Dear Colonel:

Thanks immensely for your nice letter of 30 December with the copy of the N.C.R. Factory News, which I have carefully read. I shall have to adopt your pronunciation of the word "carillon" as, according to Webster's International, it is backed by six of the seven authorities shown.

The information and advice you give me is sound sense and, after making a copy for my guidance, I shall send it to Amon Carter, who is giving the Carillon to Culver and is considering one also for the Will Roger's Memorial at Fort Worth.

Best regards to you and Mrs. Deeds.

Yours, faithfully,

R. H. Fleet
