DEPARTMENT HEADS AND COUNSELORS will be glad to get a brief summary of the registration figures for 1937-38. For convenience we are summarizing the total registration of this office to date by indicating opposite each name the number of course cards bearing the "O.K." of that teacher. We had 150 May 19, 1936.

While the time set apart for registration has closed, the administration will appreciate additional registrations as you are able to "run down" the students. Some of them are "hard to catch". We appreciate the efforts put forth by members of the faculty in this matter of registration.

Late next week a bulletin will be posted in the Registrar's Office showing the total registrations in each course to date. If you are interested, take a look.

TOTAL	<u>133</u>

SUMMER SCHOOL REGISTRATIONS total 28 to date. This figure is about the same as last year at this time. Urge your students who plan to attend during the summer to register between May 17 and 22. It will conserve their time and ours.

THE EXAMINATION SCHEDULE was issued in the Faculty Bulletin of last week. Please follow the schedule closely. This is very important. A list of June seniors will be published in the Faculty Bulletin next week on which you will record final grades.

PLEASE REPORT IMMEDIATELY all students, not previously reported, who have exceeded the limit of absences, and who are at the same time behind in their work. Special attention should be given to these now. Freshmen and Sophomores who have exceeded 9 absences during the semester should by all means be reported to the Registrar at once.
