# 8 Loan Companies Sued for Interest

Suits against eight loan companies, alleging usury in each case and asking for recovery of alleged usurious interest, \$5,000 damages and \$50 attorney's fees were filed in Ninety-sixth District Court Saturday morning by Willard R. Wilbur.

Wilbur charged in each of the eight petitions that the loan companies had wrecked his health and been the proximate cause of his losing his job. He seeks recovery of alleged usurious interest of \$2,798, in addition to \$40,400 damages and attorney's fees.

He also alleged that each of the loan companies had not complied with Article 6561-A of the revised civil statutes, requiring that such companies give bond in the sum of \$1,000 to the county judge.

Wilbur's petitions state that he was a salaried man when he borrowed from the loan companies and that their nagging caused him to worry, lose weight and finally contract pneumonia which, in turn, caused him to lose his job.

The finance corporation purchased revenue bonds of the city of Toyah up to the amount of the loan. The city is a division point on the Texas and Pacific Railroad and is in the center of ranching and oil activities of Reeves County. It has no water

instead of 28, as recommended by Stevens; that it retain 50 wagons instead of 12, 25 sets of harness instead of 12; that the general supervisor's salary be \$175 instead of \$200 a month; that eight shovelers be employed to assist the 16 truck drivers, that 32 laborers be employed instead of 16.

The maintenance committee also recommended that in order to care for increased expenditures caused by the addition of maintainers and laborers, that the equipment and men be shifted to road construction work and that expenses be paid out of the construction fund.

**Mowing by Farmers.** They recommended that mowing along lateral roads be done mostly by farmers hired at the rate of 65 cents an hour for both time and equipment, and that the general supervisor furnish his own car which would be maintained by the county.

Short and Fox, in their recommendation to disapprove Stevens' report, declared that, "in view of the present unemployment condition the county should not reduce personnel." They also suggested that all equipment be held in reserve in anticipation of federal aid. They proposed that the county use manpower and dispense with the use of machinery when possible and that the county do as much construction work as possible.

Stevens had recommended that all new construction work should be contracted for.

# Time to Explain to Judge if Fido Gets Police Ticket

If your dog comes home with a police ticket, it's time to buy a rabies tag or explain to the judge.

The police dog patrol Saturday began giving traffic tickets to owners of dogs without tags issued by the city health department to show they have been vaccinated against rabies. The offending owners are given a week to get their dogs vaccinated or appear in Corporation Court. If the owner fails to appear, police are instructed to find the dog and impound or kill it.

About 1,600 rabies tags have been issued by the health department. They are given free to owners presenting a certificate showing the dog has been vaccinated against the disease.

such awards and the committee finds such actions has not been taken."

Of a \$125,000 item for expenses of the international economic conference, the committee said:

**Money for Claims.** "This amount supplements the appropriation of \$150,000 made in the second deficiency act approved March 4, 1933. The latter sum was intended to cover the expenses of a conference lasting three months and the amount recommended in the bill is a contingent appropriation to be utilized in the event it becomes necessary to continue the conference for an additional three months."

The bill also allowed \$265,000 for the Federal Trade Commission to administer the securities act; \$150,000 for the Federal Home Loan Bank board, to encourage savings and home financing; and several hundred thousand dollars for claims.

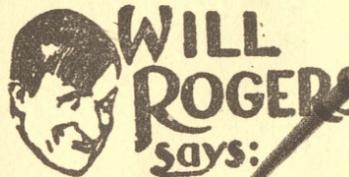

The Senate Saturday quickly passed the House measure consolidating all farm credit agencies under one and creating a revolving fund of \$120,000,000 to start operations.

The measure was returned to the House for action on amendments. The vote was by voice.

The bill ratifies a merger already in operation and authorizes the Farm Credit Administration to organize 12 production credit corporations and as many banks for co-operatives to make loans to farmers for production and marketing of crops.

The Senate adopted a committee amendment to give production credit associations and co-operative borrowers representation on the Federal Land Bank boards whose directors are also directors of the Production Credit Corporation and banks created by the measure.

He has, from the start here, conducted himself both in and out of the ring in a mighty commendable way that has brought nothing but credit on his country.

Roosevelt is trying to get rid of Congress by Saturday night. He has tried everything he knows. He has hinted, handed 'em their hats and almost insulted 'em. No more unvelcome guest has ever been invented than Congress. "One Eyed" Connelly is a sweetheart in comparison.

She was to be guest of honor at an ex-students' party at Sunnyvale Park at Grand Prairie Saturday afternoon.

Miss Hefley, who had been dean of women at the state college for women for 12 years and associate dean for three years before that, was given "an opportunity to resign" because it was "necessary to make some changes." # CANTONESE ARE OPPOSED TO R. F. C. LOAN

By Associated Press.

HONG KONG, June 10.—The Southwest Political Council cabled Saturday to the American Reconstruction Finance Corporation, protesting against the cotton and wheat loan to China arranged by T. V. Soong.

The council alleged the proceeds of the loan will be devoted to a civil war which the National government must wage if it proposes to carry out the terms of the recent settlement with Japan.

Dr. Soong, the council asserted, has added nearly \$1,000,000,000 to China's public debt to enable his brother-in-law, Marshal Chiang Kai-Shek, to wage a series of disastrous civil wars.

The purpose of these wars, the council declared, is to enforce the marshal's view that China is a personal or family possession.

The Southwest Council, representing the government in Canton and claiming also to speak for the famous Nineteenth Route Army which defended Shanghai against the Japanese, suggested that the Reconstruction Finance Corporation delay the loan until China has been united in resistance against Japan.

# Elliott Roosevelt Says 'No Romance'

RENO, Nev., June 10.—Elliott Roosevelt branded as "absolutely untrue" reports linking him in a romance with Miss Ruth Gogins of Fort Worth, when seen here Friday upon his return to complete his divorce residence.

Roosevelt laughingly denied that Miss Gogins was more than just a friend and indicated he does not intend to remarry after his contemplated divorce next month from the former Elizabeth Donner of Philadelphia.

"There's absolutely nothing to it," Roosevelt declared, ignoring instructions from his attorney not to talk for publication. "Miss Gogins is just a good friend."

The President's son is staying at the Platt Summer home on the shores of Lake Tahoe, with Ralph V. Hitchcock of Los Angeles, who drove him into Reno for a conference with his attorney.

Roosevelt said he plans to remain "pretty close" to the lake during his sojourn in Nevada, enjoying himself fishing and swimming. He and Hitchcock plan to do their own cooking and live out of doors as much as possible.

Plans for the divorce were not discussed by Roosevelt, nor would he comment on his separation from his young wife. She is expected to come to Reno to file the divorce action herself, a procedure commonly followed in this State.
