

# *Will Rogers Tells What He Believes Kept Fort Worth Fliers Up so Long*

---

(Editor's Note — Here is an evidence of the nationwide publicity attained by Fort Worth through the record-breaking endurance flight. Will Rogers' daily comment, appearing in 200 American newspapers, carried the following):

---

PITTSBURGH, Pa., May 27.— Say, what do you know about those two old country boys flying around in Texas all this Spring? Looks like the only way to get 'em down is to starve 'em to death. Maybe they don't know how to land.

Any of you that are not familiar with that country, I can tell you what has kept them up. Amon G. Carter has threatened to make a speech to 'em when they come down.

They broke the Question Mark record and they are out after Heflin's now.

Yours,  
WILL ROGERS.
