

Mr. Carter: Will Rogers called up to find out if you were in St. Louis. Said he did not know whether he would come this way or not but if he did he would just drop in and let us know just in time. Said to tell you that he didn't want you to be calling him; telling him what time to leave, what time to arrive and a lot of stuff like that; furthermore, said to tell you that he had learned a lot from those "damned Russians" and that one of the things learned was to run his own business. He said "tell Amon that I'm under my own management now". JMN
