Dear Mr. Carter,

Of all the countless things you have done for this community and for the Nation, I think the most wonderful is that which culminated yesterday with the unveiling of the Will Rogers statue and portrait.

You have not only memorialized your beautiful friendship with Mr. Rogers and Mr. Rogers himself in a most fitting and appropriate manner, but, also, the artistic monuments will bring pleasure and inspiration to hundreds of thousands of people in the days and years to come. As one of them and as your friend, I thank you.

Sincerely yours,

  
Web Maddox.
