

Paris 23 July 51.

Greetings, Amou!

Forest Sherman's death yesterday shocked the people of France. He was Navy's liaison to the Civil Aeronautics Board in the pre-war days and was a personal friend.

Europe is apprehensive of the possible failure of the Korean negotiations.

I expect to be visiting my son-in-law (Jeff Montgomery) and my daughter in your city sometime in August and hope to see you then.

Regards-

Oswald Ryan
