**TIRED OF BEING HOT
HE HUNTS SOME SNOW.**

ALBANY, N. Y., June 9.—They thought it was the heat when Ambrose O'Neil, city hall watchman, started talking about throwing snowballs, with the thermometer at 92.

The June heat wave made O'Neil think of a "snow hole" near his boyhood home at Berlin, in the New York Berkshires. Winter snows drift into a mountainside crevice and often stay there until August.

Thursday O'Neil went back home. The snow was in the snow hole, two feet deep. And so he could tell his friends about it Friday. He made snowballs and threw them.

HUNTSVILLE, Tenn., June 9.—Armed with guns, several men forced their way into the Scott county jail Thursday night and carried away Jerome Boyett and Harvey Winchester, both held on murder charges.

Winchester's body, riddled with bullets, was found Friday about 200 feet from the road near Huntsville. Boyett has not been found.

Boyett was charged with the murder of Sheriff G. B. Winningham and his son, Floyd Winningham, a deputy, both of Pickett County, about three weeks ago.

Ethan Laxton, jailer, said about 25 men, armed and masked, came to the jail about 11:30 p. m. and rapped on the door. He said he was knocked down as he opened it.

The men then dragged Boyett and Winchester outside, the jailer said.

Winchester, officers said, was charged with the murder of Namon Perry and Esker Thompson at Winfield several months ago.

Soon after Sheriff Winningham and his son were slain, Boyett's father was taken into custody and a reward offered for his son. The elder Boyett was released from jail when he said he thought he could locate his son. The next day his body was found and his death has remained a mystery.

Harry B. Jameson (left), sponsor of Jimmy Mattern's solo flight around the world, and Jack Clark II, the Texan flier's personal representative, are pictured at their New York headquarters as they traced the route followed by Mattern on his dash.

MOSCOW TIME (7:30 A. M. E. S. T.)

He intends to remain there until Saturday. No details were available here but the aviator presumably was in good health and his plane was functioning well.

**CONFIDENT STILL
HAS CHANCE TO WIN.**

MOSCOW, June 9.—Jimmie Mattern, American round-the-world flier, passed over Nizhni Udinsk, in Eastern Siberia, at 2:05 p. m. Moscow time (6:05 a. m., Eastern Standard Time) Friday.

Nizhni Udinsk is about one-third of the distance between Krasnoyarsk, Mattern's last taking-off place, and Chita; apparently his next objective. It is about 1,300 miles from Krasnoyarsk to Chita.

Mattern hopped off from Krasnoyarsk a little more than four hours after he had arrived there from Belovo, Siberia.

The American aviator, who believes he still has a chance to establish a globe-girdling record, despite setbacks by sickness, rain and plane trouble, arrived at Krasnoyarsk at 7:30 a. m. Moscow time (11:30 p. m. Thursday, Eastern Standard Time).

He was away again for an unreported destination at 11:55 a. m. (3:55 a. m. Eastern Standard Time) after a hurried attempt to repair the damage his red, white and blue "Century of Progress" suffered during the forced landing at Belovo early Wednesday morning.

The Texan apparently had recovered from the nausea which had forced him to land, almost unconscious, at Belovo when he departed from that miners' settlement, waving his thanks to the hospitable Soviet authorities and people who had helped him.

Everything was ready for him on his arrival in Krasnoyarsk, and it was believed his early getaway was made possible by the presence at the airport of an interpreter and the essentials he needed.

His hope of beating Post and Gatty apparently rests in his ability to reduce the time he is on the ground henceforth. Mattern was about 10 hours from Irkutsk—although it is not certain that he will go there—and should he reach that city in 10 hours, he would be about 145 hours out of New York. Post and Gatty took about 92 hours to reach Irkutsk, but they were grounded a total of 52 hours at Blagovestshensk, Khanarovsky, and Edmonton, Canada, subsequently.

**FARM MONEY
IS CIRCULATING**

New money, obtained from the sale of farm products, is beginning to circulate in West Texas.

Reports today to The Star-Telegram are from the following points:

THROCKMORTON, June 9.—Throckmorton shipped her first car of 1933 wheat Thursday. The grain tested 62 pounds and brought 58 cents delivered on the car.

Throckmorton County will harvest a good wheat crop again this year. While the yield will be hardly as much as last year, it probably will sell at a better price. Many farmers are getting 15 bushels to the acre.

OLNEY, June 9.—The first carload of wheat shipped from Olney this season was billed Wednesday by the Graham Mill and Elevator Company, Olney branch, to Graham. Two thousand bushels of 1933 crop wheat, testing 63 pounds to the bushel, made up the shipment.

A second carload was billed by the same company Thursday.

GRAHAM, June 9.—The first load of Young County's 1933 wheat crop was sold here this week by Will Hogard. The wheat brought 58 cents a bushel.

J. S. Criswell, manager of the Graham Mill and Elevator Company predicted the wheat crop this year will be only about 40 per cent of that harvested last year, but about 50 per cent of an average crop. Last year an unusually good wheat yield was harvested in this county.

**Woman Who Won
Ruth Judd Over
Is Visitor Here**

The woman who won the confidence of Ruth Judd, Phoenix murderer, while she was in jail awaiting trial, was a visitor in Fort Worth Friday.

She is Mrs. Lon Jordan, matron of the Phoenix jail. She, her husband, a deputy sheriff in Phoenix, and their daughter are on a vacation and are en route to Muskogee, Okla.

Jordan visited the sheriff's office Friday morning while waiting for his car to be repaired. He was in the courtroom during most of the Judd trial and described it as a "mad house."

"Ruth Judd is not insane," said Jordan. "She was just smart enough to save her neck. She was a lot smarter than her lawyers or she would be dead today."

Jordan said his wife had befriended the accused woman, won her confidence and learned her life story.

The Jordans spent Thursday night at the home of Mr. and Mrs. Gordon Autry, 3617 Ada Street.

**CONFEREES DISAGREE ON
3 PER CENT POWER LEVY**

WASHINGTON, June 9.—Senate and House conferees Friday disagreed on the Johnson amendment to the gasoline tax bill exempting municipally owned electric plants from the 3 per cent power levy and the issue is to be brought up in the House for final decision.

The Senate refused to accept the House amendment to the bill transferring the three per cent power tax from consumers to producers without exempting municipally owned plants.

The conferees were agreed on all other phases of the bill, continuing the 1 cent a gallon gasoline tax for 12 months from June 30 and reducing local first class postage from 3 to 2 cents. A while later, the latter were agreed to formally by the House.

**SUSPECT IN PRIDDY
BANK ROBBERY HELD**

Clarence Blake, charged in Mills County in the robbery of the Farmers and Merchants Bank of Priddy March 31, was arrested here Thursday afternoon by Texas Rangers and taken to an unnamed destination for questioning.

Charges against Blake were filed last Saturday. Ranger Capt. H. T. Odneal declined to reveal where he is held for questioning, fearing efforts of attorneys to obtain his release on bond.

**THINK IT OVER
BY H. M. STANSIFER**

WHEN some people have the money, they haven't the time to go on a vacation; while others have plenty of time but no money.

**FURTHER TRADE AUDITOR WILL
GAIN INDICATED HIRE FEE MEN**

By Associated Press.

NEW YORK, June 9.—Further trade gains in nearly every part of the country are indicated in the past week's reports from the chief centers of production and distribution, the Dun & Bradstreet review said Friday. The contra-seasonal expansion is spectacular in some fields, the review added.

"Apparently immune to any potential adverse turn in the trend of political or economic adjustments," said the agency, "commercial and industrial activity is being extended persistently."

"While there has been no abatement in the strengthening of fundamental factors, speculative activity has slackened, doubtless awaiting national and international decisions of the week ahead to forecast the broadening of employment and higher wages on which further recovery must rest."

"The breath of the current recovery, however, is indicated not only by the reports of trade trends, but is substantiated by the indices of specific industries, nearly all indicators joining in the advance."

"Retail trade has continued to expand under the influence of the first full week of real Summer weather this season and the continued improvement in general business. Sales of the larger stores and specialty shops are increasing steadily."

"In the wholesale markets activity continues unabated, orders for Fall running well into excess of last year's total, and in many cases above the 1930 record. Reorders are being placed freely in anticipation of consumer sales continuing at the present level or better during the Summer."

**Post to Take Off
for N. Y. Saturday**

OKLAHOMA CITY, Okla., June 9 Wiley Post, who, with Harold Gatty, set a round-the-world flight record two years ago, will take off from here Saturday in the "Winnie Mae," the same plane in which the record was established, for New York from where he will start another world flight.

He will fly the Great Circle course, he said.

His "robot pilot" mechanism, he believes, will enable him to conserve his energy in his assault on any record which James Mattern, now in flight, sets.

He said stops might be made at Chicago and Washington on his way to New York.

**RADIO DEMONSTRATION
TO POLICE POSTPONED**

A police radio demonstration, scheduled for Friday before City Manager Fairtrace and Police Chief Lewis, was postponed indefinitely because of plans of the demonstrators.

Instead of bringing a model of the radio broadcasting set, the company now intends to install a complete set on one of the downtown buildings and actually to communicate with a cruising automobile that will go to various parts of the city.

**400 MILLION TO STATES
FOR ROADS APPROVED**

WASHINGTON, June 9.—The Senate Friday by 65 to 20 adopted a committee amendment to the industrial recovery bill allotting the \$400,000,000 to the States for roads on the basis of one-third each on population, area and existing road mileage as against one-half population in the House bill.

In order that his staff may perform the "many additional duties imposed by certain acts of the Forty-third Legislature," County Auditor Yancy has discharged two of his present employes and engaged two accountants he considers more qualified in fee system work.

The two employes given notice are W. S. Tannahill, 800 Samuels Avenue, who has worked in the office for about 14 years, and O. C. Champion, Grapevine, a deputy county auditor for 12 years. Their service with the county will terminate Saturday. Both will be given pay to June 24, although they will not work after this week.

The new men, who will go to work June 15, are in no sense replacements of Tannahill and Champion, the county auditor explains. The two hired are T. A. Mitchell and H. A. Holtzer, both of whom were employed by the outside auditors in the audit of the county offices now being finished. They are Fort Worth residents.

The county auditor stated that the personnel changes were "necessary in order to get experienced fee men, who are capable of compiling such reports and information as required by law."

Tannahill has been on the claims desk for some time, checking certain bills presented to the county. This work will be taken over by Albert Martin, one of the present staff. The necessity for the class of work Champion has been assigned to recently has largely been removed by the installation of the bookkeeping machine, which does the routine work of several bookkeepers, Yancy pointed out.

Yancy explained that his office is now required to make monthly quarterly and annual reports of all offices. He listed the following as some of the additional duties placed upon the county auditor:

(a) Article 1656A, passed by the

**MRS. GOOGINS, DAUGHTER THINK
STORIES PLAN TO EMBARRASS**

Efforts in the newspapers to connect the name of her daughter, Miss Ruth Googins, with an Elliott Roosevelt romance were regretted in a statement issued Friday afternoon by the mother, Mrs. Joseph B. Googins of Penn Street, Fort Worth.

The mother and daughter, both of whom know Elliott Roosevelt, son of the President, looked upon the whole affair as an attempt to try to embarrass the President and Mrs. Roosevelt.

Mrs. Googins regretted the undue publicity given to the friendship of her daughter and Elliott and said that it would have no significance if the young man was not a member of an official family.

The statement of Mrs. Googins follows:

"I regret that some newspapers in their energetic effort to make something out of nothing, have seen fit to drag into this present situation the name of my daughter.

"It seems to me that the whole thing is merely an attempt to bring on some embarrassment, if possible.

**AMENDED RAILWAY BILL
IS APPROVED BY HOUSE**

WASHINGTON, June 9.—The House Friday approved the Administration's amended railroad bill, leaving only Senate action necessary to send the measure to the President.

The bill providing for the appointment of a federal co-ordinator to devise ways of operating the railroads more profitably, was approved without objection.

"It is true that my daughter, Miss Googins, does know Mr. Elliott Roosevelt and has seen him several times on his visits to Fort Worth. She regards him highly as a friend and she, too, regrets the attempt to magnify the whole affair."
