Dear Sir:

We are shipping the two special globes to the above address by today's express and we sincerely hope they will arrive in good condition.

You will notice that on both of the arms, we have marked the bases to go with them. This is due to the fact that each of these globes were made especially by hand and all probabilities are that they will fit better as we have marked them than they would if they were transposed.

We would kindly ask you to acknowledge receipt of them after they are unpacked and advise us if you find them in good condition and satisfactory.

Very truly yours,

THE WATSON COMPANY
