

Mr. Carter:

I believe that we will be ready to move the fifteen cars not later than 4 oclock Saturday afternoon.

At least we are trying for that time, as we must get the stuff to the ships in the East, as soon as possible.

We will have photographs made both at the Santa Fe station and from the air as the train goes north. Also we will cover the leaving and submit the story and pictures to you for OK.

I am arranging to check the cars along the route at least until they are delivered to the eastern lines in Chicago.

Signs will be put on the cars Saturday morning.

If this general plans isn't allright, we can revise.

JBR

P.S. You will note that we finally inserted "European" on the sacks, both in English as well as in the German, Italian and French inscriptions.
