Dear A mon:

Thanks for your letter, and have just about made up my mind I am not going to go any place at any time if I cannot get the Amon Carter Car.

You don't have to sell me on the Striplings. I remember Will Stripling very well and the number of nice times we had during the Casa Manana

I will not only do whatever I can with the song, but I will also get a confidential report for you from a couple of our best music publishers.

I can probably use this song anytime on my TV Teen show, but unfortunately the kinescopes of that show are not played in Fort Worth.

I will also be glad to submit it to the boys on the Goodyear show. We run this show with a committee and although I am in charge of the music we still have to talk everything over. So, if it meets with the approval of this gang, it is a remote chance and I say just a remote chance we may be able to use it on the Goodyear show. The kinescope of this show does come to Fort Worth.

I will do what I can and will keep you advised.

Maggie joins me in sending love to you and yours.

Sincerely,

/s/ PAUL
