

Mr. Record:

Dr. Clifford B. Jones of Texas Tech asked me to get this message back to Mr. Carter:

Dr. Jones said one day recently Dean Stangel was riding his horse past the Will Rogers statue. It saw the bronze horse, stopped and nickered to it.

"It's the finest compliment that can be paid the sculptress," Dr. Jones said.

He also asked me to mention that the Tenney paintings drew more attention than any other exhibit at the museum opening.

George Dolan.
