THE UNIVERSITY

HISTORICAL DATA

Out of a consecrated desire to inculcate character-training into the New South after the Civil War, this Institution was founded at Thorp's Spring, Texas, in 1873, by Addison Clark, President, his brother, Randolph Clark, Vice-President, and their father, J. A. Clark, Business Manager. The story of its development is outlined in the "Milestones of History" above.

A fuller story is told in the issues of the catalogue up to 1932 and is not repeated here.

The Board of Trustees of 30 members selects and elects its own members subject to the ratification of the Texas Christian Convention, the body representing the churches known as the Disciples of Christ or Christian Churches of Texas.

LOCATION

Texas Christian University is situated `in a beautiful residential district in the southwest section of Fort Worth. It is less than twenty minutes' ride by bus from the heart of the city. The auto route is one of the most attractive drives in the city.

Two public school buildings near by serve the children through the grades and junior high school. The senior high school is reached by bus in ten minutes.

Fort Worth is a growing city of 300,000 population. As a railway, bus, highway and airline center of the Southwest, it provides quick and adequate transportation service. It is the regional center of many industrial activities, furnishing a laboratory for many kinds of university research. It has a large number of churches and civic and philanthropic organizations; its public educational facilities are widely recognized as superior both in curriculum and in physical equipment. It has many private schools, and three other institutions of higher learning.

The City of Fort Worth and the University attract many distinguished visitors and lecturers from all parts of the nation. Through the lectures, music clubs and similar organizations artists of world renown are to be heard each year.

MATERIAL RESOURCES

Through the generous gifts and bequests of friends, the University has accumulated approximately \$5,000,000 in productive endowment. The major portion of this was made available through the magnificent gift of Mrs. Mary Couts Burnett, which gift is now appraised at \$3,323,245.59. The General Education Board substantially assisted in building up the endowment resources by giving the School \$166,666.67 for this purpose. In addition, numerous friends have made gifts and bequests for endowment.

In addition to the income from these endowment resources, Texas Christian University needs the fullest possible coöperation on the part of the churches related to it, and the support of individuals who are willing to contribute to this worthy cause on an annual sustaining basis, just as they contribute to other worthy causes annually, such as the Red Cross or Community Chest.

As this catalogue goes to press, two new dormitories are nearing completion. Specifications are being drawn for additional buildings.

BUILDINGS

The University now has the following buildings: The Administration Building. Jarvis Hall (residence for women). Foster Hall (residence for women). Tom Brown Hall (residence for men). Clark Hall (residence for men). Waits Hall (residence for women). Goode Hall (residence for men). Dormitories A, B, C, D (for men). Brite College of the Bible. Gymnasium. Mary Couts Burnett Library.

Other buildings are:

Ten Temporary Class and Laboratory Buildings (with steam heat, and motor-driven ventilation)

Steam Heating Plant.

Stadium (seating capacity 28,000).

Field House (for basket ball, other indoor games).

Gibson House.

Sterling House.

Ministerial Apartment Homes; twelve on Greene, Waits, Lubbock and Bowie Streets; and Reed House.

LABORATORIES

Laboratory facilities of the University afford opportunity for individual experiment and investigation in the fields of biology, chemistry, geology and physics. In each of the laboratories, provision is made for carrying out in full the courses outlined in the respective departments. The *Museum* adjoining the laboratories of biology and geology is among the best in the country.

Recent additions have been made to the laboratories in the fields of radio, electronics, aeronautics. New equipment has been added in the School of Business.

LIBRARY

The Library represents the assembly of carefully selected volumes, including generous donations and annual appropriations, since the fire of 1910. More than 100,000 volumes are available, of which 30,000 are Government documents. Special rooms are devoted to "Southwest Literature" and to "Literature of the Disciples." The "Dr. James W. and Maggie P. Lowber Library" was dedicated Feb. 13, 1940.

The Dr. and Mrs. Goodall H. Wooten collection of rare and valuable books was received in 1945.

A CHRISTIAN SCHOOL

Texas Christian University is dedicated to the proposition that religion is not only an indispensable factor in the education of citizens for a democracy, but also an essential element in any complete and constructive educational experience. It therefore accepts as its major responsibility the projection of an educational program which is intelligently and vitally Christian. Its deliberate effort is to share with its students the convictions, ideals, attitudes and purposes which will enable them to become creative Christian citizens.

All forms of sectarianism are carefully avoided. Students of all creeds and faiths are heartily welcomed. The ancient principle of academic freedom is zealously guarded.

The University brings to the campus each session several internationally known religious leaders for special Religious Emphasis Programs.

Students are encouraged by precept and example to attend the churches of their choice and to participate in the various religious activities on the campus.

The University Christian Church, the University Baptist Church and the Matthews Memorial Methodist Church are quite close to the campus. The Broadway Presbyterian Church is planning to erect a beautiful new church near the campus also. Other churches are located nearby. These churches serve large numbers of students and faculty members.

STUDENT ORGANIZATIONS

Texas Christian University has a variety of thriving student organizations designed to stimulate interest and provide opportunity for student expression in the fields of learning, service, and sports, all of which are a part of the educational process. Membership in these organizations is not based upon social standing, or mere personal preference of the members, and no society may be of a secret nature or order. The spirit of democracy prevails. Each student organization has a faculty sponsor. The following groupings will show the variety and types.

The Student Body Association.

Honor Societies: Alpha Chi (scholarship), Phi Sigma Iota (modern language), Alpha Psi Omega (dramatic), Ampersand (senior women), Pi Kappa Delta (debating), Sigma Tau Delta (English), Pi Gamma Mu (social science).

Department Clubs: American Chemical Society, Association Child Education, Brushes, Collegiate B. and P. W., Dana Press, Fallis Players, Chi Beta (home economics), International Relations, LeCercle Francais, Los Hidalgos, Natural Science Society, Parabola, Poetry Club, Timothy Club, Priscilla Club, T. C. U. Chamber of Commerce, Theodolite (Engineering), T. C. U. Physics Society, Psychology Club, German Club.

Music Organizations: Band, Mixed Chorus, Orchestra, String Quartet, Wood Wind Ensembles, Madrigal.

Athletic Organizations: "T" Association (men who letter in athletics), Women's Sports Association.

Religious Groups: B. C. B. Association (for those training for full time Christian service), Student Christian Association, the "Y", Homiletic Guild Ministers' Wives' Club, Meliorist Club and C. Y. F. at the University Christian Church, Baptist Student Union, T. C. U. Hebrew Association.

Social Clubs: Bryson, Dames, Frogettes, Leti, Temple Club.

FELLOWSHIPS

The Board of Trustees provides for a number of graduate fellowships of \$400 each and also the sum of \$2,500 annually for Inter-American fellowships.

SCHOLARSHIPS

It is the desire of the University to encourage students of proven ability to continue their education, and to secure for them the aid of scholarships, when this is needed in T. C. U., and also in graduate schools after completing the degree here.

Any scholarship grant is based on the assumption that the student is carrying a normal load of 15 semester hours, and he must carry 12 semester hours at least, unless otherwise indicated.

Any scholarship is forfeited for the semester following one in which the student makes less than a C average grade. It may be forfeited at mid-semester for failure in work or conduct.

Music scholarships usually cover a specified amount of music tuition.

A student is not permitted to hold more than one scholarship (or discount) at a time. In case a student is eligible for more than one type of scholarship (or discount) he may choose the one of greater value.

As a general rule, students who receive scholarships should not work for the University for an extra stipend. In any case, students should not work more than twelve and one-half hours per week if they expect to do the kind of work they should in college.

Scholarships are inoperative in the summer.

The grant of any undergraduate scholarship becomes effective only after the student's eligibility has been checked and approved by the Dean of the AddRan College of Arts and Sciences acting for the Administrative Committee. High School Scholarships. One scholarship may be granted to each accredited High School in Texas, Louisiana, and New Mexico, for the highest grade student of the class, or for the second highest, to the extent that funds for this purpose are available. Two scholarships are available to each of the eight Fort Worth High Schools, for the highest grade man and the highest grade woman among the graduates in January and June classes, and two for the one summer class. These scholarships are non-transferable. The holder must enter T. C. U. not later than the Fall semester after graduation from High School, and may continue to hold the scholarship provided he remains in T. C. U. without interruption except during summer terms. The High School Scholarship has a total value of \$200 for eight semesters, to be applied to tuition at the rate of \$25 per semester as long as an average grade of C is maintained. If the student maintains an average grade of B the first year, the value of the scholarship will be increased to \$60 the second year, \$70 the third year, and \$80 the fourth year, provided the student maintains a B average. One-half the value each year will be applied to each of the two semesters of the long session.

Junior College Scholarships. Any graduate of a Junior College who ranks in the upper third of the class may apply for a scholarship; from the applicants, ten may be elected. This scholarship has a value of \$70 during the Junior year and \$80 during the Senior year, provided the holder maintains a B average. Otherwise it will be withdrawn.

Student Leadership Scholarships for students who render outstanding service to the school life and make "C" average grades. Fifteen of these go to those who play lead instruments in the Band and Orchestra. A limited number of these scholarships may go to athletes under the restrictions of the Southwest Athletic Conference.

The York Rite Masonic Scholarship Fund is used to aid students from the Masonic Home, as selected by the Committee of the four York Rite Trustees. This fund is capitalized at \$10,000.00 and is growing by additions annually.

The Lollie S. Greene Scholarship Fund was endowed for \$2,500.00 by the late Dr. Robert M. Greene in memory of his wife. The income provides a scholarship annually for some worthy girl whose father or mother, or both are deceased. Dr. Greene was a kindly neighbor of the campus for many years.

The Wilbur M. Kidd and Wife Scholarship Fund of \$10,000.00 is a memorial bequest from the Estate of this good family of Dallas. It provides three or more scholarships each year for students of superior records, selected by the administration on the advice of the executor of the estate.

The W. H. Green Scholarship Fund of \$5,000 donated by Mr. and Mrs. W. H. Green, Albany, Texas, provides a scholarship for some worthy student selected by the Administration and the donor.

The Harvey and Elizabeth Herd Scholarship, endowed by Mrs. Herd in the sum of \$10,250.00, provides a scholarship to a student with a superior record and need.

The Optimist Club of Fort Worth provides a scholarship in Juvenile Research for a boy who devotes a required amount of time to leadership of a Boys' Club in the city under the direction of the Professor of Sociology, and the Optimists.

The Kiwanis Club of Fort Worth provides a similar scholarship for the leadership of a Boys' Club.

The Amon G. Carter Jr. Scholarship provides \$200.00 each year for tuition in Texas Christian University. All bonafide City Carrier-Salesmen and regular newsboys of the Star-Telegram who have been working for as much as sixty per cent (60%) of the current school year are eligible to compete, regardless of classification, and no others. Grades as furnished by the school authorities will serve as the basis of determining the winner. Extra-curricu-

lar activities will not count as credit for or against any boy. In the event of a tie, the grades of the previous year will count, with Citizenship grades getting first consideration. If the first place winner can not use the scholarship for any reason, or cannot use it within a year from graduation from High School, it will go to the second place winner. This scholarship is good to Texas Christian University only. It is good within a year from date of High School graduation, but is non-transferable. This scholarship is paid by the Fort Worth Star-Telegram.

One Student Government Scholarship of \$75.00 is awarded each year by the Student Council to the Freshman, Sophomore, or Junior student who, in the opinion of the Student Council has contributed most to the welfare of the Student Body. The recipient must have maintained a grade point average of at least 1.5 in all college work.

The Fred Strandberg Scholarship Fund provides aid for some worthy boy or girl attending Texas Christian University. Mr. Strandberg came to T. C. U. in April, 1920, and was a devoted employee until his death in September, 1943. His gift to the University represents in a measure his interest in the welfare of the students.

A Creative Writing Scholarship of \$250 a year has been established at Texas Christian University, to be awarded annually to a new student who shows literary ability, at the rate of \$125 per semester for two semesters. The scholarship is given by the Dallas T. C. U. Woman's Club to foster creative writing in Texas. Applicants should address the chairman, Department of English, T. C. U., Fort Worth. Either prose or poetry may be submitted, at least fifty lines of poetry or a minimum of five hundred words of prose. Material submitted must be indorsed by either the student's high school or junior college teacher, and accompanied by a brief transcript of his high school or junior college record. The award will be made on the basis of the candidate's scholastic record as well as on his writing ability. Material must be received by August 15.

A Roving Scholarship of \$250 given annually by the Dallas T. C. U. Woman's Club, is to be applied on the winner's tuition at the rate of \$125 per semester during the next long session of two semesters after the scholarship is granted. This is an open competition among students already enrolled in the University for not less than twelve semester hours academic load. The applicant may submit his (or her) application to the head of his major department or directly to Dean Moore. The award is made on the basis of the candidate's scholastic record, leadership, and character. The recipient will be selected by the Scholarship Committee of the University with the approval of the Scholarship Committee of the Dallas T. C. U. Woman's Club by May 1. Applications with supporting letters of recommendation should be in the hands of Dean Moore not later than April 1.

The T. C. U. Women Exes of Fort Worth provide an annual \$150 scholarship for a worthy Fort Worth girl to enable her to complete her studies at Texas Christian University.

Fort Worth Press Prizes in Journalism. Prizes of \$25.00 each to one boy and one girl are provided annually by the Fort Worth Press for "outstanding work" on The Skiff, student newspaper.

Jarvis-Love Scholarships. The Jarvis-Love Bible Class of the First Christian Church in Fort Worth provides two scholarships of \$100 each to be used by Junior-year students who are preparing for the missionary field.

The Mr. and Mrs. George A. Ray Scholarship Fund of \$10,000 for ministerial and pre-ministerial students has been established at Texas Christian University.

SCHOLARSHIPS

Scholarships will be provided as available from the following funds established recently:

Jim Hillard Camp Scholarship Fund. Ernest Guffey Scholarship Fund. Romayne Ray Scholarship Fund for Music Students. The John E. Jarrott Ministerial Scholarship. Walter P. Jennings Memorial Scholarship. George P. and Mary V. Kuykendall Ministerial Scholarship. Caroline Burcilla McGill Ministerial Scholarship. Ferdinand and Mary Herd Moore Ministerial Scholarship. Mrs. Opal Weatherly Purvines Ministerial Scholarship. Mr. and Mrs. George A. Ratliff Ministerial Scholarship. Mr. and Mrs. J. B. Walton Ministerial Scholarship. Johnny B. Walton Ministerial Scholarship. T. E. Tomlinson Scholarship Fund for Ministerial Students. Leslie P. Merritt Scholarship for Ministerial Students. Mr. and Mrs. Charles Huff Scholarship for Ministerial Students. The C. H. Dyar Memorial Scholarship for Ministerial Students. George and Rachel Deahl Memorial Scholarship for Ministerial Students.

UNDERGRADUATE MINISTERIAL SCHOLARSHIPS

Undergraduate ministerial students who are certified by their churches and approved by the Dean of the AddRan College of Arts and Sciences will be given the following discount on their expenses:

A properly certified undergraduate ministerial student is to receive a scholarship credit of \$75.00 the first semester of attendance at T. C. U. In order to maintain the scholarship during any succeeding semester he must have made a grade average of not less than "B" on the work of the preceding semester. If not, his scholarship will be reduced to \$60.00 per semester. If he makes a grade average of less than "C", his scholarship will be withdrawn. If he carries less than a full academic load (12 to 15 semester hours), he will receive scholarship credit for one half of his tuition. The ministerial scholarship is to be credited to the student's current account.

Women certified for Christian Service will receive the same scholarships as those granted to ministerial students, and on the same basis. These Christian Service Scholarships for women at the present time must be limited to forty in any academic year. If the holder of a Christian Service Scholarship carries less than a full load (12 to 15 semester hours), she will receive a credit on her current account of one half of her tuition.

Wives of ministers, unmarried youths under 21 years of age who are children of ministers, missionaries, or employees of the University, and children from the Juliette Fowler Home, including children of employees of the Fowler Home, are to receive a discount of \$50 per semester on their tuition charges, provided they maintain a grade average of not less than "C" and are enrolled as full time students (12 to 15 semester hours). Students in this category taking less than 12 s.h. of general class work will be given a scholarship discount of 25% on regular general tuition.

The scholarships and discounts listed above are inoperative during the summer term.

No student may hold more than one scholarship (or discount) during a semester. In case he would be eligible for more than one, he may choose the one of greater value.

TEXAS CHRISTIAN UNIVERSITY BULLETIN

Since the number of scholarships is limited, application should be made to the Dean of the Add-Ran College as early as possible for this type of assistance. Undergraduate ministerial students will pay all other fees as indicated in the *Rates and Fees* section of this catalogue.

LOAN FUNDS

The Ex-Students' Loan Fund is available for use of Juniors and Seniors on recommendation of the Committee of which Dr. Gayle Scott is Chairman.

The Loan Fund of the University Place Study Club is handled by the Officers of this Club in making loans to Juniors and Seniors on recommendation of the Committee on loans, from whom the names and addresses of the officers may be obtained.

The Freshman Loan Fund is provided by the Tarrant County Federation of Christian Church Women.

Loans for students preparing for the ministry are available through the office of the Dean of Brite College of the Bible in the following Funds:

The McFadin Ministerial Loan Fund.

The Loan Funds of S. N. Strange and Mr. and Mrs. E. F. Gates.

The Loan Fund endowed by Mr. and Mrs. George A. Ray of Pettus, Texas. Students should apply for information at the office of the Dean of Brite College of the Bible.

The W. K. Kellogg Foundation Loan Fund is available for students of Medical Technology.

T. C. U.'s STUDENT PERSONNEL SERVICE

T. C. U., recognizing its responsibility for the training and development of the whole life of its students, has developed a complete student Personnel Department capable of assisting students with all those typical problems which are common to college students.

On the following pages some of these services are described briefly and called to the attention of those who may be interested.

FRESHMAN ORIENTATION

Most beginning students need assistance in planning their lives in their new environment. In order to meet this need, T. C. U. offers the following services:

(1) A group of capable counselors under the direction of Dr. Thomas F. Richardson are available at the time of registration and for conferences at scheduled hours for assistance with course planning. These counselors will see that each student registers for a sound college program that will serve until a more permanent program can be found based upon sound vocational decision.

(2) Since the Fall semester, 1947, a psychology course for freshmen is available. This course includes such topics as: the meaning of college, how to study, the psychology of learning, how to choose a life work, how to plan an educational program, a balanced time budget, a balanced social life, a balanced emotional life, etc. During the progress of this course, the student will face and decide some of the fundamental problems of life and will be aided in formulating a philosophy of life.

(3) Under the direction of the Dean of Women, the Director of Dormitories, the student body president, and officers of the various college student organizations, a series of "mixers" and social meetings will be fostered for the purpose of aiding the new students in getting acquainted and developing the feeling of belonging.

STUDENT PERSONNEL SERVICE

REGULAR COUNSELING SERVICES

(1) The Dean of Women will make every effort to see that the girls of the dormitories are made to feel as much at home as possible. She will also be ready to counsel with girls about any problems which they may bring to her. Life in our girls' dormitories becomes one of the pleasant memories of college life.

(2) The Director of Men's Dormitories will see that the life in the men's dormitories is conducted on a high plane in a democratic atmosphere. Life in the dormitories is conducted according to a definite plan with no more rules and restrictions than are necessary for home-like living and an atmosphere conducive to good college work. Two rules are kept constantly before all dormitory students: (1) decency of living, (2) respect for the rights of others. A student who participates fully in this program of dormitory life will experience real community living.

(3) The student Personnel office provides a personnel counseling service for those students who have personal, emotional, personality, educational or vocational, or other problems. This service is rendered by counselors who are familiar with modern psychological techniques and who are sympathetic and understanding. Students desiring such services should contact Dr. Richardson in Room 205, Administration Building.

VOCATIONAL TESTING AND GUIDANCE

Texas Christian University maintains a complete testing and vocational advisement service. All standard tests for measurement of mental ability, vocational and educational interests, vocational aptitudes, personality adjustment, and educational acheivement are available and used when needed.

Employing psychological test results, personal data from interviews, sound occupational information, trained counselors help students plan detailed vocational and educational programs; confirm programs already adopted, or revise programs which have proven unsatisfactory. Personality and social adjustment is explored and evaluated as it relates to vocational and educational goals.

This whole program of vocational testing and counseling is conducted with the view of assisting students in finding the proper place in life and avoiding the unhappy state of the "round peg in the square hole."

Our aim is that every student will "find himself" and get off to a good start as soon as possible after he comes to college.

These services are available and are designed for the needs of students. Students should not hesitate to ask for them.

EMPLOYMENT SERVICE

Realizing that part-time employment while in school is often essential and that full-time employment upon leaving school is the goal of an educational program, T. C. U. has provided an employment service in its Student Personnel department.

Those who desire either on-campus or off-campus part-time employment should contact Mr. V. B. Cockrell of the Student Personnel office. Many students are able to help defray their college expenses by this method.

Prospective employers are being contacted systematically and many excellent opportunities are being made available. Proper employment while in school can make a great contribution to the educational experience and finding the position after graduation that is most appropriate can be the climaxing event of a college life.

OTHER STUDENT SERVICES

Health Service. Realizing that in any community of people good health is necessary for happiness and success, T. C. U. has improved its health service. Each dormitory has a well-equipped sick bay, three nurses are on duty, and daily visits from the college physician are provided. All of this is provided by a nominal medical fee. Emergencies are cared for promptly.

Food Services. The University serves balanced meals which are wellprepared under the direction of a capable dietician. The food service is provided at non-profit rates and students find them very satisfactory. Offcampus eating places are also available and are maintained at the same high standards under the supervision of the Fort Worth City Health Department.

Extra-Curricular Activities. T. C. U., recognizing the fact that every activity of a college student has an educational value when properly used, maintains a well-balanced program of extra-curricular activities. Each student is urged to participate in one or more activities according to his desire and need. These activities are carefully directed to the end that they will give the greatest development to the members. Leadership, cooperation, social skills, and good citizenship are greatly facilitated by these activities. Although participation is urged, over participation is discouraged.

SOME FUNDAMENTAL PRINCIPLES

It should be understood by all those involved that counseling services are not designed to "coddle" the student or relieve him from responsibility. Rather, they are designed and are administered in such a way as to aid the student in using his resources more effectively and in becoming a responsible and self-reliant individual.

Decisions and choices are not made for the student, but he is assisted by clarifying the issues and seeing them in such a way as to be able to make his own decisions.

It takes a strong character to succeed in our complex society, and T. C. U. is attempting through these personnel services to contribute to the development of strong, self-reliant citizens.

HONORS COURSES

Students who show high rating on the above tests are eligible to apply for the status of "Honors Candidate." If accepted by the Committee and the major professor, the student will be allowed to follow studies in his major field with more initiative, research, and individual freedom than usual. The methods will vary with the teachers and the student.

HONOR ROLL

A student to be eligible for the Honor Roll must be carrying at least twelve (12) hours during the semester in courses that credit toward a degree; make an average of B (2.000); be passing in each course he is carrying at the time the semester grades are turned in; must not have a grade less than C (1.000); and must not have an "I" grade in any subject. The passing grades are A, B, C, D.

GRADUATION HONORS

At the time of graduation "honors with distinction" (formerly called "cum laude," etc.) will be awarded to 10 per cent of the graduating class, selected by a committee of the faculty on the basis of grade index and a comprehensive examination in the major field. To be eligible the student must have earned at least 60 semester hours in T. C. U. (exclusive of credit by examination or correspondence), and must have a point index of at least 2.25.

CREATIVE WRITING AT T. C. U.

T. C. U. has always encouraged creative writing among its students. The English Department offers a course in creative prose composition, emphasizes creative writing in the Southwest Literature course, the Invitation Freshman English, and in other classes. The T. C. U. Poetry Club publishes an annual

DORMITORY REGULATIONS

anthology. The Bryson Poetry Prize, given by Mrs. Walter E. Bryson, is one of the oldest college awards in the State. Dr. Rebecca Smith Lee, Mr. William Price Baker, Mr. A. L. Crouch, and the Woman's Branch of the Fort Worth Ex-Student Association offer annual prizes in the short story, the drama, Southwest Literature, and non-fiction prose, respectively. Prizes for freshman writing are given by the Dallas T. C. U. Woman's Club. The Margie B. Boswell Poetry Prize for T. C. U. Ex-Students was established by Mrs. Boswell in 1945 and will be offered annually. The awards in all of these contests are made at the Creative Arts Day Program, to which the School of Fine Arts contributes musical compositions and an exhibit of paintings.

DORMITORY REGULATIONS

Undergraduate students under 21 years of age are required to reside in the dormitories unless living at home or with immediate relatives. Special exceptions must be approved by the Dean of Women or the Director of Men's Dormitories.

Students who live on the campus are expected to eat in the University Cafeteria. Exceptions must be approved by the Business Manager of the University.

It is the policy of the University as adopted by the Board of Trustees that each dormitory be under the supervision of a Director, who operates the dormitory much on the order of a well-regulated home. Parents in placing their sons and daughters in the dormitories, signify their confidence in the administration and pledge their cooperation. Students living in the dormitories are expected to enter fully into the spirit and atmosphere of the homes.

Rules are not enumerated, because the matter of living together in a home is not approached in the spirit of rules. It is the general policy to make and interpret regulations for the good of the individual and to be as liberal as is consistent with good studentship and orderly living together in an atmosphere which should characterize a Christian institution.

Practically all rooms are for two students. They are ample in size, having two large clothes closets, running water, and are furnished with two beds of three-quarter size, two dressers, study tables, and chairs. Each student must furnish his own towels, bedding, pillow, sheets, pillow cases, bed spread, dresser scarf, and waste basket. He may include other articles such as rugs, pictures, and curtains to make the room more comfortable and attractive.

Men students desiring to live in a T. C. U. dormitory must make application for Room Reservation. Write to DIRECTOR OF MEN'S DORMI-TORIES, Box 411, T. C. U., for your application blank. Application blank must be returned with the \$6.00 fee to the BUSINESS OFFICE, Box 427, Texas Christian University.

If Room Reservation is not available, student will be notified two weeks in advance of the coming semester. Filing of application does not guarantee reservation.

Wherever room reservation is not possible, the Director's office will make every effort to aid student to find adequate and comfortable quarters offcampus.

DISCIPLINE

The discipline of the institution is in the hands of the President and the Committee on Student Welfare. The details are in immediate charge of the Director of Student Personnel, the Director of Men's Dormitories, the Dean of Women, and the Hostesses. Minor problems in connection with dormitory life are worked out by them.

Major problems involving gross violations of good conduct, such as profanity, gambling, drinking, insubordination, disrespect to authority, or destruction of university property are referred by the Director of Student Per-

sonnel and the Dean of Women to the Committee on Student Welfare. This committee investigates the case and if a violation is found, may recommend to the President that the offender be removed from the University community. A student who is manifestly out of harmony with the ideals of the university may be dismissed from the university without specific charge.

Students are invited to cooperate with the administration in maintaining such ideals of life as to make disciplinary problems rare.

Hazing of all kinds and secret societies are forbidden, and students by their matriculation pledge themselves to abstain from them. Hazing will be defined as demanding, on the part of the first party, any act or action, physical or mental, freely or not freely, willingly or not willingly, entered into by the second party.

Secret Marriage. Any student who makes false pretense as to his or her married state is subject to immediate suspension for an indefinite time. This applies to any person who marries secretly while enrolled as a student or who was secretly married at the time of enrolling.

Cases of dishonesty in tests, quizzes, examinations, writing of themes, or other class assignments are handled by the Committee on Academic Honesty in coöperation with the teacher in whose class the dishonest act was committed. A first offense usually involves loss of credit; repeated or aggravated offenses, suspension from the University. Academic dishonesty is defined as any attempt on the part of a student to receive credit for work other than his own. Unless proper credit is given the original author through the use of quotation marks, footnotes, or other explanatory notices, it is assumed that all written work offered is the student's own. Presenting written work for credit in the form of notes, themes, reports, problems, etc., prepared by another person, shall be considered dishonesty. An accessory to an act of cheating shares the guilt with the principal, and is dealt with in a similar manner.

SUSPENSION ON ACCOUNT OF ACADEMIC FAILURES

The student whose grades indicate he is either unwilling or unable to pass his work will not be retained in the University: 1. If he makes a grade below "D" in three-fifths of his work in one semester, he will be placed on academic probation until the close of the following semester; then if he is failing in three-fifths of his work he will be subject to suspension for the next semester. 2. Any student who fails again in three-fifths of his work in any semester must remain out of the University for at least one semester. 3. A student suspended the second time may be declared permanently ineligible to re-enter.

ABSENCE FROM CLASS

Texas Christian University is committed to the policy that regular and punctual class attendance is essential to successful achievement; and does not have a policy allowing a certain number of "cuts." No amount of assigned work is excused on account of absence, regardless of the reason for absence. In the event of unavoidable absence, it is the responsibility of the student to make arrangements with the teacher concerning work missed. Frequent absence will reduce a student's grade, and excessive absence will endanger passing courses, regardless of the student's natural ability.

Teachers will keep an accurate record of all class absences; and will report to the Director of Student Personnel: (1) when a student is absent from three consecutive classes; (2) when an accumulation of absences reaches the point of endangering the student's status in the class.

Groups, such as athletic teams, glee clubs, etc., may not be away from the University more than twelve days total in one semester, and are held responsible for work missed if such absences are not to impair class standing.

dr " ·

WITHDRAWAL FROM CLASSES

After a student has been duly enrolled in a class he is considered to be officially in that class until he has formally dropped from the class or withdrawn from school. Merely discontinuing class attendance does not constitute a drop or withdrawal.

In case a student desires to drop a course or withdraw from the University, he should follow the established procedure originating in the registrar's office; and, the date of withdrawal for purposes of tuition adjustment shall be the date of official withdrawal. See table under *Rates and Fees.*

ELIGIBILITY TO REPRESENT THE SCHOOL IN PUBLIC

In order to represent the University in any intercollegiate event, such as athletics, oratory, debate or in public places of honor within or without the school such as in glee club, band, or as student body officer, editor, business manager, etc., the student must have passed in at least eighteen semester hours during his last two semesters of residence before participation, and he must have passed at least nine of these in each semester. (In the case of athletes the Southwest Athletic Conference requires that he must have passed in at least twenty semester hours instead of eighteen.) He is expected to be enrolled for fifteen hours, but may be carrying only twelve if approved by the Dean or Registrar, on account of employment to cover expenses, or for some other good reason.

THE CREDIT OR SEMESTER HOUR

The unit of calculating credit is the semester hour. One hour a week of recitation for a semester of 18 weeks is counted as one semester hour. Three hours of laboratory period are considered the equivalent of one hour of recitation.

GRADING AND POINT SYSTEM

The definition of grades, and the point system designed to stimulate quality of work, are indicated as follows:

A-Reserved for exceptional work-3 points per sem. hr.

B-Implies superior work-2 points per sem. hr.

C-Means medium work-1 point per sem. hr.

D-Means inferior work-0 point per sem. hr.

F-Means failure- -1 point per sem. hr.

'I—Means incomplete (must be removed within first 30 days of the semester immediately following or it becomes an F. The fee for removing an "I" is \$2.00).

The student must secure the permit from the Registrar's Office and take it to the teacher before offering work of any kind toward making up the "I" grade. The teacher is not permitted to receive make-up work until the permit is presented.

N-"No grades"-May be used only at mid-semester.

WP-Used when student drops a course while making a passing grade.

WF-Used when a student drops a course after the first five weeks and is failing at the time he drops the course.

Each student, in order to graduate, must have a C average under the point system on all work for which he enrolls. A course dropped, after the first five weeks, while the student is failing is counted F. A course dropped . while the student is passing is not included in the calculation. In case a course is taken more than once, the higher grade is counted in the calculation, the lower grade or grades and hours disregarded. The grades are counted separately by semesters.

ACADEMIC LOAD

The student of average ability can carry 15 semester hours per semester. To carry more than 16 semester hours he must first obtain written approval from the dean of his college. The number of hours the student works outside should be taken into consideration in determining the academic load. As a general rule, to carry the maximum load of 18 hours the student shall have demonstrated his ability to make an average grade of B (2.00). Except in rare cases, freshmen should not take over 15 semester hours.

GRADE REPORTS

Grades are reported to the parents at the end of each semester. Reports will also be made to parents at mid-semester only on students who are failing in one or more subjects. For the benefit of students, instructors are expected to post their grades for each class.

ENTRANCE REQUIREMENTS

Character and Pledge. To be admitted, the applicant must be of good moral character, and must present a transcript of credits, properly signed, from the last school attended, high school or college, including a statement of honorable dismissal. The applicant must also fill out and submit a "Health Record" which will be supplied on request by the Registrar. These should be mailed to the Registrar, Texas Christian University, Fort Worth, Texas, some weeks before arrival of the student, if possible.

By the act of accepting membership in the University, the student pledges himself to refrain from encouraging or participating in any form of hazing, or secret society, or fraternity in connection with the institution.

Vaccination. Each student must present a physician's certificate showing either that he has had smallpox, or has been successfully vaccinated, within the last three years. Those who do not, will be vaccinated by the University physician. (Fee, \$1.00.)

SCHOLASTIC REQUIREMENTS FOR ADMISSION

Applicants under 21 years of age, except those who have served in the armed forces of the United States, must have been graduated from an accredited high school and with fifteen (15) accredited units, including: English, 3; history, 2; mathematics, 2; science 1. Any of these may be obtained by examination, either in T. C. U. or under the State Department of Education.

If the applicant presents graduation and fifteen accredited units, including 3 in English, he may enter and be allowed to make up the missing units. In no case will an entrance examination be permitted in a subject after the subject has been taken in college.

Applicants over twenty-one years of age or ex-service men over eighteen years of age who give evidence of ability to carry college work, may be admitted as special students or on individual approval.

As a basis for determining ability to carry college work, either one of several entrance examinations will be administered. This test will also serve as a basis of confidence on the part of the student, inasmuch as the test will indicate probability of success and will show strong and weak areas for special emphasis in planning a program of study. In such cases, only tentative credit is given, and the student is entered as a *special* student on *individual approval*.

These tentative credits will become approved by the completion of a college course in each respective subject; one year in college in English, mathematics, history, science, a foreign language will approve respectively, English 3 units, mathematics 2 units, history 2 units, science 1 unit.

ENTRANCE REQUIREMENTS

When a student has approved these units, he will be given credit for all other units he has actually taken in a secondary school up to a total of the required fifteen. The second year of a college foreign language will approve two units of that language for entrance.

The very spirit of this individual approval plan requires that the mature student manifest a spirit of earnest purpose, diligent application and proper coöperation. Failure to do so will forfeit the trust placed in him, and he will be dropped. He will also be dropped if he shows that he does not have the foundation for doing college work.

Cumulative Record an Auxiliary for Admission and for Guidance. Some high schools are maintaining or developing cumulative records of tests and personal characteristics of students. The Association of Texas Colleges is fostering a series of objective tests with cumulative records. As these are introduced they will be valuable aids to the student and to the college, especially in guiding the student. These will be taken into account in the admission of students.

These should show accurate records of the results of comparable (objective) measures of intellectual capacity and of achievement in the important subjects, and other items suggested in such standard forms as those provided by the American Council on Education and the Educational Records Bureau.

TRANSFERS AND ADVANCED STANDING

A student coming from another college must present a statement of honorable dismissal, and a transcript of his credits sent directly from that school to the Registrar. These credits will be accepted according to the rank given that school by the proper standardizing agency for its section. Texas schools are credited on the basis of their classification by the Association of Texas Colleges.

All Credits Accepted from other colleges or Universities are received on condition that if the student fails to demonstrate his ability to carry the advanced work satisfactorily, the amount of credits allowed will be reduced, or cancelled. If the average of transfer work is less than our C, no credit will be given for any course that shows the lowest passing grade.

CREDIT FOR THOSE IN MILITARY SERVICE

If young men and women are called to military service before completing the last two years of high school, they will be admitted to Texas Christian University on *individual approval* when they return from service if they are eighteen years of age or above and have valid and sufficient education achievement as measured by the tests which will be available.

The Armed Forces Institute is helping all young people to continue their educational work while in service. Our Institution will recognize this work in admitting students and in giving advanced standing and will give reasonable credit for any real educational achievement made through this program or in any other valid way. The Institute has devised batteries of tests which will enable each one to determine his sound educational advancement.

Texas Christian University will not grant "blanket credit" for any length of military service, but it will give reasonable credit for any sound and measurable educational achievement which the young men or women may make while in military service.

EDUCATION OF EX-SERVICE MEN AND WOMEN

Ex-Service Men and Women who wish to attend Texas Christian University should write to the Registrar for a general catalogue. Texas Christian University has organized a complete program for Ex-Service Men and Women, including methods of admission, qualifying tests for those who have not graduated from high school, counselling, course plans in all departments, and assistance in making applications to the Veterans Administration. T. C. U. is

in the area of the regional office of the Veterans Administration, Dallas, Texas.

CORRESPONDENCE WORK

Texas Christian University does not offer courses by correspondence. A limited amount of credit, usually not more than 18 semester hours, taken by correspondence in a standard school will be accepted toward a degree. No correspondence course may be carried while the student is in residence work. Permission to take correspondence work must be secured from the Dean or Registrar. Any course begun by correspondence must be completed before enrolling for residence. No correspondence work is accepted for graduate credit. A course in which the student has failed to make a paising grade may not be taken later by correspondence. Right is reserved to require our own examination on any correspondence course offered toward graduation.

DEGREES

The following degrees are conferred by Texas Christian University. Each degree is listed after the name of the college whose curricula lead to the completion of the major subject requirements for the degree.

AddRan College of Arts and Sciences: The degree of Bachelor of Arts, with majors in the usual academic departments, including the natural sciences, the fine arts, and the pre-law combination degree program. The degree of Bachelor of Science, with a major in home economics, or with the pre-medical, nursing, or medical technology combination degree program.

Brite College of the Bible: The degree of Bachelor of Divinity.

The School of Business Administration: The degree of Bachelor of Science in Commerce.

The School of Education: The degrees of Bachelor of Science in Education, Master of Education, and Master of Arts.

The Evening College offers many courses leading to the several degrees.

School of Fine Arts: The degrees of Bachelor of Fine Arts in Art, Bachelor of Fine Arts in Speech-Drama, Bachelor of Music, Bachelor of Music Education, Bachelor of Arts in Music.

The Graduate School: The degrees of Master of Arts, Master of Science, Master of Business Administration, Master of Music, Master of Music Education, Master of Fine Arts and Master of Education.

Harris College of Nursing: Bachelor of Science in Nursing.

REQUIREMENTS FOR GRADUATION

In prescribing the requirements for graduation, the faculty accepts the idea of a limited elective system; requiring certain prescribed subjects, in order to give breadth; and the concentration upon a definite combination of related subjects to afford a comparative mastery of some field.

A student may graduate under the requirements of the catalogue in force during the session in which he first enrolled, provided he graduates within six years from the end of that session. The summer term may count as a part of the session before or after it. A student may graduate under the requirements of the catalogue of the session in which he graduates. It is expected that the requirements of the catalogue chosen will be followed as a whole.

1. General Requirements:

Required Subjects for B. A. Degree:

Religion-6 sem. hrs., including Religion 310 and 3 sem. hrs. chosen from Rel. 320, 332, 333, 344, 350.

English-12 sem. hrs. (Eng. 311ab; and Eng. 321ab or 322ab or 324ab).

A foreign language-6 sem. hrs. (numbered 321 or above).

A social science-6 sem. hrs. (usually Soc. Sci. 312 if taken in the freshman year).

Psy. or Phil.-3 sem. hrs.

Science—6 sem. hrs. (If no high school science was presented then 12 s. h.) Physical Education—4 sem. hrs. (required in the first two years).

Required Subjects for B. S. Degree:

Religion-6 sem. hrs., with same choice as for B. A. degree.

English—12 sem. hrs. (Eng. 311ab; and Eng. 321ab or 322ab or 324ab). Social Science—6 sem. hrs. (usually Soc. Sci. 312 if taken in the freshman year).

Psy. or Phil.-3 sem. hrs.

Science-6 sem. hrs. (Biology, if degree in Education).

Physical Education-4 sem. hrs. (required in the first two years).

For other degrees see catalogue sections devoted to the School of Business, the School of Fine Arts, and the Graduate School, and the Brite College of the Bible Catalogue.

In all cases, the candidate's use of the English language must meet the approval of the proper committee of the faculty.

2. Majors and Minors. Each student will elect by the end of his sophomore year a major with a minimum usually of 24 semester hours, and a minor of 18 hours, approved by the head of the department, in writing. Under each department in the catalogue will be found a statement of the requirements for a major in that department, and the available minors.

3. Total of Credits. Each student is required to make before graduation a total of 124 semester hours, including 4 semester hours of Physical Education in the first two years, with a grade point index of at least 1.0 under the point system, doing resident work in this University at least 36 weeks, earning at least thirty semester hours in addition to any number accepted from other schools, or used for another degree. Thirty of the 124 semester hours must be advanced courses; that is, numbered in the 30's, 40's, or 50's. At least 30 semester hours of advanced work must be done in Texas Christian University.

If a second Bachelor's degree is taken, an additional 30 hours of advanced work will be required.

The last 30 semester hours are to be done in Texas Christian University, except as provided for in the combination degrees with law or medicine.

On work done in this institution a transfer student must make a grade index of 1.0 under the point system.

INSTRUCTIONS FOR REGISTRATION

Those who plan to enter Texas Christian University for the first time should study carefully the following instructions, and also the calendar on page 5 of this catalogue.

First. Write to the "Registrar of Texas Christian University, Fort Worth 9, Texas," for application blank and "Health Record" blank. Second. See that a certificate of credits is sent by the last school at-

Second. See that a certificate of credits is sent by the last school attended (high school or college) directly to the Registrar. No student will be considered for admission until this record is in the office of the Registrar.

Third. If the home of the applicant is not in Fort Worth, a room reservation fee of six dollars (\$6.00) should be sent to the "Business Manager of Texas Christian University" as early as possible. Rooms are assigned in the order of application.

Fourth. All students, both those who have previously attended the University and those entering for the first time, are required to devote three days to registration routine, that everything may be in readiness for the first class session. Full details of the routine of registration and for the pre-reg-

istration activities of freshmen students will be available at the time of registration.

Fifth. Both new students and those who have formerly attended the University should study the catalogue very carefully before time for registration. Special emphasis should be given to course descriptions, tables of courses, regulations governing majors and minors, the student giving particular thought to his vocational goal. At the time of registration, department heads and faculty members will be available to discuss and aid in the solution of any perplexing problems.

Sixth. An X-ray examination is required of all new students. A definite time will be provided in the period of registration.

TABLES OF COURSES

These are printed to guide the student in the selection of courses for the first two years of undergraduate work. The final decision should be made only after advising with the Counselors or the Registrar or the Dean of the College concerned. It is better to have a comprehensive program of study rather than to follow too exclusive specialization in undergraduate work.

The first two years of college work is foundational, hence is much the same for any course the student may have in mind.

Fine Arts students should see tables under that division of the catalogue.

Ministerial students should see Table XIV and the Brite College of the Bible catalogue. Undergraduate ministerial students should consult the Head of the Department of Religion.

The electives must be selected so that the total will include 36 hours in Social Sciences (including Government 326, 321), of which 15 hours must be advanced; not more than 12 hours may be Freshman. Additionally there must be 15 hours elective from other Liberal Arts subjects (of which 6 must be advanced); or Acct. 322ab and six advanced hours.

Pre-law students are urged to take the four-year curriculum and the B. A. degree, in which case they may enter Law School without presenting any specified subjects. A student entering Law School on three years of college work. 93 semester hours (the minimum permitted) must present certain specified subjects. These are all included in Table VIII. Mathematics and a foreign language are required. A student completing these 93 hours in T. C. U. on completing the first year at a standard Law School, with a "C" average in both T. C. U. and Law School, separately, will be entitled to receive the B. A. degree from T. C. U. This is subject to the provision in the next paragraph.

Provision for the Combination Courses in Law. In order to have this privilege the student must have petitioned for one of the combinations before leaving this institution, secured written official approval of his courses from the Registrar's office, and have arranged satisfactorily for the fulfillment of all the general requirements for the degree. The ninety-three semester hours of college work must be completed before entering the professional school, but special permission may be secured to complete a small amount in summer terms later, provided this arrangement is made before the student leaves the University.

On completion of the above courses in Texas Christian University, if the student's point index is 1.500 or higher, he may enter the School of Medical Technology in Harris Memorial Methodist Hospital. After satisfactory service in this school for twelve months he will receive our B. S. degree. The requirement for entrance into the Technology Course in the Harris Memorial Methodist Hospital is the above three-year program in T. C. U. or a Bachelor's Degree from any standard college.

TABLE XII. For the Degree of Bachelor of Science in Nursing See Tables in Harris College of Nursing Section of this bulletin.

*Math. and Physics are advised, but optional.

On completion of the above and the remaining requirements as set forth in the Harris College of Nursing Section of this catalogue, the Bachelor of Science in Nursing degree will be conferred.

Graduate nurses who wish to apply for this degree will receive 30 semester hours credit. Nurses who have received academic credit as well as the R. N. certificate may substitute such credit, if otherwise acceptable, for similar courses in Table XII. To receive the degree they must satisfy the requirements listed above and 30 additional hours in approved courses.

Counsellors: Dean Lucy Harris, 1300 W. Cannon, for all candidates; and additionally Dr. Porterfield and Dr. Hewatt for freshmen and sophomores.

RATES AND FEES

After a student has been enrolled for courses he must go in person to the Business Office and make payment, or arrange for terms. Students and patrons are advised that any financial arrangement with the Business Office except for cash should be made in advance, and that registration should be completed during the dates set aside for registration so there will be no delay in starting class work:

Accounts will be adjusted in case of official withdrawal from the University, as of the date of official withdrawal. A table of "Tuition Charged Students Who Withdraw" will be found below.

Room deposits should be made well in advance, since room assignments are made in the order received. Refund of room deposit will be made if the room reservation is cancelled not less than thirty days before the beginning of the semester or term.

Charges for students registered for courses in the Evening College only are listed in the Evening College Catalogue.

Under the name *Tuition* is included the charge for instruction in regular class work, with no extra charge for use of the library.

Class work in music is figured at the regular tuition rate. For private lessons in music, and for special art fees, see the School of Fine Arts section of this catalogue.

Laboratory and special service fees are listed separately below.

Chemistry Breakage Deposit.

All chemistry courses require a breakage fee of \$5.00 per year, except organic courses, which require a deposit of \$10.00 per year. This fee is refundable at the end of the year, less breakage. A student whose breakage reaches the maximum of his deposit before completion of the course will be required to pay this breakage, leaving his deposit intact. If a student drops any of the above laboratory courses there is no refund on laboratory fees paid.

ART LABORATORY FEES

The laboratory fee designated for each art course is designed to cover certain overhead items such as the use of a model, where required, the use of drawing boards, easels, and other permanent equipment for each individual student. In addition a certain amount of expendable supplies will be issued to the student.

Certain equipment and supplies other than that covered by the laboratory fee will be needed by each student, the amount varying somewhat according to the ability of the student and the nature of the projects. These additional amounts required of all students are to be furnished by the student. Such supplies and equipment will be designated and assigned by the instructor for purchase.

Certain fundamental pieces of equipment must be supplied by the student. In all painting courses a paint box is required (about \$10.00); in commercial art courses a set of drawing instruments is required (about \$25.00); in art education and crafts a set of tools, such as block-printing tools, rulers, scissors, etc., (about \$10.00) is required.

EDUCATION 366ab AND BRITE 259 REPORT TYPING FEE

Since Education 366ab is accepted for the Master of Education degree in lieu of the usual thesis for the M. A. degree, and since each student taking the course is required to prepare a comprehensive typed project report, the student is required to pay for typing this report. This applies also to Brite 259, offered in lieu of thesis on B. D. degree.

FEES FOR SPECIAL SERVICES

A Change Fee of \$3.00 is charged for late registration—to be applied after the regularly announced dates for registration. There is a \$3.00 fee for changing or adding a course after ten (10) days from the regular registration date.

A Physical Examination Fee of \$1.00 is charged for taking the examination after the regular period for this is past. If taken at the assigned time, it is free.

A Vaccination Fee of \$1.00 is charged for the vaccination by the university physician at any time. The student is urged to be vaccinated before entering, however, and to bring a certificate.

For Advanced Standing Examination or any Special Examination a fee of \$2.00 per subject is charged.

DEFINITION OF FEES

A Student Activity Book good for all athletic events held at the University is provided for each student who pays for as much as 9 semester hours per semester. This is non-transferable, because it is provided at a wholesale rate, much lower than can be sold to the public. It is not a purchase but a student privilege. Hence, if presented by anyone else it will be taken up and cancelled. If lost, no duplicate will be issued, but the matter should be reported to the Business Office at once, so that in case the original is recovered, it may be returned to the rightful owner. A student carrying less than nine semester hours of work per semester will not be furnished an athletic coupon book, but may purchase one for \$10.00. Every student who enrolls for as much as 9 semester hours of work per semester is provided a copy of the Annual, The Horned Frog, and a subscription to the weekly paper, The Skiff.

Board and Room. All students who are not living with their parents or some near relative are required to room in the dormitory, and it is assumed that all dormitory students will board in the Cafeteria. Any exception must he cleared with the Business Manager in advance.

Board cost is estimated by the semester. It is assumed that each student will miss some meals by visits and week-end trips, and no refund is made for these. It is the policy of the university to use only the best quality of food at a fair price, rather than to lower the rate and serve cheap food. Also the student is encouraged to eat regularly rather than to shop about.

Medical Fee for dormitory students covers the service of the Registered Professional Nurse, who gives her full time to this work; the services of the university physicial which he can render in the dormitories, or in his university office; and such common medicine as can be supplied from the stock without prescription. All expenses for any type of service beyond the regular routine infirmary service, such as going to a hospital, or outside doctor's service, are to be paid by the student.

Room Deposit (\$6.00) is required as a guarantee to cover any damage or breakage by the student. Any balance remaining is refunded when the student finally withdraws from school, on surrender of the original receipt, provided all his accounts with the business office have been paid. Each student is responsible for any damage in his own room. Items prohibited in the rooms are electrical irons and equipment for cooking or heating.

Library Deposit (\$5.00) is required once on enrolling, as a guarantee to cover losses or fines on books. After fines reach \$2.00 they must be paid in cash, leaving the student deposit intact. On withdrawal from school, \$4.00 of the deposit, less fines, will be refunded on surrender of the original receipt, provided all accounts with the business office have been paid.

DISCOUNTS

For discounts to children of ministers who are solely dependent upon the ministry for support, and children of employees of the University, and for Scholarships to Ministers, Ministerial and Christian Service students, see "Undergraduate Ministerial Scholarships."

RATES ARE CASH IN ADVANCE

Patrons whose finances require it may make application for exception. Such applications should be made at least ten days prior to matriculation. If allowed, any deferred payments must be closed in notes bearing interest from date of matriculation at six per cent. Such notes must be met promptly at maturity; failure to do so subjects the student to dismissal from classes, without notice.

INTERPRETATION OF COURSE NUMBERS

A new system of numbering courses became effective with the beginning of the Winter Trimester on November 1, 1944. Each course has a number consisting of three digits. The first digit indicates the semester hour credit value of the course per semester. The second digit indicates the rank of the course, 1 representing the first year or freshman rank, 2 the second year or sophomore rank, 3 the third year or junior rank, 4 the fourth year or senior rank, 5 senior and graduate rank, 6 graduate rank only, 7 and above, used only in Brite College of the Bible for graduate courses leading to the Bachelor of Divinity degree. The third digit simply distinguishes one course from another in the department. To illustrate, the number 311 indicates the course has a value of 3 semester hours per semester, and is of freshman rank; if the number is 311ab the length of the course is two semesters with a total value of six semester hours credit, three each semester taken. The addition of ab to a number usually means both halves of the course must be taken to receive credit for either half. There are certain exceptions, including all course numbers which carry an additional letter i, meaning independent, examples being Mathematics 312ai and 312bi, either one of which may be taken for credit without the other. A course composed of parts a and b is expected to be taken as a two-semester unit.

A student, as a rule, may not enroll for a course higher than his rank, with the exceptions that senior courses in the 40's are open to juniors, and graduate courses in the 50's are open to undergraduate seniors.

When the expression advanced courses is used, it refers to courses of junior rank or higher. Juniors and seniors taking freshman courses, and seniors taking *required* sophomore courses, are allowed only two-thirds the regular amount of credit.

At least 30 semester hours of the 124 required for graduation must be in the 30's and 40's or 50's.

COLLEGE OF'ARTS AND SCIENCES

ADDRAN COLLEGE OF ARTS AND SCIENCES

All members of the University Faculty who give instruction in undergraduate courses leading to the degrees of Bachelor of Arts and Bachelor of Science are members of the Faculty of the AddRan College of Arts and Sciences. Their names appear by departments on the following pages.

COURSES OF INSTRUCTION

ART

Thirty semester hours in Art are required for a major in Art for the Bachelor of Arts degree offered in Painting, Commercial Arts, Crafts, and Bachelor of Arts degree offered in Franking, Coninercial Arts, Orarts, and Interior Decoration. A minor in Art, to consist of eighteen semester hours of courses prescribed from one of the major fields, will be offered on request, and with the consent of the department in which the student is majoring. A description of courses will be found in the School of Fine Arts section of this catalogue.

TEYAS	Christian University, in cooperation with the Han	rris .	memorial	metn-

lexas Christian University, in cooperation with the Harris Memorial Methodist Hospital, offers a four year course leading to the B. S. Degree. The fourth year of work is done in the Hospital, and details may be obtained from the Hospital. The work of the first three years is outlined in Table XI on page 42. The subjects at the University and at the Hospital are closely coordinated. The School is approved by the American Medical Association, the American Society of Clinical Pathologists and the National Registry of Medical Technologists.

Graduate work in Medical Technology leading to the M. S. degree, is available. The course is eighteen months in length and *is not based* on the B. S. in Medical Technology, but on a bachelor's degree with a major in biology or in chemistry including a modern language and all subjects listed in Table XI.

> BUSINESS ADMINISTRATION (See School of Business)

DEPARTMENT OF CHEMISTRY

Professors Henry B. Hardt, Head of the Department, and F. W. Hogan Assistant Professor F. M. Lisle

Laboratory Instructors H. J. Edens, Geraldine Kissinger

Requirements for a Major in Chemistry:

Major-The following chemistry courses are required: 411ab, 421ab, 431ab, 441ab, 042.

Minor-Six semesters work in biology, geology, mathematics or physics. In certain cases a minor in Business Administration, including stenography or in a foreign language, is very desirable, and will be allowed.

Prescribed-Mathematics 315, 316, 318, 422ai, 422bi, physics 411ab, and four semesters of French or German, preferably the latter as the foreign language. Pre-medical students planning to earn the B. A. degree with a major in chemistry before entering medical school, may, with the permission of the Head of the Department, omit Math 422a and 422b. A major in chemistry is given with the B. A. degree only.

Note: When chemistry is offered as a first minor, it will include two of the following courses: 421ab, 431ab, and 441ab. Enrollment in any advanced course is conditioned on a grade of C or higher in the preceding course. Chemistry 411ab is prerequisite to all other courses in the Department, except for 612.

411ab. GENERAL INORGANIC CHEMISTRY

8 semester hours. Mr. Hardt. Mr. Lisle.

Three lectures per week. 8. One laboratory period per week.

Two lectures per week. b.

Two laboratory periods per week.

An introduction to the study of the fundamental principles of the science of chemistry through a comparative study of a limited number of elements and their compounds. The laboratory work in 411b will include elementary qualitative analysis.

612MC. ELEMENTARY CHEMISTRY FOR NURSES C. City-County Hospital

Three lectures and one laboratory period per week.

This course is a part of the curriculum for the B. S. in Nursing degree, and is given at the City-County Hospital. The next classes will begin about September 15.

212. QUALITATIVE ANALYSIS

Spring. Two laboratory periods per week.

Consists of the laboratory work of the second semester of Chemistry 411, and is open only to those students who have not had qualitative analysis as a part of their freshman chemistry.

ELEMENTARY PHYSIOLOGICAL CHEMISTRY 323.

> Two lectures per week. One 3-hour laboratory per week.

Prerequisite: Chemistry 411ab.

Designed to complete the formal chemistry requirements for students in the Harris College of Nursing. Others may be admitted by per-mission. The purpose of the course is to acquaint the student with some principles of organic chemistry and the application of these principles to biochemistry.

421ab. QUANTITATIVE ANALYSIS

- a. Two lectures per week. Two laboratory periods per week. Theory and practice of volumetric analysis.
- Two lectures per week. h. Two laboratory periods per week. Theory and practice of gravimetric analysis.

431ab. ORGANIC CHEMISTRY

Three lectures per week.

One laboratory period of four hours per week.

A study of the fundamental types of organic compounds, their nomenclature, classification, reactions and applications.

441ab. PHYSICAL CHEMISTRY

Three lectures per week.

One laboratory period of four hours per week.

Prerequisite: Chemistry 421ab or 431ab, physics 411ab, and mathematics 422ai, except as noted above.

A theoretical study and explanation of a number of the more important physical phenomena as applied to the field of chemistry. Some of the newer theories and recent developments in chemistry will be considered.

042. TEACHING OF CHEMISTRY

Open to juniors and seniors only.

Members of this class act as laboratory assistants in Chemistry 411ab for a period of two semesters. Under certain conditions this course may be counted for credit in the Department of Education.

343. BIOCHEMISTRY

> Two lectures per week. One laboratory period per week.

Prerequisite: Chemistry 431ab.

An introductory course dealing mainly with the chemistry of the normal human body.

351. QUALITATIVE ORGANIC ANALYSIS

Prerequisite: Chemistry 431ab.

One conference and two laboratory periods per week. An elementary course in qualitative organic analysis, intended to introduce the student to the methods employed in the identification of organic compounds.

352. ORGANIC SYNTHESIS

3 semester hours. Mr. Hogan.

Prerequisite: Chemistry 431ab.

One conference and two laboratory periods per week. Methods and technique of organic synthesis, in which several of the more important syntheses will be studied.

053. SPECIAL PROBLEMS IN CHEMISTRY Credit and hours to be arranged.

Advanced work in analytical, organic or physical chemistry, to be determined by the previous preparation and interests of the individual student.

254. COLLOID CHEMISTRY Two lectures per week.

2 semester hours.

Staff.

Prerequisite: Chemistry 441a.

An introduction to the properties of colloidal systems, with chemical, industrial and medical applications.

DEPARTMENT OF ECONOMICS

Professor Herbert R. Mundhenke, Head of the Department Assistant Professor J. R. C. McGowen

Requirements for a Major in Economics:

Major-24 semester hours in economics, including Economics 321, 449 and 351 or 352, and excluding Social Science 312 and any other economics course of less than sophomore rank. All courses submitted for a major must receive approval of head of department.

Minor:

Recommended-18 semester hours in commerce, education, government, history, philosophy, or sociology.

Acceptable-18 semester hours in any department of the College of Arts and Sciences, by permission of the head of the department.

Prescribed-Social Science 312.

Recommended-French or German as the foreign language for students wishing to pursue graduate study later.

- 312ab. DEVELOPMENT OF CIVILIZATION: SOCIAL SCIENCE 6 semester hours. ORIENTATION
- 321a. ECONOMIC PRINCIPLES

3 semester hours. Not open to freshmen. Open to sophomores. Required of all economics. business administration, pre-law and journalism students. This course is a prerequisite to all other economics courses except Economics \$\$6 and 337.

An introductory course to acquaint the student with the fundamental principles which underlie economic relations and activities. The object will be to guide the student into clear and accurate thinking on the leading characteristics and problems of the present economic system, and to open the field for advanced study.

321b. ECONOMIC PROBLEMS

3 semester hours.

A continuation of 321a, with major attention devoted to economic problems. Especially planned for students who intend to take not more than six semester hours in Economics.

323. PRINCIPLES OF ECONOMICS 3 semester hours. Staff.

Not open to freshmen. Open to sophomores. Similar to 321a, but designed primarily for registrants in the School of Business. Meets the prerequisite requirements for all advanced courses in Economics for candidates for the degree of B. S. in Commerce. An introductory course concentrating entirely upon the fundamental principles which underlie economic relations.

It is not possible to obtain credit in both 321a and 323.

- ECONOMIC GEOGRAPHY 327. See Department of History for description
- 330. PUBLIC FINANCE

Prerequisite: Economics 321. A study of public expenditure, financial administration, taxation, and public debts, together with a consideration of the incidence of the various types of taxation and the critical analysis of the systems that exist in the country.

Waddill, Verna Wyatt Part-time Instructor Mary Camp Teaching Fellows Beth Albert, Betty Jean Davis*

Requirements for an Undergraduate Major in English:

A total of thirty semester hours in English, including English 311ab; Sophomore English (preferably 324ab); and at least three courses numbered in the 340's and 350's. English majors will take six semester hours of History (of Sophomore rank or above) and at least three semester hours in the Department of Philosophy. Philosophy 334ab, The History of Philosophy, is of particular value to students of literature. English majors are urged to elect courses in Foreign Languages; those who expect to pursue graduate work beyond the master's degree should take French or German or both. The minor subject (18 semester hours) should ordinarily be closely related to English. The minor subject and all of the advanced English courses must be approved by the head of the Department of English.

Requirements for an Undergraduate Minor in English:

A total of twenty-four semester hours in English, including English 311ab and Sophomore English (321ab or 322ab or 324ab). The advanced English courses are to be chosen only with the approval of the head of the student's major department and the head of the Department of English.

Requirements for Graduate Students:

- A candidate for the Master of Arts degree with a major in English must have completed the equivalent of an undergraduate major in English (in no instance less than twenty-four semester hours) before starting on his work for graduate credit. He may elect to take both a major (eighteen semester hours) and a minor (twelve semester hours) in the Department of English, or he may choose a minor in a related subject. Included in the thirty hours of required work is the Thesis Seminar (English 660). At least two of the English courses taken for the master's degree must be from those numbered in the 350's. The candidate will choose certain periods of literature for specialization and must pass an oral examination on those periods.
- A candidate for the Master of Arts degree with a minor in English must have completed at least eighteen semester hours of undergraduate English before starting on his work for graduate credit. The English part of his oral examination will cover the courses which he takes for graduate credit.

Evening College Courses in English:

In exceptional instances, students in the Day College may be permitted to enroll for English classes in the Evening College.

Professor William J. Hammond, Head of the Department Associate Professors W. C. Nunn and Ralph Garrett Assistant Professors Miss Martine Emert and Merrill Rippy Instructors Mrs. Mirth W. Sherer, Miss Marguerite Potter

Requirements for Undergraduate Majors in History:

Major-24 semester hours beyond social science or freshman history. The major must include six semester hours of American history above the sophomore rank, and six semester hours of English history or other European history exclusive of Social Science 312ab.

Minor-18 semester hours in government, economics, sociology, philosophy, business administration, religion, English (24 semester hours), Spanish (with Latin-American history).

Prescribed-Government, 6 semester hours.

Requirements for Undergraduate Minors in History:

18 hours beyond Social Science 312ab or freshman history; six semester hours of any American history and six of English, or other European history. Six semester hours must be of junior rank or above. Three hours of government, economics, anthropology, sociology, geography, or history of religion may be substituted for three hours of history provided the course is above the sophomore rank.

LOWER DIVISION COURSES

In courses 325ab and 320ab, students may be admitted to the b part without having had the a part, but the a part must be completed before credit is given. In Social Science 312ab the first half is prerequisite to the second half. However, those who have taken a but failed it, may continue the course in the spring.

SF-4.

Spring.

Prerequisite: Journalism 323.

Principles of style, news editing, and headline writing.

333ab. REPORTING

Fall.-Spring.

Daily reporting hours to be arranged. Prerequisite: Journalism 323 and 324.

Practical work in reporting and copy reading. The class is organized as a newspaper editorial staff, with the instructor as the editor in charge. One hour daily is devoted to reporting, three hours each week to copy reading, and one hour each week to conference. Reporting hours must be arranged by consultation with the instructor.

331. JOURNALISTIC WRITING

Evening College. Spring. A course designed to give individual attention to the student. Opportunity is given for study and practice in various forms of journalistic writing. No credit toward a major in journalism.

336. HISTORY OF JOURNALISM

Spring.

A study of the development of the newspaper. This course is open as an elective to juniors and seniors in all departments.

338. COMPARATIVE JOURNALISM

Not offered in 1948-1949.

A comparative study of the journalism of the world. This course is open as an elective to juniors and seniors in any department.

339. ADVERTISING PRINCIPLES AND PRACTICES (Bus. Ad.) 3 semester hours. Offered in Evening College only; see Evening College catalog.

A general survey of all phases of advertising designed to provide: (1) a working knowledge for those planning to follow other vocations; and (2) a foundation for further detailed study for those planning to enter the advertising profession. Instruction by text, class discussion, and frequent written exercises affording practice of the principles learned.

340ab. EDITORIAL AND LAW OF THE PRESS

Session. The writing of editorials and study of editorial problems. Readings in current opinion. Study of newspaper law.

Open as an elective to juniors and seniors in any department.

DEPARTMENT OF MATHEMATICS

Professor C. R. Sherer, Head of the Department Assistant Professors Ina Mae Bramblett, L. W. Ramsey. W. Harvey Neely, Clarence M. Sale Instructors Edith Morgan, Elva Atherton Lerrett, Mary Anne Macke Assistant Instructor Francis H. Ivers

Requirements for a Major in Mathematics:

Major-B. A. degree, 29 semester hours.

Required-315, 316, 318, 422ai, 422bi and at least 12 semester hours of junior or higher rank, not including 330.

Minor-18 semester hours in chemistry or physics.

The Department must approve any other minor.

Prescribed-Physics 411, French or German as the foreign language. Spanish must be approved by the Department.

Requirements for a Minor in Mathematics:

Any student presenting Mathematics as a first minor must take 6 hours of junior or higher rank.

General Information:

Mathematics 315, 316, 318 are prerequisite for all advanced courses in mathematics.

Engineering students should take Math. 315, 316, 318. Math. 312ai or 315 and either 312bi or 320 will complete the 6 hours required of business administration students. In many cases it will be advisable to take both 312bi and 320.

Mechanical drawing, descriptive geometry, and surveying courses are listed under Engineering.

- 018. TUTOR PLANE GEOMETRY 3 semester hours (No credit). Designed to meet the needs of students with no plane geometry.
- 4 019. TUTOR SOLID GEOMETRY 3 semester hours. (No credit). Designed to meet the needs of students with no solid geometry.

312ai. ALGEBRA

Fall.-Spring.

(Social Science, pre-law, business administration students)

Prerequisite: Two units of high school mathematics.

This course is a study of the essential principles of college algebra. Special permission must be obtained to receive credit if more than three units of high school algebra and geometry or more than one and one-half units of high school algebra are presented. See Math. 315.

312bi. MATHEMATICS OF FINANCE

3 semester hours.

3 semester hours.

3 semester hours.

Fall.-Spring.

(Social Science, pre-law, business administration students)

Prerequisite: Mathematics 312a or 315.

This course is essentially the application of algebraic principles in the field of mathematics of finance. It will complete the six hours required for business administration majors.

COLLEGE ALGEBRA 315.

Fall.-Spring.

Prerequisite: Three units of high school algebra and geometry. A standard course in college algebra, required of all engineering students. 3 semester hours.

316. TRIGONOMETRY

Fall.-Spring.

Prerequisite: Three units of high school algebra and geometry, or Mathematics 312a with at least a B grade or special permission, or 315. A basic course in trigonometry. Detailed study of numerical and analytical trigonometry.

MATHEMATICS

318. ANALYTICAL GEOMETRY

Fall.-Spring. Prerequisite: Mathematics 315 and 316.

A study of the straight line, conic sections, and locus problems.

ELEMENTARY STATISTICS 320.

Fall.-Spring.

Prerequisite: Mathematics' 312a or its equivalent. This course is a study of the basic principles of statistics. All students who wish to take other courses in statistics or prepare for Civil Service examinations in statistics in various departments should register for this course. It may be substituted for Mathematics 312b to complete the six hours required for business administration majors.

422ai, CALCULUS

Spring.

Prerequisites: Mathematics 315, 316, 318. The derivative and its interpretation, maxima and minima, related rates, differentials, indeterminate forms, and simple definite integrals with applications.

422bi. CALCULUS

Spring.

Prerequisite: Mathematics 422ai.

A continuation of mathematics 422ai. It contains a detailed study of integration, Taylor's and Maclaurin's theorems, multiple integrals, and partial differentiation.

330. THE TEACHING OF SECONDARY MATHEMATICS Prerequisite: Mathematics 422bi. For those who expect to teach mathematics in the high school. Observations will be made in the schools of Fort Worth. A paper on some phase of the subject will be required.

- 331. ADVANCED ANALYTICAL GEOMETRY
 - Fall.

Prerequisite: Mathematics 422bi, or by permission. A detailed resume of the conic sections, the general equation of second degree, locus problems in plane analytical geometry. The fundamental concepts of solid analytical geometry and an introduction to differential geometry.

332. ADVANCED ALGEBRA AND DETERMINANTS

Spring.

Prerequisite: Mathematics 422bi, or by permission. Selected topics in the theory of equations and in the general theory of determinants and matrices.

340. ADVANCED CALCULUS

Fall. Prerequisite: Mathematics 331 and 332, or by permission. A study of advanced integral calculus and its application in the physical sciences.

341. ELEMENTARY DIFFERENTIAL EQUATIONS

Spring. Prerequisite: Mathematics 340, or by permission. A study of elementary ordinary differential equations.

345. UNDERGRADUATE SEMINAR

Prerequisite: Special permission. An analysis of the fundamental concepts of mathematics, designed for those who intend to do graduate study. A comprehensive examination is required.

Credit will depend upon the nature of the study and the amount of work done.

ENGINEERING

A sufficient number of courses are available for the prospective engineering student to complete four full semesters of work in that field at T. C. U. The specific table of courses for students entering the various fields of engineering will be found in Table XIII, page 50.

Entrance requirements—Two units high school algebra and 1 unit plane geometry are required; ½ unit solid geometry desirable. It is desirable to have physics or chemistry. A student admitted with a condition must make it up in his first semester.

310. ENGINEERING DRAWING

Fall.-Spring.

3 semester hours. Staff.

Two four-hour laboratory and one one-hour lecture periods per week. Breakage deposit. \$5.00.

Prerequisite: One unit of plane geometry.

A basic course in Engineering Drawing. Includes care and use of drawing instruments, freehand lettering, geometric construction, orthographic projection, auxiliary views, sectional views, dimensioning, freehand sketching, pictorial drawing, tracing, and blue printing. Considerable emphasis is placed on the execution of working drawings. Required of engineering students.

311. ENGINEERING DESCRIPTIVE GEOMETRY

Fall.-Spring.

3 semester hours. Staff.

One four-hour laboratory and two one-hour lecture periods weekly. Breakage deposit, \$5.00.

Prerequisite: Drawing 310. One-half unit of solid geometry is desirable. A study of the theory of orthographic projection. Problems relating to points, lines, planes, intersections of solids, and developments of surfaces. A number of engineering applications will be taken up in the drafting room. Required of engineering students.

327. ELEMENTARY SURVEYING

Fall.-Spring.

3 semester hours. Staff.

Breakage deposit, \$5.00.

Prerequisite: Plane trigonometry.

The care and use of the tape, level, transit, and other surveying instruments. A study of the measurement of angles, elevations, land surveying and computations, use of the stadia, traversing, mapping, observations for true meridian. Two hours lecture and four hours laboratory per week.

328. ADVANCED SURVEYING

3 semester hours.

Offered if sufficient demand.

Breakage deposit, \$5.00.

Prerequisite: Elementary Surveying.

Organization of surveys, location surveys, triangulation, earth work, drainage, cross-sectioning, computating and staking out curves, engineering astronomy, photographic and aerial mapping. Two hours lecture and four hours laboratory per week.

PHILOSOPHY

324. APPLIED MECHANICS-STATICS (Phys. 324) Spring.

3 semester hours. Staff.

Prerequisite: Physics 411a and Mathematics 422ab. Mathematics 422bi may be taken concurrently.

Analysis of force systems in two and three dimensions including composition and resolution of forces, laws of equilibrium, distributed forces, moments, couples, friction, centroids, determination of external forces and internal stresses in simple frames and machine parts, moments and products of inertia. Graphical and analytical methods will be employed.

426. ELECTRICITY AND MAGNETISM (Phys. 426)

Spring.

4 semester hours. Staff.

Prerequisite: Physics 411a and Physics 411b; the latter may be taken concurrently.

Magnetic and Electric circuits, A. C. and D. C. theory, batteries, rectifiers and filters, electrical instruments, single-phase and three-phase generation and distribution, single-phase and polyphase motors, illumination, electronic devices.

MEDICAL TECHNOLOGY

MUSIC

(Bachelor of Arts Degree with a Major in Music)

The degree of Bachelor of Arts is offered with a major in theory and music literature or theory and church music. Thirty-six semester hours will be required for the major, which will consist of Music 411, 412; 214ab; 321ab; 231ab; (243ab for church music); 232ab; 336ab; and four hours of special studies either in the field of music literature or the field of church music.

Candidates for this degree must complete sophomore standing in some field of applied music (eight semester hours). Not more than 44 semester hours in music will be credited toward the minimum of 124 semester hours required for the degree.

A minor is required outside of the Department of Music for which the fields of Drama, English, Philosophy, Religion, Sociology or Speech are recommended.

The student will meet all requirements for the A. B. Degree.

This is not intended as a professional degree in music.

For a description of courses in music, see the Fine Arts section of this catalogue.

NURSING

(See Table XII on page 49, and the Harris College of Nursing section of this catalogue)

DEPARTMENT OF PHILOSOPHY

Professor Cortell K. Holsapple, Head of the Department Assistant Professor Robert E. Robertson Representatives of other Departments are Professor T. S. McCorkle and Associate Professor S. A. Wall

Requirements for a Major in Philosophy:

Major-24 hours in philosophy with the approval of the department. Minor-18 semester hours in psychology, English (24), history, modern languages, or education.

319. INTRODUCTION TO PHILOSOPHY

Fall.-Spring.

An introduction to the various fields of philosophy, with some consideration of the problems therein. The aim is to train the student in philosophical investigation and to encourage vigorous thinking.

4 semester hours.

s hours lecture and 3 hours laboratory.
 Prerequisite: Physics 411a or personal approval of instructor.
 Electricity, magnetism, light, optics, and atomic physics.
 GENERAL PHYSICS, A SURVEY COURSE 3 semester hours.

313a. GENERAL PHYSICS, A SURVEY COURSE Fall.

2 hours lecture and 3 hours laboratory.

Physics \$1\$a and \$1\$b satisfy the 6 semester hour requirement for a laboratory science, but cannot be substituted where Physics 411a and 411b are specified.*

A systematic approach to the physical sciences, drawing upon everyday experience. The scientific method leading to objective experiment and observation is emphasized. Many experiments are performed. With the principles of physics as the common foundation, such subjects as mechanics, electricity, sound, light, the solar system, the earth, and the nature of matter are studied. No previous extensive mathematical or scientific background is required of the student.

313b. GENERAL PHYSICS, A SURVEY COURSE

3 semester hours.

3 semester hours.

2 hours lecture and 3 hours laboratory.

See Physics 313a for general description of Physics 313ab.

320. PHYSICS OF MUSIC AND SPEECH

Spring.

2 hours lecture and 3 hours laboratory.

Prerequisite: Sophomore standing or personal approval of instructor. No previous physics is required.

Cathode-ray oscillograph, audio-oscillator, electric filters, Hammond organ, and chromatic stroboscope are used to find physical explanation of quality, resonance, placement, vibrato, nuance, consonance and dis-

sonance, just and tempered scales, vowel and consonant sounds; physiological and psychological aspects of the human voice, the organs of speech being treated as a musical instrument; the characteristics of the different orchestral instruments; tuning of keyboard instruments; reverberation in auditorium and its control; color harmonies and lighting.

321. PHOTOGRAPHY

3 semester hours.

4 semester hours.

Fall.

2 hours lecture and 3 hours laboratory.

Prerequisite: Sophomore standing and 6 hours of any laboratory science. No previous physics is required.

Theory and technique of photography both as an art and as a scientific and commercial tool. All photographic materials, film, printing paper, and chemicals are furnished the student, together with cameras, exposure meter, enlarger, and dark-room laboratory. Available to any student especially interested are the spectograph, x-ray, and photomicrographic apparatus.

422. GEOMETRICAL AND PHYSICAL OPTICS

Fall.

3 hours lecture and 3 hours laboratory.

Prerequisites: Physics 411a, 411b, and freshman mathematics.

Mirrors, refraction at spherical surfaces, theory of lenses, lens abberrations, image defects, thick lenses, optical instruments including telescopes, microscopes, range-finders, sextants, periscopes, sights, etc.

Wave motion, Huygen's principle, Fermat's principle, scattering and interference, diffraction, polarization, spectra, x-rays and crystal analysis.

324. APPLIED MECHANICS-STATICS (Engr. 324) 3 semester hours. *s hours lecture.* Spring. *Prerequisite*: Physics 411a and Mathematics 422ab. Mathematics 422bi

may be taken concurrently.

Analysis of force systems in two and three dimensions including composition and resolution of forces, laws of equilibrium, distributed forces, moments, couples, friction, centroids, determination of external forces and internal stresses in simple frames and machine parts, moments and products of inertia. Graphical and analytical methods will be employed.

426. ELECTRICITY AND MAGNETISM FOR ENGINEERS (Engr. 426)

4 semester hours.

Spring.

3 hours lecture and 3 hours laboratory.

Prerequisite: Physics 411a and Physics 411b which may be taken concurrently.

Magnetic and Electric Circuits, A. C. and D. C. theory, batteries, rectifiers and filters, electrical instruments, single-phase and three-phase generation and distribution, single-phase and polyphase motors, illumination, electronic devices.

127. ELEMENTARY VECTOR ANALYSIS

Fall.

1 hour lecture each week, no laboratory.

Prerequisite: Freshman mathematics.

Vector analysis is applied first to familiar spacial problems, then to mechanics and simple electric field theory.

330. ATOMIC AND NUCLEAR PHYSICS 3 hours lecture. 3 semester hours.

1 semester hour.

Spring.

Prerequisite: Physics 411ab and Mathematics 318. A general survey of contemporary physics including studies of ionization, the electron and the atomic character of electricity, cathode rays and

measurement of charge to mass ratio, variation of mass with velocity, positive rays, isotopes, the photoelectric effect, atomic models, the quantum theory, natural radioactivity, a study of modern particles such as positrons, neutrons, mesons, etc., atomic nuclei and artificial disintegration, Einstein's mass-energy relationship, and the atomic bomb.

332ai. ANALYTICAL MECHANICS AND SOUND 2 hours lecture and 3 hours laboratory.

Prerequisite: Physics 411a, 411b, and calculus. The calculus may be taken concurrently. The simpler statics and dynamics of particles, of rigid and elastic solids, and of liquids and gases; forces in structures and machines, beams, columns, and shafts; strength and elastic properties of materials; centrifugal and gyroscopic actions in engines and other machinery; vibration and resonance phenomena; production, propagation, and detection of waves in solids, liquids, and gases. Vector analysis is developed and used wherever it contributes to directness of treatment; graphic, drafting board methods are also emphasized throughout the course.

332bi. HEAT AND THERMODYNAMICS

2 hours lecture and 3 hours laboratory.

Prerequisite: Physics 411a, 411b, and calculus. The calculus may be taken concurrently.

Temperature, fuels, conservation of energy, measurements of conduction, convection, and radiation of heat; kinetic theory of gases and vapors; equations of state; internal energy, work done by gases, specific heats; general gas equation, Carnot's cycle; flow and acceleration of liquids and gases; enthalpy and entropy; elementary thermodynamics with specific applications to steam engines and turbines, steam boilers and condensers, internal combustion engines, and refrigeration; the use of steam tables and charts.

334a. RADIO AND ELECTRONICS

2 hours lecture and 3 hours laboratory.

Prerequisite: Physics 411a, 411b, and Freshman Mathematics. A broad treatment of radio communication and engineering electronics including: transmitting and receiving systems; use of tubes as rectifiers, amplifiers, oscillators, modulators, demodulators; characteristics

of diodes, triodes, and multigrid tubes and their graphical analyses.

334b. RADIO AND ELECTRONICS

2 hours lecture and 3 hours laboratory.

Prerequisite: Physics 334a or personal approval of instructor. Microphones and loud speakers. Emission and properties of electrons and their control in vacuum and gas-filled tubes; photoelectricity, television, and electron microscope tubes and circuits; industrial control circuits.

336. GEOPHYSICAL PROSPECTING 3 hours lecture.

3 semester hours.

Fall.

Prerequisite: Physics 411ab or personal approval of instructor.

A survey course in petroleum geophysical prospecting, with emphasis on current major geophysical techniques. Elements of interpretation of current major geophysical techniques. gravitational, magnetic, and seismic methods. Critical comparison of the relative reliability and practical value of the various methods. Discussion of possibilities of new methods such as soil analysis, radio-active well logging, etc.

340. THE TEACHING OF PHYSICS 3 semester hours. Two semesters. Laboratory, see description below. Prerequisite: 14 semester hours, three of which may be taken concurrently. Members of this class serve one day each week as extra demonstrators in Physics 411a and 411b and share in departmental conferences and seminars.

Prerequisite: Physics 411ab and calculus.

The fundamental theory and experiments that underlie electrical physics and engineering; electric and magnetic fields and motions of electrons and ions therein: D. C. and A. C. circuits; nonohmic circuit elements; Fourier analyses; chemical, thermal and photoelectric effects; electrical conduction in gases; thermionic vacuum tubes.

Fall

342b. ELECTRICITY AND MAGNETISM

3 semester hours.

Spring.

2 hours lecture and 3 hours laboratory.

Prerequisite: Physics 342a.

Electromagnetic effects of steady and of changing currents; magnetic properties of matter; electromagnetic machinery; coupled circuits; filters and lines; radiation.

- 050. SPECIAL PROBLEMS IN EXPERIMENTAL PHYSICS 1 to 6 semester hours. Fifty clock hours of laboratory work are required for each semester hour of credit.
- 051. SPECIAL PROBLEMS IN THEORETICAL PHYSICS 1 to 6 semester hours. Advanced work in theoretical physics to be determined by the previouspreparation and interests of the individual student.

PSYCHOLOGY

DEPARTMENT OF PSYCHOLOGY

Professors Thos. F. Richardson, Head of the Department, and C. W. LaGrone

Assistant Professors Mrs. Hazel Tucker Woodward, Mrs. Jessie C. Adams and Dan L. Anderson Instructors C. J. Firkins and V. B. Cockrell

Prescribed for all degrees: Psychology 321 or 3 s.h. Phil. Requirements for a Major in Psychology:

B. A. Major-24 semester hours in Psychology.

B. A. Minor-18 semester hours in Psychology.

M. A. Major-18 semester hours in Psychology including thesis and consisting of graduate level courses.

M.A. Minor-12 semester hours graduate level Psychology.

Although the psychology department is in the College of Arts and Sciences, students whose major work is in the other colleges of the University may also take courses in psychology.

It is the aim of the department to give sufficient training in the fundamentals of psychology to start research, to give the basic work for such practical fields as personnel work, employment management, advertising, salesmanship, medicine, social work, guidance, and to prepare for other professions based upon psychology.

311. INTRODUCTORY PSYCHOLOGY

Fall or Spring.

Mr. Richardson. Mr. Firkins. Mr. Anderson.

Mrs. Adams.

3 semester hours.

Open to Freshmen students.

Designed to give the student enough insight into psychology so that he may understand himself and others and enable him to adjust to college, to life, and to orient himself as an adult individual. Some topics to be covered are: how to study, psychology of learning, choosing a vocation, planning an education, the meaning of college life, self-appraisal, a healthy mind, a balanced emotional life, etc. This course counts as 3 hours of elective credit, but is not transferable for psychology credit on the sophomore level.

321. GENERAL PSYCHOLOGY

Fall or Spring.

3 semester hours. Mrs. Woodward. Mrs. Adams.

Mrs. Adams. Mr. Firkins. Mr. Anderson.

Open to Sophomore students.

Prerequisite or concurrent: Education 321.

The fundamentals of psychology. Prerequisite to all higher level courses and satisfies the requirement of 3 hours of psychology. Gives consideration to such concepts as perception, motivation, emotions, personality, social relations, individual difference, nervous system, response and learning.

322. CHILD PSYCHOLOGY

Fall and Spring.

3 semester hours. Mr. Anderson.

A study of the physical, mental, emotional, and social growth of the child with emphasis upon the integration of these factors into desirable personalities.

92 3 semester hours. 328. APPLIED PSYCHOLOGY Spring. Mrs. Woodward. Prerequisite: Psychology 321. Deals with the applications of psychology to education, medicine, industry, advertising, and salesmanship, and their mental laws. A further orientation course following 321. FIELDS OF PSYCHOLOGY 3 semester hours. 332. Fall. Mrs. Woodward. Prorequisite: Psychology 321. A representative sample of investigations in each of the special fields of psychology. 335. SOCIAL PSYCHOLOGY 3 semester hours. Fall. Mr. Anderson. Prerequisite: Psychology 321. A study of social groups and the psychological principles underlying their maintenance. PSYCHOLOGY OF THE ABNORMAL 3 semester hours. 336. Spring. Mr. LaGrone. Prerequisite: Psychology 321. A critical survey of the more important facts of mental derangement. Of practical value to students intending to enter any of the many types of social work. 337. MENTAL HYGIENE 3 semester hours. Mrs. Adams. Fall. Prerequisite: Psychology 321, junior standing. An approach to the problems of human adjustment in an objective manner. Psychology applied to those problems which must be faced by the lawyer, teacher, physician, salesman, and parent. Credit in this course applied both in the fields of Psychology and Education. 3 semester hours. 340. EXPERIMENTAL PSYCHOLOGY Mr. LaGrone. Spring. Prerequisite: Six semester hours in psychology and junior standing in major or minor in psychology. The methods and tools of modern experimental psychology; typical experiments on reaction tendencies, skills, perception, learning, and problem solving; techniques of setting up experiments, obtaining data, and drawing conclusions. 341. HISTORY OF PSYCHOLOGY 3 semester hours. Spring. Mrs. Woodward. Open to juniors and seniors. A brief survey of psychology from Plato to the present time. Special attention given to the antecedents of modern schools. INDUSTRIAL PSYCHOLOGY 342. 3 semester hours. Evening College. Mr. Richardson. Fall. Prerequisite: Psychology 321, or approval of instructor. A study of the applications of psychology that have been made in industry. Includes the application of psychology to employee selection, placement, reduction of accidents, improvement of merit rating, solution of visual problems, increasing accuracy of inspection, improvement of training methods, and the measurement and improvement of employee morale.

343. MENTAL TESTING

Spring.

3 semester hours.

Mr. Richardson.

A study of the historical development of mental testing with emphasis on intelligence, personality, special aptitudes. Some attention will be given to the meaning of test results and the uses of tests.

TEXAS CHRISTIAN UNIVERSITY BULLETIN

344. PSYCHOLOGY OF COUNSELING

Mr. Richardson. Prerequisite: Psychology 321, senior standing, or approval of instructor. A study of the methods of counseling most frequently used with students, industrial workers, in social welfare work, and in other types of work which have as their purpose the direction and guidance of people. Some of the topics considered are: methods of securing data, the interview, group counseling, interpretation of personal data, and arriving at the solution of the problem.

Fall.

SEMINAR IN COUNSELING 345.

Prerequisites: Junior or senior standing and the approval of the instructor.

A study of the usual counseling techniques and actual experience in giving and scoring tests and interpreting test results. This class will have two lectures or discussions per week and will spend three hours per week assisting with the actual work of the office of student personnel.

346. STATISTICAL MEASUREMENT

Fall.

3 semester hours. Mr. LaGrone.

Prerequisite: Junior or Senior standing with approval of head of department.

A development of the technical skills used in statistical research. Emphasis upon the use of the statistical method and the usual statistical measures; when and how to use a particular technique, and their use in interpreting data.

348. CLINICAL PSYCHOLOGY

> Prerequisite: Psychology 343 or 344. A survey of clinical work on the diagnosis and adjustment of problem children and adults; dynamics of adjustment and work of clinical psychologists.

Fall.

350. SYSTEMATIC PSYCHOLOGY

> Spring. Mr. LaGrone. Prerequisite: Senior or graduate standing with the approval of the head of the department. The variant tendencies in contemporary psychology with emphasis on

> differentiations of the schools of psychology.

351. CLINICAL FIELD WORK IN TESTING 3 semester hours. Fall or Spring. Mr. Richardson. Prerequisite: Psychology 343, 344, or 345 and graduate rank or approval of the head of the department. A practical course in educational, vocational, industrial and clinical

testing; includes experience in administering, scoring, and interpreting tests, and some interviewing.

352. ADVANCED PSYCHOLOGY

> Fall. Mr. LaGrone. Prerequisite: Senior or graduate rank with approval of the head of the department. Selected topics and problems in psychology studied intensively and with

emphasis on research studies. Topics to vary from year to year. 353. PSYCHOLOGY OF PERSONALITY 3 semester hours.

Mr. Richardson. Spring. Prerequisite: Senior or graduate standing with the approval of the head of the department.

Historical development of theories, points of view and definitions of personality. Programs of personality development and training.

DEPARTMENT OF RELIGION

Cecil F. Cheverton, Head of the Department Professor S. W. Hutton; Adjunct Professor L. D. Anderson Assistant Professors C. A. Burch, E. T. Cornelius, G. P. Fowler, Noel Keith, S. L. Mayne, Ruth Towne

Special Lecturer Daniel Groff

Teachers from other departments giving courses in the Department of Religion: Professor A. L. Porterfield

Associate Professor B. A. Crouch

Assistant Professors Mrs. Hazel Tucker Woodward, Eva Wall Singleton

Principles Involved in the Selection of Courses, and Requirements.

I. PRIMARY PURPOSE:

The Undergraduate Department of Religion should not be thought of merely as a preparatory school for advanced theological training. Its primary purpose is the encouragement of such an understanding and appreciation of religious values as to enrich the spiritual lives of all the students.

- II. RELATION OF MINISTERIAL AND NON-MINISTERIAL STUDENTS: Since the basic spiritual needs of ministerial and non-ministerial students are approximately the same, no distinction is made in the basic requirements for the two groups.
- III. FIELDS OF STUDY:
 - 1. Historical and Interpretive.
 - (a) Since the Bible has been generally accepted as the greatest text book for the study of religious values, all students are required, before graduation, to become acquainted with the most outstanding leaders and teachings of the Old and New Testaments.
 - (b) Since the greatest of all religious values is found in the person and principles of Jesus, opportunity is provided in several courses for a careful study of the Christian code of living and the implications of this code in meeting the problems of the present day.
 - (c) Since the church is recognized as the rallying point for the conservation and promotion of Christian values, interested students are encouraged to study the contributions that the Church and its auxiliaries have made to civilization, and the educational program necessary to increase the value of such organizations.
 - 2. Christian Leadership.

Another purpose of the Undergraduate Department of Religion is to help interested students to become more efficient in some field of Christian Service. To that end (a) courses related to such fields as Education, the Fine Arts, Teaching of Religion, and the Educational Program of the Church, are offered throughout the year; and (b) faculty supervision is provided for service projects in which students of this department are now engaged.

IV. TEACHERS IN THE DEPARTMENT OF RELIGION:

The faculty of the Department of Religion are selected on the basis of strong Christian character, thorough training in the fields in which they are to teach, and the willingness and ability to give constructive emphasis in their teaching to the "priorities" of the Christian message and the program of Christian education.

REQUIREMENTS

REQUIRED OF ALL STUDENTS FOR GRADUATION:

8 semester hours, including Religion 310 (Survey of the Bible), and one additional course selected from the following: Religion 320; 332; 333; 337; 339; 344; 350.

REQUIRED FOR A MINOR IN RELIGION:

18 semester hours, including 310; 333; and twelve additional semester hours in Religion, approved by the head of the department.

REQUIRED FOR A MAJOR IN RELIGION:

- Major: 30 semester hours, including the following courses: 310; 320; 332; 333 (or 337); 339 (or 344); and 15 additional semester hours in Religion approved by the head of the department.
- Minor: 18 semester hours selected, with approval of the head of the department of Religion, from any other department that requires only 18 semester hours for a minor, or English with 24 semester hours.

COURSES

I. HISTORY AND INTERPRETATION

310. SURVEY OF THE BIBLE

3 semester hours. Fall.-Spring. Mr. Cheverton, Mr. Burch, Mr. Cornelius, Mr. Fowler, Mr. Keith, Mr. Mayne.

Fall.-Spring. Mr. Burch, Mr. Keith.

A study of the lives and teachings of the most significant leaders in the Old and New Testaments.

320. SURVEY OF CHURCH HISTORY

Fall.-Spring.

3 semester hours. Mr. Cornelius.

Prerequisite: 310. Not a technical, detailed course in church history, but an evaluation of the major contributions that the Church has made, from the days of the Apostle Paul through the work of the modern missionary movement.

332. POETS AND PHILOSOPHERS OF THE OLD TESTAMENT Fall.-Spring. 3 semester hours. Mr. Fowler.

Prerequisite: 310. An examination of some of the best samples of the work of Old Testament psalmists, sages, and prophets.

333. LIFE AND TEACHINGS OF JESUS

Prerequisite: 310. A study of the life and teachings of Jesus, with emphasis upon the application of his basic principles to modern day problems.

337. CHRISTIAN ETHICS

Fall.-Spring.

3 semester hours. Mr. Mayne. Mr. Groff.

3 semester hours.

Prerequisite: 310.

An evaluation of the good life from the Christian point of view, with readings of the Old and New Testaments to establish ethical types.

This is a course in the work of the ministry. It provides opportunity for supervised practice in preaching and a study of methods of church work.

DEPARTMENTAL ASSOCIATIONS:

The Timothy Club is an organization of undergraduate ministerial students for fellowship, worship and the consideration of practical problems of the student ministers. All ministerial students are expected to enroll in the club. Mr. Burch is the sponsor.

Priscilla Club is an association of undergraduate Christian Service students, meeting for the purpose of fellowship, inspiration, and worship. All Christian Service girls are expected to belong to this association each semester. Miss Towne is the sponsor.

DEPARTMENT OF SOCIOLOGY

Professor Austin L. Porterfield, Head of the Department; Associate Professor Robert H. Talbert Assistant Professor C. Stanley Clifton Instructors in the Evening College Mr. Lynn Ross, Dr. Hambidge and Dr. D. A. Reekie

Requirements for a major include 24 hours in sociology, 6 hours of which must consist of Sociology 321 and 322; for a minor in sociology, 18 hours, including Sociology 321 and 322. Requirements for a minor taken with sociology as a major are 18 hours in any field except education, which is a tool subject. The exception is made because sociology does not at present constitute a teaching field in the high schools of Texas.

LOWER DIVISION COURSES

321. INTRODUCTORY SOCIOLOGY

3 semester hours. Staff.

Fall-Spring.

Open to sophomores and more advanced standings. A study of persons and groups, interacting in time and space under the influence of physical, biological, psychological, and cultural factors. The application of the fundamental sociological concepts to problems of human behavior.

322. SOCIAL AND PERSONAL ADJUSTMENT

Fall.-Spring. Prerequisite: Sociology 321 or its equivalent.

3 semester hours. Mr. Porterfield.

Attention will be given to problems of social and personal adjustment in all the relations of life: family, property, community, industry, race, class, caste, nation, and the community of nations.

UPPER DIVISION COURSES

330. MARRIAGE AND THE FAMILY

Fall.-Spring.

3 semester hours. Mr. Porterfield.

Prerequisite: Sociology 321 and 3 additional hours in either sociology or psychology. Open to all of senior standing.

The social psychology of courtship, marriage, and family relations; the social significance of the family; its origin and development; the family in transition; its organization and disorganization; roads to adjustment

331. CRIMINOLOGY

Spring.

Prerequisite: Six hours of sociology or its equivalent, or senior standing as a candidate for a degree in Texas Christian University.

This course considers the nature of criminal personality and the factors in its making, treatment, and prevention.

332. INTRODUCTORY ANTHROPOLOGY

Fall.

3 semester hours. Mr. Talbert.

3 semester hours.

Staff.

Prerequisite: Six hours of biology or geology.

An introduction to general anthropology, which emphasizes man's place in nature and the racial characteristics and the culture of prehistoric man, and attempts to develop a sound theory of history based upon a knowledge of the factors in the making of man and his culture.

333. SOCIAL CONTROL

Spring.

3 semester hours. Mr. Porterfield.

Prerequisite: Six hours in sociology or twelve hours in any combination of the social sciences above 312ab.

A study of the social psychology of publics and of public behavior, giving much attention to the means of molding the public mind; the problem of controlling pressure groups in the interest of the common welfare.

DIVISION OF SOCIAL WORK

The Division of Social Work remains at present a part of the Department of Sociology, but the course numbers are separate. For example, the first course given below is Social Work 330. The field of social work is concerned with the solution of personal and social problems. Organized social work is carried on through a wide variety of public and private agencies. The field is expanding rapidly and it offers a challenge to anyone who is interested in people and their problems, and who wants to help in the solution of those problems on the basis of an understanding of human behavior and the use of tools and carefully developed techniques and skills.

Education for this profession begins on the undergraduate level and prepares the student for beginning positions in social work or for subsequent postgraduate work. A broad background of courses in the social sciences, psychology, and psychiatry is considered essential. Twelve hours in sociology and psychology combined are prerequisite to beginning in this Division.

THE THEOLOGICAL SEMINARY

The Brite College of the Bible is a "theological seminary" and one of the constituent colleges of Texas Christian University. It has its own charter and Board of Trustees, and its own building on the campus of the University. The college was chartered and its building erected in 1914, made possible by the funding of Mr. and Mrs. L. C. Brite of Marfa, Texas.

It offers a three-year curriculum which requires a Bachelor's degree for entrance, and leads to the degree of Bachelor of Divinity. Its courses may be used by ministers' wives toward a Master of Arts degree granted by the University. Full information is provided in its separate catalogue, which will be sent, on request, by the Registrar of T. C. U.

Brite College of the Bible is a member of the American Association of Theological Schools and is accredited by it.

THE UNDERGRADUATE MINISTERIAL STUDENT

The prospective minister who has not yet received a Bachelor's degree should follow, in general, the "Pre-Ministerial" course suggested in Table XIV on page 50. The Chairman of the Department of Religion and the Dean of the AddRan College of Arts and Sciences will advise and counsel with him.

By the time a student has met the requirements for the B. A. degree, including its "required subjects" and its major and minor, he will have fulfilled the minimum requirements for entrance into Brite College of the Bible, except that he should be sure to have 18 semester hours of work in Religion. This should include Religion 310, 320, 332, 334 (or 350). He may minor or major in Religion, but that is not necessary, since he will concentrate in this field in the Seminary. It would be wise to choose Greek as his Foreign Language.

The student who comes to Texas Christian University to prepare for the ministry has some class in Religion each year, beginning with the Freshman year. He comes into personal association at once with the teachers of Religion and a well organized group of ministerial students, both upper and lower classmen. His program includes participation in the Brite College Chapel, the B. C. B. Association, the Timothy Club, and the social life of the ministerial group. Thus his atmosphere is conducive to spiritual growth. He lives in the boys' dormitory with all the boys of the University group, thus associating as a normal boy in a normal world.

SCHOLARSHIPS FOR MINISTERIAL STUDENTS

Some friends and some churches interested in the education of the Christian Ministry in Texas Christian University have funded a limited number of scholarships to be awarded to qualified ministerial students. See the list and amounts of scholarships on page 25.

Application for scholarships should be made to the Dean of the Add-Ran College of Arts and Sciences. They will be assigned to students who meet the qualifications, to the extent that scholarship funds are available.

Friends are invited to add to the list of the scholarships. More are needed than are now available.

Young women: A few Christian Service scholarships are available for women who show good qualities of leadership, and who are properly recommended by the home church, to train for Religious Education service.

Married ministerial students are eligible to rent in the furnished apartments at from \$20 to \$25 a month. Other apartments, at a slightly higher rate are available also. Single students may live in a dormitory; the men in Goode, Tom Brown, or Clark Halls, the women in Foster, Waits, or Jarvis Halls.

Each student is due to enter into the organizational life of the group, by attending the B. C. B., the Chapel, and such other meetings as fit his rank.

Preaching Appointments must all be made through the office of Mr. Patrick Henry, Student Counselor. The time when a student may begin preaching varies with maturity and experience but usually not before the senior year or at least the junior.

PROGRAM AND FACILITIES OF THE SCHOOL

Education for business at the university level developed in response to a need comparable with that which created other types of collegiate professional training. Until a comparatively short time ago, training for business consisted of practical experience and quasi-apprenticeship. However, just as reading law in the office of an attorney proved uneconomical as preparation for the bar, so have these methods come to be regarded as wasteful in the training of young men and young women for business careers.

In consideration of this educational trend, the School of Business of Texas Christian University offers a program of study for the primary purpose of developing individuals capable of directing and conducting business and economic affairs in a rather complex society. The School undertakes to combine its instruction in such a manner as to qualify its students for beginning useful careers at graduation and, at the same time, to instill a command of fundamentals upon which they may build for subsequent advancement to positions of responsibility.

The School, in endeavoring to attain these objectives, suggests a unified program of basic studies—English, mathematics, government, accounting, economics, finance, marketing, business law, and statistics—and a relatively specialized concentration in certain branches of business endeavor—accounting, business education, economics, general business, and secretarial science.

ADMISSION REQUIREMENTS

The admission requirements to the School of Business are the same as for the College of Arts and Sciences. These requirements are as follows:

Graduation from an accredited high school with fifteen accredited units, including: English 3, History 2, Mathematics 2, and Science 1, units.

BACHELOR OF SCIENCE IN COMMERCE DEGREE

The School of Business offers curricula leading to the Bachelor of Science in Commerce degree. The program of study for the first two years of college work is almost entirely prescribed. At the beginning of the third year, the student, with the assistance of the Dean of the School of Business, will select a major course of specialization from the following fields of endeavor: accounting, business administration, business education, economics, finance, management, and secretarial science.

Upon the satisfactory completion of the chosen curriculum, including the general University requirements for the bachelor's degree and a minimum of one hundred twenty semester hours of college credit, the Bachelor of Science in Commerce degree will be conferred by Texas Christian University.

In order to facilitate the student's selection of a field of educational endeavor and to assist him in planning a program of study for each semester, curricula have been prepared for the respective divisions of the School of Business. These curricula contain the required courses as offered by both the College of Arts and Sciences and the School of Business.

THE EVENING COLLEGE

A broad curriculum in business is offered by the Evening College which is a distinct administrative unit of the University, yet closely identified with the School of Business. Evening College courses in business are announced below under "Courses of Instruction." For complete course descriptions and schedules, the separate Evening College catalogue should be consulted. Evening College courses are on full residence credit basis and acceptable toward the several degrees. They include many specialized and practical courses, thus providing an opportunity for specialized preparation for the line of business the student intends to enter.

In addition to the courses leading to the Bachelor of Science in Commerce degree, the Evening College provides curricula leading to Certificates in Accounting, General Business, and Secretarial Science. These curricula cover two years of college work, which may be completed in approximately four years by attending class on a part-time basis. They include the essential business and related courses, and a limited choice of electives.

CERTIFIED PUBLIC ACCOUNTANT CURRICULUM

The School of Business undertakes to offer fundamental training in accounting, auditing, commercial law, and related courses for those students who desire to prepare for the professional examination in accounting. This examination is provided for by law and is administered to candidates, who satisfy the educational and experience requirements, by the State Board of Public Accountancy.

CHARTERED LIFE UNDERWRITER CURRICULUM

Texas Christian University is one of the cooperating institutions designated by the American College of Life Underwriters to prepare students to sit for the C. L. U. examinations. The curriculum for business administration provides most of the courses covered by the curriculum of the American College of Life Underwriters. A major or minor in insurance may be arranged in addition to the other majors and minors provided by the School of Business.

EMPLOYMENT BUREAU AND BUSINESS CONTACTS

The School of Business maintains an Employment Bureau which has been highly successful in providing part-time work for students, and full-time employment with leading local and national concerns for graduates.

Every effort is made to maintain close and friendly relations with Fort Worth business interests. Frequent trips are made to the leading industrial and commercial enterprises, and Fort Worth business leaders give frequent lectures in the various classes.

T. C. U. CHAMBER OF COMMERCE

The T. C. U. Chamber of Commerce is the official student body organization of the School of Business. It seeks to do for T. C. U. what Chamber of Commerce organizations do for their communities. At the same time it acquaints the student with the activities of Junior and Senior Chambers of Commerce and provides preparation for future civic responsibility and usefulness.

The T. C. U. Chamber of Commerce is affiliated with the National Intercollegiate Chamber of Commerce, thus giving its members the opportunity of exchanging ideas with members of similar organizations in other universities. The T. C. U. Chamber is also endorsed by, and cooperates with, the Fort Worth Junior Chamber of Commerce and the Fort Worth Chamber of Commerce.

Among the activities of the T. C. U. Chamber of Commerce are the following: cooperation with the Employment Bureau in obtaining part-time work for students enrolled in the School of Business and full-time employment for graduates, supervision over certain social activities of the School of Business organizations, and, in general, participation in activities contributing to the improvement of Texas Christian University.

COLLEGIATE BUSINESS AND PROFESSIONAL WOMEN'S CLUB

In 1940, students in the Secretarial Science division organized the Collegiate Business and Professional Women's Club. Membership is open to women students majoring in the School of Business. The purpose of the organization is to provide a medium for the mutual exchange of ideas, to become familiar with the program and activities of the Business and Professional Women's Club, and to prepare for future civic responsibility by an active program in the University and cooperation with the Fort Worth Business and Professional Women's Club.

For Three Years of College Work (90 semester hours) including 18 semester hours in education, 12 of which are in field of secondary education, six of which must be Education 341 and 342, there will be issued a first class high school certificate valid for six years.

For Four Years of College Work, i. e., graduation, including 24 semester hours in education (selected on advice of department) may be issued a *permanent* high school certificate. For the degree, with twelve semester hours in education, six of which must be in the secondary field, and three years of successful teaching a *permanent* certificate may be had. A permanent elementary certificate may be had by adding five years' experience to the six-year elementary certificate; and each additional year of college work will substitute for a year's experience. Further details may be had on application.

Elementary education majors who desire the permanent high school certificate are required to obtain *eight* semester hours in *secondary education* including *two* semester hours in *practice teaching*. Practice teaching should be done in the elementary school. Elect 341, and two other secondary education courses.

The State Superintendent of Schools has ruled that a minimum of twelve (12) semester hours in elementary education is required to teach in the elementary school.

Special Certificates to teach the special subjects of home economics, commercial subjects, public school art, public speaking (expression), physical training, public school music; or foreign languages, will be granted by the State Department of Education to the student who has met the college entrance requirements, and has completed the subjects required by law. A three years' special certificate, good to teach in any public school in Texas, requires 60 semester hours, which must include 6 in English, 6 in education, 6 in the special subject, and 2 in methods of teaching the special subject, and 6 in American government. A four-year special certificate requires 90 semester hours, including 18 in the special subject, 6 in English, and 6 in education, and Government 321, or any other six semester hours in American Government.

PHYSICAL EDUCATION-REQUIRED

Degree courses and certificate requirements for teaching physical education are to be found in the section immediately following.

Requirements in Physical Education for Men and Women

Credit for four semesters in physical education "P. T." classes is required for graduation. Students are expected to complete the requirement during the first four semesters, and are advised to continue physical training as a good health measure as long as they are in the University.

For each semester in which the physical education requirement is failed or omitted, one semester hour of college credit will be subtracted from the permanent record of the student, as a penalty, but in any case two years will be required for graduation. (In practice, each 15 semester hours, as earned, will be considered a semester.)

FOR MEN

The activity program for the first year classes will include such sports as tag football, speedball, basket ball, track, baseball, and swimming. All men unable to show proficiency in swimming are required to take swimming one semester.

Sophomores, juniors and seniors may choose their courses from the following list: tennis, volleyball, golf, advanced swimming and life saving, boxing, handball, team sports.

A modified program of activities will be provided for those who are not able to take the regular class work.

Intramural Athletics. The purpose of this branch of the physical education department is to encourage the men of the student body to participate in organized athletic sports and in wholesome, active recreation. A wide variety of sports is offered. One semester credit is given in physical education for 250 "participation points" in intramural athletics. Full information in regard to the intramural program is given in the Handbook of Intramural Activities.

Credit: One Semester hour each semester.

Freshmen and Sophomore men may elect courses from the following:

P.E. 110m Football.

P.E. 111m Track and Cross Country.

P.E. 112m Beginners' Swimming.

- P.E. 112b Advanced Swimming and Life Saving.
- P.E. 113m Team Sports.
- P.E. 114m Basketball.
- P.E. 115m Baseball.
- P.E. 116m Tennis.
- P.E. 117m Fencing.
- P.E. 118m Golf.

FOR WOMEN

Women will report to physical education instructors at the time of registration for enrollment in required physical education classes. A variety of courses is offered, including a modified program of activities provided for all who are not able to take the regular class work.

Gymnasium clothing should not be purchased until advised by the instructors.

Health examinations will be given to all first year women to help determine the type of activity best suited to their needs.

THE WOMAN'S SPORTS ASSOCIATION sponsors the intramural program. It is the purpose of this organization to encourage interest in sports and related activities among the women students. A wide variety of activities gives opportunity not only to participate in competition but also to learn new sports. Membership is open to any interested woman student and participation is purely voluntary

Students who have completed satisfactorily one activity may not sign up for the same activity a second time, with the exception of Supervised Rest and Restricted Activities.

CREDIT: ONE SEMESTER HOUR EACH SEMESTER

110-111. FOUNDATION COURSE FOR FRESHMEN

This course is designed to give an over-all view of the activities found in the Physical Education Department, to provide an opportunity to study the basic techniques, and to participate in these activities. This course is required of all Freshmen.

Advisory Committee

A committee consisting of representatives of some thirty-odd civic organizations in Fort Worth serves in an advisory capacity. Their names and affiliations appear in the Evening College catalogue.

The Evening College was organized in 1936 as a distinct administrative unit of the University; in 1943 this organization was made permanent, and the internal affairs made more closely parallel to other colleges. The purpose of the organization as stated in the beginning was "the extension of the facilities of T. C. U. into the evening hours . . . in order to make university education available to those unable to attend classes in the daytime at T. C. U."

The curriculum offered is based upon a careful selection of the required and popular courses in the various arts and sciences. They range from freshman through graduate levels, thus making it possible for any person to begin, continue, or complete work for the various degrees offered by the University. Credit thus earned is on a full residence credit basis.

In addition to these courses that are applicable on degrees, the Evening College offers work of a more specialized or technical nature to meet the needs of various professional or vocational groups. Whether these courses carry academic credit or not depends upon the nature of each. They are, however, offered only as adequate facilities and instructional staff are available to assure that the work is of the highest possible quality.

The University's work in aviation and part of the training of nurses are channeled through the Evening College; adaptions have been made to meet shifting needs.

For the separate Evening College catalogue or further information address the Dean of the College.

PURPOSE

The School of Fine Arts has three basic objectives. First, it seeks to serve the campus at large through courses offered for general elective credit or for a major or a minor on the A. B. degree, and by means of programs, plays, and exhibits which enhance the cultural atmosphere of the campus.

** Resigned February 1, 1948.

Second, the School offers professional training in various aspects of art, drama, music, radio, and speech.

Third, the faculty and the student talent of the School are made available in so far as possible for service in the community and throughout the state.

DEGREES

Curricula of the School of Fine Arts are so designed as to offer in each department both cultural and professional training.

In Art, Music, or Speech-drama a major or a minor in the Bachelor of Arts degree may be taken through the AddRan College of Arts and Sciences. This is regarded as non-professional training. Elective courses are also available, without regard to either a major or a minor.

Professional degrees are the Bachelor of Music, with a major in applied music (performance), theory, music literature, or music education; and the Bachelor of Fine Arts with a major in painting, commercial art, art education, drama, radio, or speech.

Other areas in which an opportunity is provided for concentration are Church music, ceramics, weaving, design, interior decoration, stage craft, including lighting and costume, speech correction, speech interpretation and forensics.

The degrees of Master of Fine Arts and Master of Arts in Art or Speech-Drama and Master of Music are also offered (see Graduate Degrees under each department).

Entrance requirements to the School of Fine Arts are the same as those specified for the University at large (see page 40), with the addition that students wishing to major in any of the departments must satisfy the faculty of that department with respect to necessary preparatory work.

STUDENT ADVISORY COUNCIL TO THE SCHOOL OF FINE ARTS

The personnel of the Student Advisory Council to the School of Fine Arts consists of the officers of the several organizations in art, music, and speech-drama, together with a representative at large from the undergraduate student body of each department, and a graduate representative from each department. The council meets weekly with the Dean for the purpose of discussing problems and projects related to a closer correlation of the work in Fine Arts and to the continuous effective expansion of the program.

DEPARTMENT OF ART

ORGANIZATIONS AND EXHIBITIONS

The Brushes. "The Brushes" is an art club which is affiliated with the American Federation of Art. It has for its object the furtherance of the art interests of the University. The School of Fine Arts is also a member of the College Art Association of America.

Art Galleries and Exhibitions. There will be an exhibition of student work at the close of each semester. The final exhibition, held during the last two weeks of the school year, will contain selected work from all the work done throughout the year. Original work by the instructors will be shown, from time to time. Outside exhibitions will be brought in frequently as an educational feature.

The art gallery of the Fort Worth Art Association contains a permanent collection of American paintings.

It also presents special exhibitions of the best work by contemporary painters of America held throughout the year. An exhibition by painters of the Southwest, one by Texas artists, and a Fort Worth show, together with exhibitions by individual nationally known painters form the major art activities. Each year artists of national reputation visit Fort Worth and lecture upon current art subjects, thus creating a stimulating art atmosphere.

Art Library. The art library contains many books, magazines, and reproductions. It is planned as a reference library, and attention has been given to the selection of books of cultural value together with technical handbooks, biographies, history, and general art books.

DEGREES

The degree of Bachelor of Fine Arts is offered for professional training. The major may be Painting, Commercial Art (Advertising or Illustration), or Art Education. A minimum of 130 semester hours, including the requirements in Physical Education, will be required for this degree, 60 hours of which must be taken outside the department of Art. Of the 66 semester hours required in Art, a minimum of 30 must be at the junior-senior level.

A major in Art on the Bachelor of Arts degree is offered with the area of concentration in Painting, Crafts, Interior Decoration, or Design. Thirty semester hours in Art are required for a major, 12 of which must be at the junior-senior level. This is not intended as a professional degree in art.

A minor in Art, to consist of 18 semester hours of courses prescribed from one of the major areas of concentration, will be offered upon request and with the consent of the department in which the student is majoring. Six semester-hours of the minor subjects in Art must be at the junior-senior level.

The degree of Master of Fine Arts is offered with a major in Painting, Advertising Art, Commercial Illustration, or Art Education. The prerequisite for this degree is the Bachelor of Fine Arts degree or its equivalent. The Master of Arts degree, with a major in Art, may be arranged for students who otherwise qualify but who do not have sufficient under-graduate semester hours in Art for the Master of Fine Arts. Either degree requires 30 semester hours at the Graduate level, including a thesis, and the program will be administered by and subject to the rules of the Graduate School.

(1) Candidates for a major in Art on the Bachelor of Arts degree will take Art 312ab and 318ab.

(2) When the area of concentration is Painting, additional courses for a major in Art will consist of Art 322ab, 332ab, and 6 additional hours as prescribed.

(3) When the area of concentration is Crafts, additional courses for a major in Art will consist of Art 313ab, 333, 343, and 6 additional hours as prescribed.

(4) When the area of concentration is Interior Decoration, additional courses for a major in Art will consist of Art 329ab and 339ab, and 6 additional hours as prescribed.

(5) When the area of concentration is Design, additional courses for a major in Art will consist of Art 334ab and 344ab, and 6 additional hours as prescribed.

Philosophy 340 is a required elective for all majors in Art.

(6) Candidates for the degree of Bachelor of Fine Arts in Art will take Art 310ab, 312ab, and 318ab, 314 ab, and 330ab or 346 and 348.

(7) In addition, various majors will consist of the following courses: PAINTING—Art 322ab, 332ab, 338ab, 342ab, 344ab, 349ab, and electives as prescribed.

COMMERCIAL ART (the emphasis may be on Advertising or on Illustration, or a combination of the two)—Art 327ab, 336ab, 337ab, 345ab, 347ab, 338ab or 349ab, and electives as prescribed.

ART EDUCATION—Art 313ab, 331ab, 336ab, 333, 343, 341ab, and electives as prescribed.

(Note: For a description of content of the above numbered courses, see COURSES OF STUDY IN ART, on the following pages).

The following academic courses are prescribed for the degree of (8) Bachelor of Fine Arts: English, 12 semester hours; Social Science, 6; Science 6; Psychology, 3; Religion, 6; Philosophy 340, 3; foreign language, 6 (at the sophomore level); additional academic electives to a total of 60 semester hours.

ART LABORATORY FEES

The laboratory fee designated for each art course is designed to cover certain overhead items such as the use of a model, where required, the use of drawing boards, easels, and other permanent equipment for each in-dividual student. In addition a certain amount of expendable supplies will be issued to the student.

Certain equipment and supplies other than that covered by the laboratory fee will be needed by each student, the amount varying somewhat according to the ability of the student and the nature of the projects. These additional amounts required of all students are to be furnished by the student. Such supplies and equipment will be designated and assigned by the instructor for purchase.

Certain fundamental pieces of equipment must be supplied by the student. In all painting courses a paint box is required (about \$10.00); in commercial art courses a set of drawing instruments is required (about \$25.00); in art education and crafts a set of tools, such as block-printing tools, rulers, scissors, etc., (about \$10.00) is required.

RATES OF ART TUITION

Art courses 312a or b, 317a or b, 322a or b, 327a or b, 332a or b, 337a or b, 342a or b, 347a or b:

1. Students taking one of the above courses without any other enrollment, total tuition charge, \$75.00 for each 6 s. h. (Note: Regularly enrolled degree students who may, for some legitimate reason, have to take a light load in any given semester, will pay regular catalogue prices on approval of the head of the department.)

2.	Part time:	
	% time	\$37 50
	½ time	30.00
	1/3 time	18.75
3.	Juvenile class	
4	Tabardan Carlo III	ALTICLASIACI

 Laboratory fees for graduate courses are on a six hour basis. If the student takes only half of the course at a time, then the fee for each half is \$10.00.

DEPARTMENT OF MUSIC

Texas Christian University is an Associate member of the National Association of Schools of Music, and a member of the Texas Association of Music Schools.

For admission to a degree course in music students must pass a preliminary examination in theory and in performance. For details see requirements under each of these subjects.

The degrees of Bachelor of Music and Bachelor of Music Education are offered for professional training. A minimum of 132 semester hours is required for these degrees, including courses in physical education. Specific courses outside the Department of Music are required as indicated under the outline of courses for a degree. On a non-professional basis a major in music is available on the Bachelor of Arts degree.

The degree of Master of Music is offered with a major in Music Education, Music Literature, or Theory. In certain cases some graduate credit may be earned in Applied Music. Entrance to such a course of study will be by audition only, and credit will be granted on a basis of achievement only. The work must include a graduate recital of specific content.

MUSICAL ORGANIZATIONS

The University Symphony Orchestra, the Choral Club, and the Horned Frog and Symphonic Band offer students an opportunity for wide experience in the performance of the best ensemble literature. There is also a stage band which plays symphonic swing music as arranged by students interested in this field.

Numerous smaller instrumental and choral groups are maintained. Each of these organizations is conducted by a member of the music faculty. In ad-

dition to the frequent programs of these organizations and the regular student recitals, an Annual Music Festival is held each December.

Outstanding students are given the opportunity to appear as soloists with the University Symphony Orchestra. As a part of the symphony orchestra, the Symphonic Strings carry on an active program.

Several partial scholarships are available in Applied Music, Chorus, Orchestra, and Band. Such scholarships are awarded on a basis of need, ability, and scholarship. For further details consult the Dean of the School of Fine Arts.

OUTLINE OF COURSES FOR A DEGREE

The degree of Bachelor of Music may be taken with a major in performance, in music literature, or in theory. In performance the candidate must attain a level of competent artistry. In music literature adequate preparation must be made for subsequent potential research at the graduate level. In theory some evidence of ability to compose must be demonstrated.

For a major in performance any instrument or voice may be elected, provided the student qualifies. Admission to candidacy will be on the basis of an audition, and subsequent faculty approval will be necessary at the end of the sophomore year.

THE DEGREE OF BACHELOR OF MUSIC, WITH VARIOUS MAJOR FIELDS

(1) If the major is performance in piano, violin, violoncello, or organ, 32 semester hours of applied music will be required, as described under Applied Music courses numbered 411, 412; 421, 422; 431, 432; 441, 442.

(2) If the major is viola or any wind instrument, or voice, the applied music requirements are 24 semester hours, consisting of courses 211, 212; 221, 222; 431, 432; 441, 442 in the subject elected as described under courses in Applied Music.

(3) Majors in performance other than piano or organ must meet minimum requirements in piano as described under Piano 400. Majors in music literature or theory must also meet this minimum piano requirement.

(4) All candidates for the Bachelor of Music degree must take the following courses in theory and music literature, a description of which may be found under the divisions of theory and music literature according to the numbers listed: Theory—Music 411, 412; 321ab; 222ab; 231ab 232ab; 341ab. Music literature—Music 214ab; 336ab; and additional prescribed courses in music literature of from 3 to 12 hours, depending upon the nature of the major. These will consist of such subjects as Chamber Music, Symphonic Literature, Choral Literature, Operatic Literature, and others listed in the department. The courses in Applied Music Pedagogy will be required of all majors in that field.

(5) Majors in theory, in adition to the above listed theory courses and Music 214ab and 336ab in music literature, will take additional prescribed theory courses in composition, orchestration, and double counterpoint-canon and fugue, and at least one music literature course in the field of specialization.

(6) Majors in music literature will take German 311ab and 321ab, and must acquire a reading knowledge of French. Majors in theory will take either German or French.

(7) Majors in voice will take French and German, 311ab and 321ab for one and 311ab for the other; also Italian diction.

(Note: If the student has had high school French or German, then only 321ab need be taken. However, if there has been no high school preparation then both 311ab and 321ab are required, although the credit gained in 311ab cannot be counted toward the minimum semester hour requirement for the degree).

(8) The following academic subjects, in addition to language as prescribed, will be taken by all candidates for the degree of Bachelor of Music: English, 12 semester hours; Social Science, 6; Psychology, 3; Religion, 6; Physical Theory of Music, 3; Philosophy 340, 3.

THE DEGREE OF BACHELOR OF MUSIC EDUCATION

The degree is planned to meet the requirement for a permanent certificate as outlined by the Texas State Department of Education. Students from other states will be responsible for presenting and fulfilling the requirements of their respective states. A minimum of 132 semester hours is required for the degree. The purpose of this degree is to prepare students on a high professional plane to teach music in the public schools, while at the same time there is provided intensive training in theory, an insight into music literature, and competent performance ability in at least one field.

MUSIC

OUTLINE OF COURSES

(A description of course content may be found under the number listed for each department)

(1) Applied music in some one instrument in which the student can gualify, or in voice will be taken throughout the four years.

(2) The equivalent of Piano 400 and Voice 401 must be met by all students.

(3) Courses in theory: Music 411, 412, 321ab, 222ab; 231ab; 233ab; 341ab.

(4) Courses in music literature: Music 214ab, 336ab.

(7) Courses in Ensemble as prescribed: Music 122, 123, 124, 125.

(Note: The courses by years will be in conformance with the pattern outlined for the Bachelor of Music degree, above, with the courses in Music Education substituted for certain other requirements throughout the four years).

Students who follow this degree plan will receive a permanent certificate.

Students who wish to do grade teaching, carrying all subjects, grades one through six, will be entitled to a six-year elementary certificate provided the prescribed Education courses are taken in the elementary field. After six years of continuous service this temporary certificate may be converted into a permanent certificate.

Students who wish to prepare to teach some other subject in the high school in addition to music must take eighteen semester hours of work in the field in which they wish to teach. This will require an extra semester or at least an extra summer term session of twelve weeks.

BACHELOR OF ARTS DEGREE WITH A MAJOR IN MUSIC

The degree of Bachelor of Arts is offered through the College of Arts and Sciences with a major in theory and music literature or theory and church music. Thirty-six semester hours will be required for the major, which will consist of Music 411, 412; 214ab; 321ab; 231ab; (243ab for church music); 232ab; 336ab; and four hours of special studies either in the field of music literature or the field of church music.

Candidates for this degree must complete sophomore standing in some field of applied music (eight semester hours). Not more than 44 semester hours in music will be credited toward the minimum of 124 semester hours required for the degree.

A minor is required outside of the Department of Music for which the fields of Drama, English, Philosophy, Religion, Sociology or Speech are recommended.

The student will meet all requirements for the A. B. Degree.

This is not intended as a professional degree in music.

COURSES OF STUDY

Applied Music (Class Lessons)

Credit will be granted for certain courses in applied music when taken in class, to meet minimum requirements only. PIANO 400. 4 semester hours.

Fall.-Spring. Miss Coupland. Designed to meet the minimum requirements in piano for violin, voice, instrumental, and music education majors. Credit granted on the basis of achievement only. The course may be repeated once, but if requirements are not then met, the work must be completed in private lessons at a special fee. To be given credit the student must perform satisfactorily such music as the Czerny Velocity Studies, Opus 299, and pieces corresponding in difficulty to Mendelssohn's Songs Without Words, together with accompaniments of medium difficulty. Two class hours, to be arranged, and six practice hours per week. (Failure to meet the practice requirements will automatically drop the student from the course.)

VOICE 401.

4 semester hours.

4 semester hours.

Staff.

Fall.-Spring Mr. Brigham, Mr. Faguy-Cote.

Designed to meet the minimum requirements in voice for Music Education majors. Subject to the same conditions and regulations as Piano 400. To receive credit the student must pass a satisfactory examination evincing proper tone production and breath control, together with the correct singing of vocalise and songs of medium difficulty. Two class hours, to be arranged, and six practice hours per week. (Failure to meet the practice requirements will automatically drop the student from the course.)

STRINGS 402. INSTRUMENTAL TECHNIQUE

Fall.-Spring.

Designed to meet the minimum requirements in string instruments for Music Education majors. Credit will depend upon the ability to play music of advanced preparatory difficulty on one instrument, and basic performance ability on the other instruments. The course will include some arranging and conducting. Subject to the same conditions and regulations as Piano 400.

WOODWIND AND BRASS 403. INSTRUMENTAL TECHNIQUE 4 semester hours. Fall.-Spring. Staff.

Designed to meet the minimum requirements in woodwind instruments for Music Education majors, and subject to the same conditions and regulations as Strings 402, and Piano 400. The course will include some arranging and conducting.

PERCUSSION 204. INSTRUMENTAL TECHNIQUE Fall.-Spring. 2 semester hours. Staff.

Designed to meet the minimum requirements in these instruments for Music Education majors, and subject to the same conditions and regulations as Strings 402 and Piano 400.

APPLIED MUSIC G. C. Offered in any field of applied music on an elective basis to meet special student needs. This course is designed to provide elective credit in the applied study of music literature in cases where performance ability is not sufficiently high to warrant credit at the college level in a specific field of performance. Majors in music education who desire to do so may use this as an elective for meeting minimum requirements in certain aspects of applied music. Not available for credit on any music degree, except to apply on the minimum requirements under the "400" courses described above. Two half-hour lessons and six hours practice per week. Each semester. Two semester hours.

APPLIED MUSIC (PRIVATE LESSONS)

At the close of each semester a jury examination is held for all students in applied music. At the end of the sophomore year this examination will determine not only the question of a grade, but also whether the student will be admitted to junior standing in applied music. At the end of the junior year the examination will embrace full technical coverage as well as repertoire. The Junior recital will determine admission to senior standing for applied music majors; the examination will determine this for applied music minors. The individual senior recital will determine graduation as an applied music major, while a joint recital in the senior year will determine minor designation for an applied music minor.

Elective credit in applied music will not be permitted to exceed a total of eight semester hours unless the student shall also elect music 411, 412, and 214ab. MUSIC MAJORS will not be permitted to drop other subjects and continue applied music study only on a credit basis.

PIANO (MAJOR OR MINOR)

09. PREPARATORY PIANO. A study of materials and techniques necessary for admittance to Freshman Piano 411 and 211. Non-Credit.

DEPARTMENT OF SPEECH-DRAMA

The offerings and activities of this department are designed to serve three main groups of students: 1. Those majoring in other fields who take Speech-Drama work to cultivate certain leadership potentialities or for general personal and cultural development; 2. Those majoring or minoring in Speech-Drama who wish to teach or to develop their effectiveness in professions in which speech or drama is an important tool; 3. Those working toward the degrees of Bachelor or Master of Fine Arts in Speech-Drama and who wish to enter a profession directly based upon or including one or more of the Speech-Drama areas.

DEGREES

MAJOR. A major in Speech-Drama may be taken on the Bachelor of Arts Degree offered by the College of Arts and Sciences. Such a major will require 30 semester hours of Speech-Drama.

MINOR. A minor in Speech-Drama, to consist of 18 semester hours of courses prescribed from the major field, will be offered upon request and with the consent of the department in which the student is majoring.

BACHELOR OF FINE ARTS IN SPEECH-DRAMA. This degree is offered for broad professional training and requires a minimum of 126 semester hours (exclusive of the hours required in physical education), 60 of which must be taken outside the department of Speech-Drama. Candidates for this degree will concentrate their work in one of the following areas and carry approved sequences in two others: (1) Public Speaking, (2) Oral Interpretation, (3) Drama, (4) Radio, (5) Speech Pathology and Correction.

BACHELOR OF FINE ARTS IN DRAMA. This degree is offered for those selected students who plan careers in the professional or community theatre. This degree requires a minimum of 126 semester hours (exclusive of the hours required in physical education), 60 hours of which must be taken outside the department of Speech-Drama. Candidates for this degree will concentrate their work in the area of Drama.

MASTER OF FINE ARTS. The degree of Master of Fine Arts in Speech-Drama is offered for those students who show high promise of leadership in the field and who demonstrate a marked degree of artistic achievement. The prerequisite for this degree is the Bachelor of Fine Arts or its equivalent. A minimum of 30 semester hours at the graduate level, including a thesis, is required for this degree, which is administered by and subject to the rules of the Graduate School. The degree of Master of Arts with a major in Speech-Drama is offered for students who have an undergraduate major, or equivalent, in Speech or Drama.

ORGANIZATIONS, PRODUCTIONS, AND SPECIAL FACILITIES

The Fallis Players; Alpha Psi Omega, an honorary fraternity in dramatics; the Radio Workship; and Pi Kappa Delta, an honorary fraternity in debating, are active student organizations in the department of Speech-Drama. Major students concentrating in drama are expected to qualify for membership in the Fallis Players, and to participate in various capacities in the productions consisting of three main and two studio performances each semester. Attendance at laboratory or studio performances and a certain number of rehearsals of official department productions is considered a part of the required assignments for all drama courses, and students in all drama classes are required to participate in productions as assigned. Similarly, majors concentrating in radio or public speaking are expected to qualify for and to participate in the Radio Workshop or in organized forensics. An active intercollegiate forensics program is carried on, and both the classes in choral speech and individual students give Speech recitals. The recording

and radio studio has modern electronic sound equipment. The facilities of local radio stations are regularly available to students in the department. A speech clinic is being organized, and its services will soon be available to students who need to overcome individual voice and speech defects. Students not majoring in Speech-Drama may join any of these organizations, take part in productions, or share in the use of the special facilities of the department if interested and qualified.

OUTLINE OF COURSES FOR A DEGREE

- 1. Participation in extra-curricular activities of the department, as prescribed by the major professor, is a requisite for any degree. Records of this participation are maintained.
- 2. Candidates for a major in Speech-Drama on the Bachelor of Arts degree will take 30 semester hours of work which must include 312ab and approved sequences in two areas of Speech-Drama. At least 12 hours of this work must be at the junior-senior level. These areas and the courses offered in each are listed below.
- 3. A minor in this department will take 18 semester hours which must include 312ab and an approved sequence in one area of Speech-Drama work. Six hours of the minor must be at the junior-senior level.
- 4. The Bachelor of Fine Arts degree in Speech-Drama will include 312ab, 324ab, from 24 to 30 hours in the area of concentration, and approximately 27 hours distributed in approved sequences in two other areas of Speech-Drama for a total of 66 hours. At least 30 hours of this work must be at the junior-senior level.
- 5. The Bachelor of Fine Arts degree in Drama will include 312ab, 324ab, and courses in Drama and Interpretation as approved by the department for a total of 66 hours. Candidates will also include Music 214ab, Music 342, and (for those specializing in technical theatre) Art 339ab. Nine hours of this work may be credited toward satisfying the 66-hour requirement. At least 36 hours of this work must be at the junior-senior level.
- 6. Candidates for the degree of Bachelor of Fine Arts in Speech-Drama or in Drama will take 60 semester hours in other departments which must include: English, 12 hours; Social Science, 6; Science, 6; Psychology 321, 3; Religion, 6; Philosophy 340, 3; foreign language, 6 (numbered 321 or above), and Physical Education, 4. The remaining hours will be taken as academic electives, with the exception that Bachelors of Fine Arts in Speech-Drama concentrating in radio must include Music 214a and 214c, 4 hours.
- 7. The student may wish not only to satisfy degree requirements as outlined above, but also to complete the courses requisite for a permanent teacher's certificate as outlined by the Texas State Department of Education. Since this certificate requires 21 semester hours of work outside the Speech-Drama Department, candidates for the Bachelor of Fine Arts degree must plan very carefully if the necessary work is to be accomplished within the four-year course. In most cases an extra semester, or at least an extra summer term, may be necessary. Requirements for the permanent certificate in Speech-Drama in secondary education are as follows: Speech-Drama 349ab, 6 hours; Government 328, 3 hours; Psychology 321, 3 hours; Education 341, and 342, 6 hours; and Education 323, 334, 335, or 336, 9 hours. Students planning to teach in another state will be responsible for presenting and fulfilling the certification requirements of that state.

Professors Hammond, R. A. Smith, Gayle Scott, W. B. Gates, Cortell K. Holsapple.

Curriculum Committee: Dean Lord, Chairman.

Professors R. A. Smith, Willis G. Hewatt, T. Smith McCorkle, E. M. Sowell, Examining Committee: Dean Lord, Chairman.

Students Major and Minor Professors, Faculty Representative.

The President of the University is an ex-officio member of all committees.

ADMISSION

Graduates of colleges and universities of recognized standing are admitted to the graduate school.

Application for admission must be approved by the Dean of the Graduate School. Applications from other institutions than Texas Christian University must file with the dean an official transcript of undergraduate work. Admission to the Graduate School does not necessarily imply candidacy for a degree.

REGISTRATION

Graduate students will register in the office of the Graduate Dean at the opening of each semester or summer session. The student's program of study must have the approval of the Dean and Major and Minor Professors. Work taken before such approval will not be accepted for graduate work.

PREREQUISITES

In all departments, a minimum prerequisite of twenty-four semester hours is required of all graduate students in their major field; six semester hours of such prerequisite must be in the 40's or 50's. A minimum prerequisite of eighteen semester hours is required of all graduate students in their minor field, six semester hours of such prerequisite must be in the 30's or 40's.

Credit by advanced standing to satisfy prerequisites for graduate work must be completed before the candidate is admitted to graduate work. Any student lacking prerequisites in a given field required for graduate work must immediately enroll in the course required to satisfy such prerequisites, and must obtain credit on the course before he will be granted credit in the graduate courses for which he has enrolled.

CANDIDACY

A student may become a candidate for a Master's degree only with the approval of the Graduate Council and the major professor. The applicant must fill out a blank form, provided for the purpose, which must be presented to the Dean at the time of registration. A B average on undergraduate work is required for candidacy.

DEGREE

The requirements for the Master of Arts or Master of Science are: 1. A Bachelor's degree from Texas Christian University or from another institution of recognized standing. 2. Resident work in the University for at least 35 weeks. No work taken in absentia or by correspondence may count on a Master's degree. A minimum of 30 semester hours, and whatever additional work in any course a teacher may require in order to satisfy the requirements for the degree. The courses for the degree must all be of senior or graduate rank; must have been passed with a grade of B or more, and must have been taken after the completion of 120 semester hours for the Bachelor's degree. 3. The student must select a major and minor subject, the combination to be approved by the Dean and major and minor professors. Ordinarily the major subject should represent about three-fifths of the entire course. 4. The thesis subject must (1) be approved by the major professor not later than two weeks following the student's acceptance to candidacy; (2) the thesis material

-182

GRADUATE SCHOOL

must be gathered and the thesis developed under the guidance of the major professor; (3) the student must show ability to do careful research work and to make use of available source material; (4) it must indicate ability and accuracy in composition. The first draft of the thesis must be submitted not less than two months before Commencement Day. Two final copies of the thesis, approved by the student's major professor, must be in the hands of the Dean of the Graduate School before the student will be admitted to examination. Printed instructions as to the form of the thesis may be obtained at the office of the Graduate Dean. (5) A working knowledge of one foreign language, the equivalent of twelve semester hours. The particular language required will be determined by the major professor. For the requirements for other advanced degrees see the School of Education, the School of Business, and the School of Fine Arts.

EXAMINATIONS

All candidates for the Master's degree must take a final oral examination covering all work taken for the degree, including the thesis, before an examining committee composed of those under whom he has studied, with the addition of a faculty member appointed by the Dean of the Graduate School. The examination may not take place later than two weeks before Commencement Day. Any graduate student who fails in a final oral examination for the Degree will not be allowed to take another examination within nine months; the same rule will apply to a failure in any written examination in a graduate course.

TUITION AND FEES

For tuition rates and other fees consult the general statements for the University. The rates are the same as for undergraduate work.

COURSES OF INSTRUCTION

¹ Courses listed below may carry graduate credit. Graduate courses are numbered in the 50s and above. A few courses numbered in the 40s may be credited toward the Master's degree on advice of the Dean of the Graduate School. Description of the courses will be found in the College of Arts and Sciences section of the catalogue.

BIBLE: Graduate courses are offered in the Brite College of the Bible, and count toward the degree of B. D. Some of these may be elected to count toward a Master's degree under certain conditions.

For a complete list of Directors, Advisory Committee members, Trustees, Administrative Officers, Faculty Committees, additional members of the Instructional Staff and Lecturers from the Medical Staff, see the separate Bulletin issued by the Harris College of Nursing.

CHARLES H. HARRIS ENDOWMENT

The Harris College of Nursing was made possible through a \$750,000 Trust Fund set up by the well known Fort Worth surgeon, Dr. Charles H. Harris. This College was developed from the Harris School of Nursing which was established in 1912 at the Harris Clinic Hospital, and became the eighth academic unit of Texas Christian University in 1946.

LOCATION AND FACILITIES FOR INSTRUCTION

The offices, classrooms, and laboratories of the Harris College of Nursing are located in the Harris Memorial Methodist Hospital. In addition to the Texas Christian University library, nursing students have the use of the College of Nursing library at the Harris Memorial Methodist Hospital which includes most of the nursing periodicals as well as nursing and medical reference books.

STATE REGISTRATION

The College of Nursing is accredited by the State Board of Nurse Examiners of Texas. Graduates are eligible for admission to the examination for certification as a Registered Nurse (R. N.) in Texas, and are eligible for registration in most other states by reciprocity.

ACCREDITATION

The program offered by the Harris School of Nursing was approved for accreditation by the National League of Nursing Education following a survey made in October, 1946.

NEED FOR BETTER PREPARED NURSES

With the rapid advance in scientific knowledge and the accompanying changes in the practice of medicine, increased demands have been placed on nurses. The professional nurse functions as a health worker as well as in the bedside care of the sick. In order that community nursing needs may be met more effectively it is essential that the program of study for graduate nurses be of a professional nature and the facilities of a College or University be made available for the conducting of such a program.

In an effort to better serve the community, Texas Christian University has made its facilities available to the Harris College of Nursing and will award the degree of Bachelor of Science in Nursing to students who fulfill requirements set up for graduation.

PROGRAMS OFFERED

The College of Nursing will for the present, offer two programs. It will continue the three-year basic program leading to the certificate in nursing which is open to qualified high school graduates. In addition, a program leading to the degree of Bachelor of Science in Nursing will be offered to qualified applicants who have completed two years of college work.

AIM

The aim of the Harris College of Nursing is to help carefully selected young women develop into capable, conscientious, professional nurses who will serve competently and creatively as agents for the promotion of positive health, and at the same time secure the greatest amount of happiness and satisfaction for themselves.

REQUIREMENTS FOR THE DEGREE OF BACHELOR OF SCIENCE IN NURSING

Two years of general education beyond high school is considered an essential part of the preparation for professional nursing. The professional nurse must have the cultural background, social understanding, and scientific knowledge that come from a sound liberal arts program to profit fully from strictly professional education. In like manner that part of the program dealing more directly with professional education contributes to the preparation of the nurse as a responsible citizen.

Students admitted to the College of Nursing for the degree program are required to complete the program in general education set up by Texas Christian University for nursing students, or are required to complete sixty semester hours exclusive of physical training in some other approved college or university.

Required courses are one year each of Biology and Chemistry with laboratory work. Other courses should be chosen from the fields of English, History, Psychology, Sociology, Science, and Religion.

Students working toward the Bachelor of Science degree in the Harris College of Nursing are accorded all the rights and benefits of other regular students of Texas Christian University. This covers participation in all activities including publications and athletic events paid for at current fees charged students on the Texas Christian University campus.

NURSING

RESIDENCE

Students are furnished room, board and laundry of uniforms without charge while in the Harris College of Nursing. They live in Harris Hall, a three-story brick building three blocks from the Harris Memorial Methodist Hospital. There are thirty-eight single and forty-six double rooms for students in this building. The two house mothers live in and supervise the residence. Students take their meals at the Hospital.

REQUIRED SUBJECTS FOR A B. S. DEGREE

All students granted any Bachelor of Science Degree by Texas Christian University must complete the following courses:

Religion-6 semester hours.

English-12 semester hours (English 311 and 324).

Social Science-6 semester hours (History or another Social Science).

Psychology or Philosophy-3 semester hours.

Science-6 semester hours.

Physical Training-2 years (taken in first two years).

In addition, to be eligible for graduation from the College of Nursing, students must have completed satisfactorily (1) all general education courses outlined for the degree of Bachelor of Science in Nursing; (2) all required courses of the professional curriculum including clinical experience; (3) make a satisfactory rating on achievement list in the clinical area in nursing and (4) must be recommended by the Faculty of the College of Nursing to the Board of the University for the degree of Bachelor of Science in Nursing.

Graduate nurses who wish to qualify for the degree of Bachelor of Science in Nursing must follow a program of studies approved in writing by the Dean of the College of Nursing. As a general rule 30 semester hours credit will be granted for work which has been done to fulfill requirements for the certificate of Registered Nurse. A transcript from the school of nursing should be sent in for evaluation. On the basis of this evaluation the program will be planned on an individual basis. Graduate nurses will be required to complete 90 semester hours of work in the University, 60 hours of which shall be in general education courses equivalent to those required for the Bachelor of Science degree in Nursing, the 30 additional hours are to be prescribed.

Those who have had previous college work may be granted credit for courses in general education equivalent to required courses.

Graduate nurses coming from other schools of nursing may be required to demonstrate under supervision their proficiency in nursing before being recommended for the degree of Bachelor of Science in Nursing.

SUMMER-12 WEEKS

This period of 12 weeks instruction and supervised practice in caring for medical and surgical patients serves as an orientation to hospital work and as an aid in determining the student's aptitude for nursing.

Junior Year

Instruction and supervised clinical practice are continued in Harris Memorial Methodist Hospital. In addition to classes listed below each student receives 3 hours organized clinical instruction per week throughout her entire clinical experience. She works under the close supervision of graduate nurses on all services, the hours of instruction per day depending upon the newness of the situation. In the operating room, premature and newborn nurseries, surgical recovery room, etc., instruction and supervised practice is frequently continuous for several days.

ADDENDUM TO ENROLLMENT RECORD OF 1946-1947

CLASSIFICATION OF ENROLLMENT IN DETAIL

(Due to the change, made at the end of the Spring trimester of 1947, from the tri-semester basis to the basis of a summer school plus the two-semester school year, the figures that appear immediately below would have appeared in the catalogue of last year under normal conditions. They are given here to complete the record, and are not included in the breakdown of details on the following pages, and are not considered a part of the 1947-1948 school year report.)
