Amon Carter,
Fort Worth.

Dear Amon:--

If I can bother you about a personal matter, here goes. Mrs. H. and I are very anxious to have a photo if one is available, of the Rogers statue and its dedication, and any others available of the proceeding.

You may know that I was Chairman of the Will Rogers Memorial Committee at Claremore, and we spent about 3 years, sifting plans (which came I think from every State in the union and several from foreign countries) locating ground and preparing same and getting the memorial built. So would like to have your statue proceedings in photo form if possible to post in my office with the Rogers pictures of the mem. statue at Claremore, and among my most treasured possessions.

Mrs. Hoffman and I still talk about the very delightful visit you afforded us and your fine entertainment; she joins in kindest regards and best wishes, always,

Roy Hoffman
