

PHILLIPS PETROLEUM COMPANY

BARTLESVILLE, OKLAHOMA

FRANK PHILLIPS,
PRESIDENT

October 9, 1935.

Mr. Amon G. Carter,
Fort Worth, Texas.

Dear Amon:

I have been thinking about the conversation you and I had over the 'phone yesterday regarding your proposal to have me appointed chairman of some special committee in connection with the Will Rogers Memorial Association.

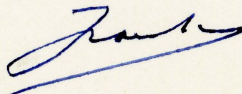

You understand, Amon, I want to be helpful in all these matters but my relation to the Wiley Post Memorial set-up is such that I cannot take an outstanding place with either committee. Besides you realize I have lost so many executives and our business has grown to such proportions that I've never been quite so busy in my life; in fact I never catch up.

Now, it's all settled; you are to have the job and when I am in New York or elsewhere I'll be glad to have you use me as a vehicle wherever possible. There is no one in this whole crowd who has the energy and capacity as a go-getter that you have.

You do more loafing around the country than any man I know, so put on your armor now and do a little work; we'll all help you.

Hope your cold is better.

Cordially,

FP-MLK
