REVISED EXAMINATION SCHEDULE - FALL 1934-35

In the Cabinet Meeting, January 3, the recommendation from the Classification Committee, that seven days be devoted to final examinations, was adopted. Two examinations are to be given daily, 8 and 1 o'clock, allowing approximately two hours and thirty minutes for the average student.

With this plan in mind the following schedule has been worked out. This has been adopted by the Cabinet.

No examinations are to be given out of schedule time. Any classes not scheduled may be examined at the discretion of the teacher, provided there is no conflict in hours. Small classes meeting at odd hours should be checked with the Registrar before hour for examination is announced to the class.

Examinations for night classes will be given during examination week at the regular class period.
