Dear Miss Tully:

On April 20, 1945 Mr. Carter received a letter from President Roosevelt dated April 12 and signed on a typewriter "F.D.R." thanking him for some grand champion steaks.

Mr. Carter wonders if this letter was dictated by the President and because of his death he was unable to sign it, or whether the letter was written by you or someone else in his office after he passed away. Since it is the only letter he received from the President signed in this manner and since his death was at that time, he was just curious to know the circumstances concerning the letter.

Yours very truly,

Secy. to A. G. Carter.
