

LIST OF ABSENTEES

NAME	DATE & CLASS	REASON
Ridgeway, Ruth	All classes for week	Tonsil operation

Withdrew for spring semester:

Names redacted

Teachers are urged to make sure of a white card for every student attending class. Send all other students to the Registrar's office immediately for registration.

We have been obliged to change sections for a few students both in English and Social Science but we have tried as far as possible to keep these students with the same teachers. Any error in registration will be gladly corrected if called to our attention in the Registrar's office.

The Curriculum Committee is making a restudy of the combinations of Majors and Minors as required or allowed for a degree. The new emphasis on the Division idea calls for this, as well as general need for restudy. Each Department, through its Head, is requested to turn in to Dean Hall suggestions on this point. Are the minors required with your Department as major, correct as they now stand? Should some be eliminated, added, preferred? Are there some courses in other Departments that should be prescribed, or urged?

The Committee is recommending to the Cabinet that the Second minor be eliminated. This will permit more electives, and "prescribed" and "urged" courses.

Dean Hall

All teachers of night classes must make sure that students have registered definitely for the second semester. Your white card is the guide.

Thanks for the early grades from teachers. All should be handed in not later than Tuesday noon, February 6th.
