Dear Mr. Rose:

Mr. Carter received the lounge chair and is delighted with it. In fact, he is so pleased that he is asking that I order two more; one for his office and another for his doctor, who has back trouble and has to wear an aluminum corset or brace. He was so pleased I could not refrain from telling him how he had refused the chair and that we had plotted against him and suggested that you send it anyway. So, he got a kick out of that.

Again in behalf of Mr. Carter, I don't know of anything that you could have done that would have pleased him more, and he finds it a very comfortable relaxation.

By the way, I have just had a letter from Fay Cotton, who is now in Arlington, Virginia (Mrs. Ralph Shelton). Her husband has just recently passed away and left her and her seven year old son penniless. She made inquiry as to whether there might be a place on the Star-Telegram WBAP-TV for her. Of course, this phase of the letter has been turned over to Mr. Hough. I just thought you might be interested, as we were discussing her during your recent visit in Fort Worth.

Sincerely,

Secretary to A. G. Carter
