concerned that we are losing our confidence and composure, Brown said. "It's eating at us. I saw an uneasiness in the players Saturday and I haven't seen that all year."

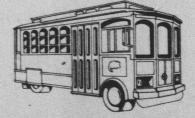

The Owls, 3-6, haven't won three games since finishing 4-7 under Ray Alborn in 1981. After Saturday's matchup against Baylor, Rice will have an open date and close out the season against Houston.

'Handi-capable' helped by students

By Kurt Goff

For many of us, physical exercise is part of our everyday lives. There are those, however, who value it above all else. Those people are handicapped.

A few TCU students are making a difference in the lives of several local handicapped people. They help handicapped individuals in an adaptive physical education class taught by TCU professor Betty Benison.

Benison said that the class is very special because of the learning and caring shared by students and the handicapped.

"The kids really work hard to help each individual," she said.

Many of the handicapped individuals have cerebral palsy, a condition that stems from brain injury.

During the class they are brought to the women's conditioning room in the Rickel Building to work with weights and relax their tight muscles.

Because the class meets in the basement of the Rickel Building, the handicapped must ride a freight elevator to reach it. The building is not equipped to handle the handicapped, there is no other way to move wheelchair-bound people.

you must ride down in total darkness," Benison respects. says. "But these people would do almost anything just to be able to come to this class and work out."

their bodies that are withdrawn and tight by slow-disabled." ly massaging the area of the body that needs attention. If these muscles are not relaxed, they become even tighter and soon withdraw into a painful position.

For many, this little bit of exercise is what they look forward to more than anything else.

"They really have a lot of guts and courage to come to class," Benison says. "Many of them live through these kids because they will never be able to attend college themselves."

Emotionally, it is difficult for the students because much of the time they identify so closely of his life in a foster home and has been living on with the handicapped they are working with," Benison says.

"When they are trying to bench press the kids are encouraging them almost as if they were doing it themselves. They are so caring and really work hard," she says.

Despite tremendous obstacles, all of the handicapped people who attend class find time to smile and tell a few jokes.

"Whenever you see them, you never see a sad look," Benison says. "It's always a happy look. It's great for their self-esteem."

Handi-capable - Left: Sherry Hamilton struggles-and smiles-to do a sit-up in Betty Benison's adaptive PE class. Below: David Popham and Carolyn Brinkley watch as Jerry Moody lifts weights. Pho-

Benison pointed out that the handicapped in "The elevator scares many of them because the class are not any different than others in many

"I like to call them handi-capable rather than handicapped," Benison says. "They can do most things everyone else can do with their only Students help them relax and work the parts of limitations being the parts of the body that are

and swimming.

Jim Gauthier, 27, attends the class and enjoys bicycling and swimming.

"I try to ride my bike every day," he says.

Gauthier is an example of the courage and strength that many in the class possess.

Born with cerebral palsy, Gauthier spent most his own since graduating from high school.

He came to Fort Worth from Michigan and still remains independent.

Recently, Gauthier quit his job as a ride operator at Forest Park because his boss often referred to him as a "cripple" and a "gimp."

"I loved working there because I got to meet a lot of new people," Gauthier says. "My boss was pretty tough but that didn't really bother me. It's just that I got tired of him calling me names. I told him 'my name is Jim, not the little cripple boy.' I'm a man just like any other man."

Although he currently draws disability pay, Gauthier would much rather work. Unfortunately, most of the jobs he has been offered pay only 30 to 60 cents an hour.

Gauthier said a lot of people think that just because a person is handicapped they are also dumb.

"I'll tell them that sure I'm handicapped be-Most of the people in the class participate in cause one leg is shorter than the other but in my various sporting events liking bowling, soccer mind I'm as normal as most everyone else. I also tell them that yes, I'm disabled but I'm also able,"

> In one job interview Gauthier was told he would have to accept the fact that he was handicapped. "I said, 'Excuse the expression, but I already accept the problem that I'm handicapped, but I refuse to accept the problem that I'm dumb," he said.

> Gauthier and several others that attend the class participate in sporting events for the handicapped in competitions all across the United

> As the pressures of our everyday lives tend to make us complain, these very special people offer inspiration.

> "I concentrate on what I want to do every day of my life," Gauthier said. "I won't let my limitations stop me. Looking at most people I feel lucky. I'm going to reach all of the goals I have set for my life. Being disabled has given me even more strength. Nothing will get in my way."

Film competition open to students

By Ricky Moore

TCU students producing films this school year will have an opportunity to enter the 13th Annual Student Film Awards competition.

The award was established in 1972 to recognize and encourage outstanding achievements in film production by university and college students. It is sponsored by the Academy of Motion Picture Arts and Sciences and the Academy Foundation.

The four categories are animation, documentary, dramatic and experimental.

Students from TCU and other schools in Texas will compete in regional competition against schools from 14 other states.

The 14 states include North Carolina, South Carolina, Tennesssee, Arkansas, Georgia, Alabama, Florida, Mississippi, Louisiana, Oklahoma, Colorado, New Mexico, Utah and Ari-

To be eligible, films must be completed before April 1, 1986, in a student-teacher relationship within the curriculm of an accredited school.

Prizes in the four categories include cash grants and trophies for the regional win-

After the regional competitions have been completed, semi-finalists will compete against films from six other regions. The final judgments will be made by the Motion Picture Academy's voting membership of leading film professionals.

Final winners will be flown to Los Angeles for the Student Film Awards ceremonies June 8, 1986, at the Academy's Beverly Hills headquarters.

For more details on the competition, students can contact Jan Krawitz at the Department of Radio-Television-Film, CMA 6.118, Austin, Texas, 78712-1091, or call (512) 471-4071.

Oingo Boingo returns

The Los Angeles cult band that Boingo video) the album was not soundtrack. began as a 12-piece theatrical very successful. show called the Mystic Knights of the Oingo Boingo has just released its fifth album.

'Dead Man's Party" is the latest album from the band called Oingo Boingo, and its contents still good.

artists under Prince's cultivation, or guitar lick to make them back-up vocals, guitar and bass) started out drumming for Lionel Ritchie. After gaining a sizable reputation, she decided to go solo with the help of Prince.

Her first album, "A Glamorous Life," was an impressive debut. An incredible dance mix of the title track shot up the charts.

Now, on "Romance 1600, Sheila E. is back with similar thoughts on how to lure the public's ears. Sadly though, the bait she's using isn't as potent as on "Glamorous Life.

The first single of the new album was "Sister Fate" (don't look for it now-it's come and gone). It is certainly easy to dance M. (the whole band goes by only to and one of the best cuts on the last initials) is frequently called to album. But, as much of the rest of save a song by spicing it up with the album, it remains an idea still his innovative, funky playing.

not, that moment never comes.

Another good song is the final

one, "Bedtime Story." This is

whine," she sings.

The surprising thing is that the album is that they develop

The album is competently playeven though he is called upon so their idea, they jam and then they is a haunting ballad of a lost love: is "in your heart," Sheila E.'s "Ro- ed and maybe that's the problem. often, you never get tired of his get out rather than hang around "Stick pin jab in the middle of a mance 1600" and The Family's de- There are good ideas here, but playing, as he continues to crank for over 12 repetitive minutes like dream/No love at the end of the "A Love Bizarre.

> The Family," the self-titled debut by the remains of The Time after front-man Morris Day and guitarist Jesse Johnson left, is what a dance record should feel like.

After listening and uncontrollably dancing your way through this album, you should be thankful there's no 12-inch super-mix, because undoubtedly if there was, By Scott Ewoldsen you'd need oxygen and a long bed rest at its conclusion.

Rolling Stone said it, and I repeat. This is easily 1985's best dance record.

The first two songs, "High Fashion" and "Mutiny," set a blistering pace for side one. That pace is continued, though not at quite the same fervor, in the erotic (and slightly humorous) "The Screams Of Passion," and in the first of the album's two instrumentals, "Yes.

Side two's first two tracks set a much slower pace, but they can't hold it for long.

The first song, "River Run Dry," album as you can get.

rainbow/Cry 'til the river run dry.

'Nothing Compares 2 U," the second ballad on side two, is a top-notch Prince ballad. Even though it is obviously Prince's, The Family does a great job, utilizing liquidy string arrangements and weaving vocal harmonies on this dissonant, mesmerizing love

The final song, "Desire," is not quite a ballad and not quite a dance record, but it survives on a floating saxophone solo and Claire Fisher's continually wonderful string arrangements.

This album is definitely a group project. Everyone plays together well, from the drums and the guitar to the sax. It's all rounded out by strange, repeating countermelodies on the miramba, panpipe and in the orchestra.

If you can ignore a few of the lyrics, which border on embarrassing, this is as close to a perfect

Tour of Mozambiq

By Kristin Temte Staff Writer

Emeritus Vice Chancellor Howard Wible has seen hunger firsthand in the African country of Mozambique.

'We saw famine. We saw hung We saw a nation in need," said Wible, who retired in June from his position as vice chancellor for student and administrative services

Wible, his wife, Maryellen, and 14 other volunteers spent two weeks in Africa with Hope for Africa, an inter-national relief agency, as guests of the Mozambique government. The agency sent \$750,000 in relief to Mozambique over the past year.

One reason for the visit was to see

how the money was spent.

"We went down to the marketplace in Mozambique, and the food we saw there was from the seed we had sent them a year ago," Wible said. "(The length of the visit) was a short period of time, but it was enough to satisfy us that (the relief) was not squandered." Wible said Mozambique was a port colony of Portugal for 500 years until it

gained its independence in 1975 and became a Marxist state. "When Mozambique gained its independence, the Portugese left and took with them all the expertise, all the knowledge and managerial know-how, Wible said. "The country was suddenly just left

with nothing except its people and the businesses to be run. It's a real tragedy. They looked to the communists for help and the communists only supplied them with ammunition to win their independence and haven't done anything since," Wible said. Wible traveled to Maputo, the

capital of Mozambique, and along the coastline of the country. The white, sandy beaches which were tourist attractions before the war with Por-

tugal now lay empty, he said.
"The hotels are just standing vacant, windows and furniture broken. It is really a sad sight," he
