Dear Sir:

The Newport League for the Hard of Hearing respectfully urges that a portion of the Will Rogers Memorial Fund be given to the American Society for the Hard of Hearing to aid in its nation wide work for hard of hearing children.

We feel more strongly than we can express that preventive measures should be taken at once to keep one tenth of the children of today from becoming the hard of hearing men and women of tomorrow--men and women suffering not merely from a physical handicap, but from the deafness that is "a wound of the spirit". Every hard of hearing child needs all possible help.

Will Rogers--a great humanitarian--would surely be among the first to want to have help given the hard of hearing child, who has been so long neglected. No organization is so well qualified to give this help as the American Society for the Hard of Hearing.

Sincerely yours,

THE NEWPORT LEAGUE FOR THE HARD OF HEARING
