

Mr. Carter:

The talking movie people in Dallas (Jamison) want \$350 to film the ~~whole~~ program Tuesday. They will use two cameras to make the pictures and sound track. *If the program runs longer than about 25 to 30 minutes, the cost will be more.*

I tried a Fort Worth operator but he can't get more than forty seconds at a time because of unwinding and rewinding of the reel. He cannot make a continuous movie. He can get only the highlights.

I did not go any further with Jamison because of the cost without consulting you. He will not be able to make but five minutes at the farm because of the necessity of getting back to the coliseum and setting up for the program.

If you want to go ahead with the Jamison job, let me know sometime today <sup>#</sup> because he will have to get his equipment ready.

JRR
