DR. TRAWEEK TO HANDLE ROGERS CAMPAIGN HERE

Well Known Physician
Named By Star-
Telegram

90
Dr. A. C. Traweek, pioneer doctor of Motley county and associated with the Traweek Hospital here has been named by James R. Record of the Fort Worth Star-Telegram to handle the Will Rogers Memorial campaign. Dr. Traweek has been selected by the newspaper in line with the selection of other prominent residents of the various Texas counties to promote the greatest results in securing funds to commemorate the late humorist-philosopher in a fitting memorial.

Drive Is Planned

While greatest results are expected to be obtained from personal work, committees will be selected for each community in the county with a possible two committees to work in Matador. Also suggestions of benefit shows have been offered and some plans made to that end. Memorial chapters among school children will likely be arranged. Cowboys in this section will be asked to form their own chapter in order that the greatest effect from the drive may be realized. Churches and clubs will be asked to participate.
