

CHANGE OF SECTION

It is exceedingly important that teachers report to the Registrar's Office immediately all changes in sections. Frequently we need to call a student to the office. Where the hour in class has been changed without this office being notified much confusion is created. Please let us have notification on these changes you have made, not already reported. The Teaching Load Report gives us the accurate data on each teacher and for this report received we desire to express appreciation. What we need now is a report on students you have changed from on section to another. Thanks!

FIRST SIX WEEKS

October 30th will mark the close of the first six weeks of school. A student may drop a course on or before that date without an "F" grade counting against him in figuring grade points. If a course is dropt after that date (failing) the "F" holds as for the whole semester. Please announce this in your classes now. "Quitting" a class does not constitute a "drop".

COUNSELORS

An early meeting of Counselors of Freshmen and Sophomores will be called to redistribute the names for the counseling and guidance program of the year.

DISMISSING CLASSES

As these lines are being typed a class dismissed at least five minutes ahead of time is moving down the hall "sans silence". Please remember that the first bell is sounded seven minutes before the hour and is a warning. The second bell is sounded five minutes before the hour and is for dismissal. The third bell sounds on the hour and is for the beginning of the next class period. By working together on this schedule good administration on this point will be achieved. The official time is regulated in the Business Office.

ABSENCES

Quite a number of students will be absent this week end while making the trip to the A. and M. game. This is not an official trip, not an official holiday and no excuses are to be granted except to those who participate officially on the team.

EXCUSED ABSENCES
