Hotel Ritz,  
Paris.

Dear Sir:

The National Broadcasting Co., of New York has asked us to contact you as soon as possible. Listeners in the United States are very much interested to learn the reactions of representative people on German prison camps. And we are anxious to have your comments.

Would it be possible for you to take part in a round up with several other editors representing various sections of the United States? The entire program would be featured specially and each speaker would cover from 2 to 3 minutes.

Our offices at Hotel Scribe in Paris will contact you as soon as you return. And we hope that you may favorably consider this invitation to broadcast to America.

Thanking you in anticipation for your cooperation, believe us,

Yours sincerely,
