

March 31, 1937.

Jewelry Department,
Attention: Mr. Greene,
The Fair Department Store,
Fort Worth, Texas.

Dear Mr. Greene:

Attached, herewith, you will find a page from the Star-Telegram, Sunday, March 14th, showing the new flight of the Pan American Airways from Honolulu South over to Kingman Reef, Pago Pago, Samoa, thence to Auckland, New Zealand. I would like to have this route etched and filled in with red lacquer on the globes, giving the names of these points and handled in the same manner as the other routes are indicated. In other words, this is a new trip since we ordered the globes.

In addition, be sure to have the names of Nashville and Baltimore filled in in their proper locations on the globe - this due to the fact that Jimmy Stahlman, of Nashville, and Paul Patterson, of Baltimore, were both on the trip and I would regret to slight their particular cities.

You can return the globe to the factory, have both of them finished up in this manner and sent by express to the writer, care The Ritz-Carlton Hotel, New York City, N.Y. The dinner at which these globes will be presented is April 23rd; however, I would like to have them arrive in New York somewhere between April 15th to 20th, if possible.

I am sending you, herewith, the inscription to be placed on the two globes. One is to be presented to Cornelius Vanderbilt Whitney and the other to Jaun Trippe. It will be necessary for a suitable plate to be properly attached to the base of the globe.

The only thing cheap looking or disappointing to me on the job is the scale which covers the top indicating the various degrees, numbers, etc. This might be improved by plating it heavily with gold, which should give it a smooth finish.

-2-

Trusting this will be satisfactory, I
remain,

Yours very truly,

AGC.KD
