December 1, 1947

A. G. Carter Company
P. O. Box 1036
Fort Worth, Texas

My dear Mrs. Deakins:

I have heard nothing about the proposed Will Rogers Memorial Tower Carillon since receiving a copy of Wyatt C. Hedrick's letter to Mr. Carter of September 16, at which time he enclosed a print of the proposed changes and louvers to be put in the Tower so that the Carillon could satisfactorily speak from the Tower.

I would greatly appreciate it if you would write me a few lines on this hoped-for completion to the tower of the Will Rogers Memorial group, bringing me up to date. Mr. vanBergen was also enquiring about this matter a short time ago, and, it seems, the Dutch Government is also interested in doing anything it can to aid the cause, principally in expediting the Carillon's founding and shipment from Holland to this country.

Sincerely yours,

Donald Beggs
