Both Administration and Faculty members are anxious for an accurate listing of personal data in the 1934-35 catalog. Please hand to the Registrar any correction desired after consulting pages 7-10 of the 1933-34 catalog.

All Department Heads are urged to file with the Registrar within the next week the list of courses to be taught in the department 1934-35 together with brief description of courses as this data should appear in the catalog. Your immediate attention to these items will hasten the issuance of the catalog. Where changes are few please use pages of last years catalog (1933-34). This will save time for all.
