Mr. Amon G. Carter
Fort Worth, Texas

Dear Mr. Carter:

Some years ago you distributed a number of prints of a picture taken of President Theodore Roosevelt with Chief Quanah Parker and others on the hunt in the Big Pasture of the Comanche lands in, I think, the year 1906.

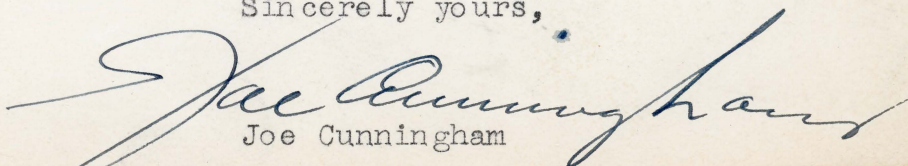

I wonder if a clear print of that picture is now available? By way of explanation, I should say that I do a certain amount of free lance writing, and at the present time I am doing an article on Quanah Parker. Any and all pictures that would enhance the interest in such an article would, of course, be valued, and I think the subject is one that will prove of interest to the editors with whom I am negotiating.

Of course, I shall be glad to pay the reasonable cost of any such pictures and, if desired, to return any or all of them after they have served the purpose.

It seems to me, furthermore, that your own career furnishes excellent material for an article, or series, that would be of interest to Collier's or the Saturday Evening Post and I wonder if you would care to cooperate with me in this in the event I can obtain a tentative commitment for publication from either of these magazines?

Thank you very much for a response at your first convenience.

Sincerely yours,

Joe Cunningham
