

T. C. U. FACULTY BULLETIN

Vol. IV

April 28, 1933

No. 23

In order that we may not duplicate the sending of catalogs we are asking each teacher to hand to the registrar's office, a list of those to whom he is sending summer school catalogs. Any additional names you can secure from any source will be gladly received at the office and we shall promptly mail them the summer school bulletins.

Will the department heads please come by the registrar's office and check the re-typed catalog copy.

	Donovan, Paul

---S. W. Hutton, Registrar

The May faculty meeting will take the form of a dinner in the University Cafeteria at the nominal price of 50¢ per plate. The hour is 6:45 p. m., Monday, May 1. The dinner will be informal, but the committee in charge wishes to encourage the ladies to feel free to wear their party dresses. Music during the dinner will be furnished by a student trio.

Afterwards, in the auditorium, the guest of honor and speaker for the evening, Dr. Ben D. Wood, director of the Cooperative Test Service of the American Council of Education will deliver an address. Several members of the Fort Worth school system have been invited to be our guests for the entire evening and others will doubtless attend the lecture.

The chairman is trying to see everyone on the faculty, but if he should miss anybody who wishes a reservation, he would appreciate being notified by telephone (4-1552) so that Mrs. Harris may be informed. Any necessary cancelations should be phoned in as soon as possible.

--M. D. Clubb

Dr. Ben D. Wood of the American Council on Education, who addresses the faculty and guests from other educational institutions at its annual banquet Monday evening, has accepted an invitation to address the freshman-sophomore chapel Monday morning at 10 o'clock. Members of the faculty are invited to this assembly.

--Pres. Waits

Dr. Edward Bartow, head of the department of chemistry of the State University of Iowa, will lecture tonight at 8 o'clock in the Medical Arts Building Auditorium on "Scientific Observations in the Orient and Australia." The lecture will be illustrated with lantern slides. Tomorrow at 11 a. m. Dr. Bartow will speak to students and faculty in the amphitheater on some subject of particular interest to science students. Saturday evening he will be the principal speaker at the semi-annual meeting of the Central Texas Section of the American Chemical Society at Waco. Anyone interested is invited to attend any or all of these meetings.
